

# LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Laton Unified School District

CDS Code: 10-62281-00000000000

School Year: 2024-25

LEA contact information:

Lupe Gutierrez-Nieves

Superintendent

Inieves@latonunified.org

559.922.4015

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

## Budget Overview for the 2024-25 School Year

This chart shows the total general purpose revenue Laton Unified School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Laton Unified School District is \$13,174,918, of which \$9,019,270 is Local Control Funding Formula (LCFF), \$1,663,342 is other state funds, \$603,145 is local funds, and \$1,889,161 is federal funds. Of the \$9,019,270 in LCFF Funds, \$2,239,934 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Laton Unified School District plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Laton Unified School District plans to spend \$14,269,494 for the 2024-25 school year. Of that amount, \$13,174,917 is tied to actions/services in the LCAP and \$1,094,577 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

**Increased Focus on Core SEL Services:** By explicitly excluding expenditures such as teacher and administrator wages, benefits, and special education costs from the LCAP, there is an opportunity to allocate more resources directly toward social-emotional learning programs. This will lead to enhanced SEL curriculum, more comprehensive training for staff, and better support for students' emotional and mental well-being.

**Enhanced Teacher and Administrator Well-Being:** By ensuring that wages and benefits for teachers and administrators are secured outside of LCAP, educators may experience improved job satisfaction and stability, which will positively impact their ability to support student's social and emotional needs, as they are less likely to be distracted by financial insecurity or administrative concerns.

**Focused Special Education Support:** Allocating special education coordinator salaries and services outside of the LCAP allows for a dedicated focus on essential services, ensuring that students requiring special education receive tailored and consistent support. This specialized attention can significantly contribute to these students' social-emotional development.

## Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, Laton Unified School District is projecting it will receive \$2,239,934 based on the enrollment of foster youth, English learner, and low-income students. Laton Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Laton Unified School District plans to spend \$3,228,000 towards meeting this requirement, as described in the LCAP.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what Laton Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Laton Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, Laton Unified School District's LCAP budgeted \$4,526,655 for planned actions to increase or improve services for high needs students. Laton Unified School District actually spent \$3,933,045. for actions to increase or improve services for high needs students in 2023-24.

The difference between the budgeted and actual expenditures of \$593,610 had the following impact on Laton Unified School District's ability to increase or improve services for high needs students:

As described in the Goal Analysis in the LCAP, the District was able to implement the majority of the planned actions to increase services for unduplicated pupils in the 23-24 school year. Declining enrollment and less-than-anticipated staffing and professional development costs resulted in savings for the district that did not directly affect the ability to provide increased services to students. Action 2.8 was not fully implemented as planned due to construction delays, However, the portion of the action that was completed proved effective as there was a positive impact on both social-emotional learning and access to athletic fields, which were implemented with careful resource management. The expansion of athletic fields that was accomplished promoted physical health, social interaction, and overall well-being.

# 2023–24 Local Control and Accountability Plan Annual Update

The instructions for completing the 2023–24 Local Control and Accountability Plan (LCAP) Annual Update follow the template.

# Goals and Actions

## Goal

Goal #	Description
1	Promote Academic Success for All: By providing access to rigorous standards-aligned curriculum, intervention, and enrichment to increase academic proficiencies while closing the achievement gaps for all students, based on a culture of collaboration, community, and a supportive working environment that promotes independent learners, values collaboration among educational partners, and is centered on data-driven decision making.

## Measuring and Reporting Results

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Action 1.1 -- The District successfully completed all core staffing, including for Special Education.

Action 1.2 -- The Dual Immersion program implementation has been generally successful, though there are still areas in which implementation lags behind. Teacher training was conducted, and students participated in educational field trips to build knowledge and experiences that supported learning and language acquisition. One continuing challenge is maintaining BCLAD credentialed staff on a consistent basis and not having them leave for other districts. This also makes maintaining the expected ratios of Spanish to English usage at the different grade levels a challenge.

