COMPREHENSIVE PLANS

The County Superintendent and the County Board believe that careful planning is essential to effective implementation of programs and policies. Comprehensive plans shall identify cohesive strategies for school improvement and provide stability in County Superintendent and County Board operations and be aligned to ensure consistency among approaches for student academic growth and achievement.

The County Superintendent or designee shall develop comprehensive plans for the implementation of the vision and goals of the County Superintendent and the County Board on specific policy topics and on other areas as required by law and shall include the local control and accountability plan (LCAP) and other plans required by law or determined by the County Superintendent or designee to be in the best interest of County Superintendent and County Board schools. Such plans may describe, but not be limited to, anticipated short- and long-term needs, measurable outcomes, priorities, activities, available resources, timelines, staff responsibilities, and strategies for internal and external communications regarding the plans.

Comprehensive plans may be subject to review and approval by the County Superintendent and/or the County Board.

The process for developing comprehensive plans shall invite broad participation of school and community representatives. Committees may, and when required by law shall, be appointed to assist in the development of plans. Comprehensive plans shall be available to the public and shall be reviewed at regular intervals as specified within the plan or required by law.

In addition, school-level plans may be developed to meet the unique circumstances of individual school sites provided that they are consistent with law, County Superintendent and County Board vision, policies and plans, and County Superintendent administrative regulations. School plans may be subject to review and approval of the County Superintendent or designee and/or the County Board.
