FRESNO COUNTY SCHOOLS
DIRECTORY

2021-2022

1st Edition • January 2022
Last year was certainly a period of challenges and change during the pandemic. Nevertheless, the staff of the Office of the Fresno County Superintendent of Schools persevered and found new ways to support students, families and school districts through the uncharted territory of distance learning. Because of your tireless efforts and dedication, Fresno County students are well prepared to transition fully back to the classroom where they will rejoin their friends and teachers in fall 2021.

And we have also returned “Full Throttle” with a renewed commitment and drive to our colleagues and community as we take what we’ve learned during the many uncertain months and blast off into a better tomorrow. I look forward to our continued journey together as we “change lives, one future at a time.” I can’t ask for better co-pilots in education than each and every one of you!

We can change lives, one future at a time!

The Role and Function of the Fresno County Board of Education

The Fresno County Board of Education works with the Superintendent of Schools to provide services and support to the County’s 33 school districts. The Board is directly responsible for the education of youth in the custody of the Fresno County Probation Department through the Court Schools system, which includes Alice M. Worsley School and the Violet Heintz Education Academy. The board is also responsible for Community Schools which serve students who are out of custody and on probation, and students who are expelled from district programs. The Board of Education has the sole responsibility of reviewing expulsion and inter-district transfer appeals.

The Fresno County Board of Education is also involved in the Fresno County School Trustees Association, Inc., the California County Boards of Education, and the California School Boards Association. Board members must reside in one of the five Fresno County Board of Supervisors districts within Fresno County, and are elected by the voters of the district.

About the Fresno County Superintendent of Schools

County offices of education are the intermediate level of the public education system in California. Serving 33 school districts and more than 200,000 students, Fresno County Superintendent of Schools has a legislative mandate to ensure that school districts remain fiscally solvent and in compliance with state and federal laws. Moreover, county offices serve as a safety net for students with special needs, offering direct services for migrant, special education and court and community school students.

County offices also provide a full range of support programs and services. These include professional training and staff development, curriculum, business and finance support, health and pupil personnel services, as well as legislative and public policy leadership and advocacy at the local, state and federal level.

Career Technical Education
The Career Technical Education department manages the Fresno Regional Occupational Program (ROP), which empowers students to make meaningful career choices by providing opportunities for them to explore their interests, develop career skills and reinforce academics through career technical education. Programs include agriculture and natural resources; arts, media and entertainment; building and construction trades; education, child development and family services; energy, environment and utilities; engineering and architecture; fashion and interior design; finance and business; health science and medical technology; hospitality, tourism and recreation; information and communication technologies; manufacturing and product development; marketing, sales and service; public services; and transportation with offerings varying from school district to school district. Fresno ROP offers students a wide range of educational benefits, including college credit for qualifying courses, industry certification and internships when appropriate. More importantly, Fresno ROP allows students to develop a passion in what may become their lifelong career. The department offers the Designated Subjects CTE Credential for teacher preparation to those with industry experience that want to become CTE teachers.

Fresno County Court and Community Schools
The Court Schools provide educational services to students who are under the jurisdiction of the juvenile court and are in custody at the Fresno County Juvenile Justice Center. The school program is WASC accredited and offers a course of study that leads to a high school diploma.

The Community Schools provide educational services to students in grades 7-12 who are referred by the Probation Department, Juvenile Court, Department of Social Services, and school districts. Most students return to their districts of residence after a semester or a year; however, some complete graduation requirements while enrolled in our program and earn their diplomas.

Migrant Education Program
The Migrant Education Program (MEP) is a federally funded supplemental program that provides education and support services to identified migrant students ages 3-21. The program focuses on the areas of English Language Arts, Mathematics, High School Graduation, School Readiness, Health, Out of School Youth and Parent Involvement as defined in the California State Service Delivery Plan for Migrant Education.

The goal of MEP is to ensure that migratory students are provided with appropriate supplemental academic support that address their unique needs. They are afforded ample opportunities to reach challenging academic standards and graduate with a high school diploma (or complete a GED) that prepares them for responsible citizenship, further learning and productive employment.

Student Services
The Student Services Department provides individual, small group and classroom instruction that emphasizes the development of cognition, language, social, behavioral, self-help and academic skills to individuals ages 0 to 22 who have various forms of abilities. Needs are addressed within a framework of developmentally appropriate curriculum aligned with state standards. An important goal of our program is to enable students to become independent, valued citizens of their communities. Services are provided in a variety of settings including home, preschool, school and community.

Special Education Local Plan Area (SELPA)
The Fresno County SELPA is divided into four regions with representation from 31 Local Education Agencies (LEAs), including the Fresno County Superintendent of Schools Special Education Operated Programs. The SELPA ensures the delivery of special education programs and services to the students with disabilities residing within our regional boundaries. The SELPA also provides professional development monitoring and compliance, autism consultation services, Positive Behavior Intervention Supports (PBIS) and mental health services to LEAs.

The Fresno County Charter SELPA is composed of Charter LEAs located in Central California. The Charter SELPA ensures a quality educational program appropriate to the needs of each eligible child with a disability who is served by the Charter LEAs. The Charter SELPA offers support with quality special education services, professional development and collection and data reporting.

All 4 Youth
FCSS has created an integrated system of care along with Fresno County Department of Behavioral Health that ensures all youth 0-22 in Fresno County have access to behavioral health services to support their social, emotional and behavioral needs, as well as promote health, well-being and resiliency. Services are provided at school sites, homes and in the community.