Action 1.3 -- Professional learning activities were successfully conducted. Leadership Tea. ms at the schools facilitated teachers' collaboration. Coalitions and grade level groups met regularly for pedagogical purposes, including data review from benchmark assessments and planning for instruction. A full-time physical education teacher for K-8 students ensured that teachers had time for collaboration. Standards-based report cards to report progress continue to be a success. A continuing challenge is in refining teachers' abilities to access and use data from Illuminate Data system and other data systems to target individual student needs, in part due to staff turnover. Another is completing the development and improvement of Grade-level Rubrics to ensure that students are evaluated by the same grade-level criteria for proficiency in preparation for success in the next grade level. The Leadership Team established a Principals' PLC for the ongoing review of site data and to recommend initiatives for improvement. Both these underscore the need for an Assessment Coordinator to provide support to teachers in accessing and using the data.

Action 1.4 -- This action was successfully implemented as planned. Staff were consulted through surveys and meetings to identify areas in which to provide professional development. Activities were provided in English Language Development, Mathematics, and English Language Arts. Staff participated in the CAFE conference.

Action 1.5 -- This action was successfully implemented as planned, with interventions provided during class time and after school for students identified for additional support. The academic coaches successfully provided teachers with additional supports. Laton Academy provided needed options and support to students enrolled in that school, though enrollment was less than expected. Paper Education was available for students in need of tutoring in grades 3-12; however, getting students to use the program continued to be a challenge, so this program has been dropped.

Action 1.6 -- All aspects of this action -- master schedule planning to ensure that English Learners and students with exceptional needs had access to a broad course of study and conducting the enrichment activities were successfully accomplished.

Action 1.7 -- Through the FCSS, the after-school program with adult supervision successfully provided an enriched atmosphere that promoted completion of homework and participation in schoolwork, and athletics was accomplished and available for all interested students. The District provided transportation so students have access to safe, reliable means of traveling from activities to home.

Action 1.8 -- This action was almost entirely implemented as planned. Students in need of them benefitted from the interventions and supports provided in class and after school. However, due to the unavailability of staff time to work on the project, the evaluation timeline for materials was still not completed.

Action 1.9 -- Teachers participated in targeted professional learning activities by Fresno County Superintendent of Schools' staff to support English Learners. A challenge remains in finding sufficient time to establish a consistent system for monitoring the progress of EL students and RFEP students. Supplemental supports for English Learners were provided. Collaboration on completing the updates of the English Learner Master Plan aligned with the English Learner Roadmap continued and is expected to be completed in the 2024-25 school year.

Action 1.10 -- The District was successful in conducting a summer school program that provided learning recovery, acceleration, enrichment, English language development, credit recovery, and original credit classes for all students interested in participating in grades pre-K-12.

Action 1.11 -- This action was again not implemented as planned: The District was challenged in completing some aspects of this action. Due to continuing challenges in securing necessary buses, college visits were limited. Declining enrollments have resulted in fewer opportunities for CTE classes and less need for trips to observe those programs in community colleges. The planned greenhouse entrepreneurial program was not implemented due to challenges in finding an advisor and staff to support the program. While the use of AVID strategies was expanded, it was not accomplished to the degree intended.

Action 1.12 -- The "launchpad" program was successfully implemented as planned. The District will continue to make it available for families of low-income whose children have not had any pre-school exposure or preparation.

Action 1.13 -- All the aspects of the action to support students with exceptional needs were accomplished. Supplemental materials and access to technology that will provide them with easier access to the core was available. Teachers were provided professional learning in supporting students with exceptional needs and increasing their access to the core curriculum. The District successfully maintained a

Comprehensive Coordinated Early Intervening Services (CCEIS) plan to support proper identification of students who qualify for Special Education services and to ensure a Student Success Team (SST) was in place to support meeting the continued needs of those students.

Action 1.14 -- This action was successfully implemented as planned, with declining enrollments mitigating the need to maintain the planned number of teachers to ensure smaller class sizes.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Action 1.1 -- Over-budgeted: Decreases in enrollment resulted in a need for fewer staff members than planned. Also, more experienced staff members left the District and were replaced by less-expensive newer teachers.

Action 1.9 -- Over-budgeted: Because the FCSS provided some training services at no charge, the expenses for this action were less than anticipated.

