Alice M. Worsley Court School, a Fresno County Superintendent of Schools' program, provides comprehensive educational services for school-age youth who are under the custodial care of the Fresno County Probation Department at the Juvenile Justice Campus.

The school's curricular emphasis has a solid foundation of the California State Standards while maintaining particular attention to various needs and learning styles of students. In addition, practices to support social and emotional learning are implemented and include, but are not limited to, School-wide Positive Behavioral Interventions & Supports, a decision-making framework that guides selection, integration, and implementation of evidence-based academic and behavioral practices for improving academic and behavior outcomes for all students.

Student Learning Outcomes are:

1. Students will demonstrate progress toward proficiency in academics, 21st Century skills, and college and career readiness.
2. Students will exhibit pro-social behavior, demonstrate self-discipline, responsibility, and encourage peer improvement.
3. Students will successfully transition and continue on an educational and/or career path.

Enrollment at Worsley varies for each student as determined by the adjudication process of the juvenile courts, resulting in a mobile student population. Recent Census Day enrollment for the school was 115, though up to 2,000 students may be served in one school year.