Action 1.10 -- Because enrollment declined, there was a concomitant decline in summer school enrollment, slightly reducing the need for staff.

Action 1.11 -- Over-budgeted: Declining enrollments have resulted in fewer opportunities for CTE classes and less need for trips to observe those programs in community colleges.

Action 1.14 -- Declining enrollments resulted in less than the planned number of teachers to ensure smaller class sizes.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

1.1 -- All of our classrooms have assigned teachers, with 86.4% appropriately credentialed and assigned, an improvement of 2.5% from the prior year, showing this action to be effective.

1.2 -- The Dual Immersion program was somewhat effective, based on 2023 Dashboard data. The "Distance from Standard performance level for Low-Income students and English Learners showed improvement in both ELA and math. The 2023 SBAC data for Percentage of Students Meeting or Exceeding Standard showed that Low-Income students improved at a faster rate in both ELA and Math than the All Students group. AP exam results showed 92% of students who took the Spanish-language exam passed. Our experience, and AP exam data, tell us that our most academically successful students are those who are truly bi-lingual. This action supports their ability to think in two languages, contributing to a more flexible growth mindset that is better able to deal with academic and social challenges. Data supports this,

as our "recently reclassified" students scored 50 points better than the overall population on the 2023 ELA Distance from Standard, and 23 points better in math. The Dual Immersion program has also shown to provide a foundation for later success in high school, with AP exam results of 92% of students who took the Spanish-language exam passing. Distance from Standard ELA and Math data show positive outcomes for Low-Income students and English Learners from this action during the past two years of implementation. However, the rate of English Learner students who made one or more years of growth in acquiring English, as measured by the state's ELPAC, declined to 28.7%, resulting in a performance level of "Very Low." The percentage of students reclassified as Fluent English Proficient (RFEP) remained in double digits at 11.8%, a 1.2% decline from 2022. The 2023 Overall A-G Completion Rates declined by 13.4% from the prior year to 30.4%. Low-Income students' results declined by 25.7% from 2022. English Learners meeting U.C. or C.S.U. admission requirements in 2023 were 13.7% points behind the graduation cohort at-large. Declines in the described areas indicate the need for better implementation, which may be accomplished if we are better able to retain teachers. For example, challenges in maintaining BCLAD credentialed staff on a consistent basis and not having them leave for other districts contribute to less-experienced teachers implementing the program, which also makes maintaining the expected ratios of Spanish to English at the different grade levels a challenge. As a modification, A-G completion rates will be added to this action.

1.3, 1.4, 1.5, 1.7, 1.8, 1.10, and 1.13 -- These actions are, collectively, designed to work along with the others under this goal to increase achievement and close academic inequalities for Low-Income students, English Learners, and Foster Youth. Data from state assessments also suggests that this action has been moderately successful in improving academic results for Low-Income students and English Learners. As noted in the "Reflections" section, the Distance from Standard data shows that All Students, Low-Income students, English Learners, and all student groups improved in both ELA and math. The Low-Income students improved at a faster rate in both ELA and Math than the All Students group, closing inequalities in those areas. The 2023 SBAC data for Percentage of Students Meeting or Exceeding Standard showed that Low-Income students improved at a faster rate in both ELA and Math than the All Students group. English Learners also improved.

The percentage of students passing an AP exam also increased significantly, rising from 45% to 61%. In the Spanish AP exam, 92% of the students who took the exam passed. The percentages of students meeting the "prepared criteria for the College and Career Indicator were much higher than the last reported data (2020), and exceeded our "Desired Outcomes for 2023-24" for All students, and met our goals for Low-Income students, and Hispanic students. District Benchmark Assessment data suggest that the percentages of students meeting or exceeding standard has increased in the 2023-24 school year, which we expect to be reflected in 2024 state assessment results. While there was not a Foster Youth who took the in the assessments, we believe that this action could benefit them as well.

What mitigates these improvements are other LUSD data and comparisons to countywide data. Significant inequalities remain between LUSD English Learners and the All Students group in achieving "Distance from Standard". As with the "Distance from Standard", significant inequalities remain between English Learners and the All Students group in both areas. The rate of English Learner students who made one or more years of growth in acquiring English, as measured by the state's ELPAC, declined to 28.7%, resulting in a performance level of "Very Low." The percentage of students reclassified as Fluent English proficient (RFEP) remained in double digits at 11.8%, a 1.25 decline from 2022. English Learners meeting U.C. or C.S.U. admission requirements in 2023 were 13.7% points behind the graduation cohort at large. The 2023 Overall A-G Completion Rates declined by 13.4% from the prior year to 30.4%. Low-Income students' results declined by 25.7% from 2022. Significant inequalities remain between LUSD Low-Income students and their peers countywide in ELA (County, 36.04%) and Math (30.40%).

These results suggest that these actions have not been as effective as hoped. For example, while teachers were able to collaborate, new teachers are still learning about how collaboration works and may not use the time or outcomes in as targeted a fashion as experienced

teachers. Planning that used data was not conducted as planned, so the instructional planning discussions that we expected would be enriched and improved by data were not held. Concomitantly, the MTSS training has not been completed and understanding of the manner in which the system works is still in the developmental stage. Because we are still learning ourselves and dealing with staff turnover, the interventions and supports that were planned and the most effective use of supplemental materials and resources were likely impacted by the lack of training and experience for certificated and support staff. The after school program and summer school did not have the expected impacts on academic performance; both Parent and Teacher Educational Partner groups continued to praise those programs for the academic support and services they provide to students.

1.6 -- All students had access to a broad course of study, confirming this action as successful.

1.9 -- There are data that indicate that this action has been somewhat effective: English Learners showed improvement in both ELA and math "Distance from Standard" results from the California School Dashboard. English Learners also improved in Math, but did not keep pace with the aforementioned groups. AP exam results showed 92% of students who took the Spanish-language exam passed. However, there are several metrics that suggest this action needs modification. Significant inequalities remain between English Learners and the All Students group. The 2023 SBAC "percentage Meeting or Exceeding Standard" data show that significant inequalities remain between English Learners and the All Students group in both areas. The rate of English Learner students who made one or more years of growth in acquiring English, as measured by the state's ELPAC, declined to 28.7%, resulting in a performance level of "Very Low." The percentage of students reclassified as Fluent English Proficient (RFEP) remained in double digits at 11.8%, a 1.25 decline from 2022. The 2023 Overall A-G Completion Rates declined by 13.4% from the prior year to 30.4%. Low-Income students' results declined by 25.7% from 2022. English Learners meeting U.C. or C.S.U. admission requirements in 2023 were 13.7% points behind the graduation cohort at-large.

1.11 -- On the most recent (2024) survey of high school students, 84% of Low-Income students responded that they "plan on attending college or some other school after high school." These results indicate that this action has been moderately effective in creating a culture of post-secondary success. Some college visits were held, work begun on the greenhouse, and AVID activities conducted, contributing to this result. We believe that when we are able to fully implement this action, that figure will increase to 100%. The 2023 CTE cohort completion rate increased by 23.3% points to 76.1%, with English Learners increasing to 83.3%, and Low-Income students to 77.5%. The combined CTE/A-G completion rate also increased from 22.2% to 26.1%, including 16.7% for English Learners and 20% for Low-Income students. The percentage of students passing an AP exam also increased significantly, rising from 45% to 61%. In the Spanish AP exam, 92% of the students who took the exam passed, all of whom were English Learners. However, other data suggest that the action has not been as effective as planned. The 2023 Overall A-G Completion Rates declined by 13.4% from the prior year to 30.4%. Low-Income students' results declined by 25.7% from 2022. English Learners meeting U.C. or C.S.U. admission requirements in 2023 were 13.7% points behind the graduation cohort at-large. The percentage of students scoring "Ready" on the ELA EAP declined for Low-Income students at a lower rate than the overall decline. The percentage of 11th-grade students scoring "ready" in the Math EAP increased, with significant gains for Low-Income students. Significant inequalities remain between LUSD Low-Income students and their peers countywide in ELA (County, 25.42%).

1.12 -- Because this action was not implemented as planned, assessing its effectiveness is not possible. We believe when the need arises; it will be a boon to those families with students entering elementary school without the benefits of preschool. We will undertake family education efforts to increase participation.

1.13 -- We believe that this action was effective, as our Students with Disabilities improved in the "Distance from Standard" metric at a faster rate in both ELA and Math than the All Students group, closing inequalities in those areas.

1.14 -- As described above, this action appears to have been moderately effective. Data from state assessments also suggests that this action has been moderately successful in improving academic results for Low-Income students and English Learners. As noted in the "Reflections" section, the Distance from Standard data show that, All Students, Low-Income students, English Learners, and all student groups improved in both ELA and math. The Low-Income students improved at a faster rate in both ELA and Math than the All Students group, closing inequalities in those areas. The 2023 SBAC data for Percentage of Students Meeting or Exceeding Standard showed that Low-Income students improved at a faster rate in both ELA and Math than the All Students group. English Learners also improved. The percentage of students passing an AP exam also increased significantly, rising from 45% to 61%. In the Spanish AP exam, 92% of the students who took the exam passed. The percentages of students meeting the "prepared criteria for the College and Career Indicator were much higher than the last reported data (2020), and exceeded our "Desired Outcomes for 2023-24" for All students, and met our goals for Low-Income students, and Hispanic students. District Benchmark Assessment data suggest that the percentages of students meeting or exceeding standard has increased in the 2023-24 school year, which we expect to be reflected in 2024 state assessment results. While there was not a Foster Youth who took the in the assessments, we believe that this action could benefit them as well. However, the effectiveness of this action is moderated by ELPAC data and A-G completion data; the rate of English Learner students who made one or more years of growth in acquiring English, as measured by the state's ELPAC, declined to 28.7%, resulting in a performance level of "Very Low". The 2023 Overall A-G Completion Rates declined by 13.4% from the prior year to 30.4%. Low-Income students' results declined by 25.7% from 2022. English Learners meeting U.C. or C.S.U. admission requirements in 2023 were 13.7% points behind the graduation cohort at-large.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

With the inclusion of a new Goal 1, this goal was revised to Goal 2 in the new LCAP.

- The metric "California Physical Fitness Test (PFT)" was discontinued from this goal.
- The metric "Teacher Retention Rates" added to this goal.
- The data for the metric "District Benchmark Assessments: Reading Inventory and Math Inventory" was expanded to show school-level data and performance levels to provide Educational Partners with a more complete picture of the results from local assessments. This expanded reporting will be continued in the 2024-25 LCAP.

- Disaggregated data were available for the first time since 2019 for the metrics "Combined CTE and A-G Completion Rates" and "California School Dashboard: College and Career Indicator--% of students meeting "Prepared" requirements" so those data were included in Year 3 and will continue to be included in the 2024-25 LCAP, as long as they are available.
- Action 2, the phrase "annually reviewed" was added to "The Dual Immersion Master Plan will be revised and updated, and will be implemented to reflect the above principles and practices" to reflect current practice.
- Action 3, "Guiding Coalitions changed to Leadership Teams". "Instructional staff will engage in regular, on-site collaboration in a Professional Learning Community (PLC). With the support of coaches, site administrators, and District staff, they will also engage in a continuous improvement process (plan, do, study, act) of observations, coaching, and reflection on instructional improvement" and "In order to ensure that the assessments and data are readily available for instructional staff to access for collaboration, evaluation, and targeting instruction to meet the needs of struggling students, the District will maintain an Assessment Coordinator" added to the action. Additionally, "Collaborate on implementation of High Impact Teaching Strategies (HITS) for instructional improvement for the 2024-25 school year" was added to this action as a result of the Leadership Team's on-going review of data.
- Action 4, "Teaching Fellows will serve as mentors to newer teachers, providing guidance, sharing best practices, and fostering a collaborative professional learning community" added to the action.
- Action 5, moved to Goal 1 of the new LCAP. "A calendar of site team planning meetings to review, plan, and create site assessments, curriculum, and pacing" was added to the action. "Provide PAPER Education, a 24/7 online tutoring program for Low-Income students, English Learners, and Foster Youth in grades 3 -12 that provides real-time instructional help from credentialed teachers" was deleted from the action.
- Action 6, re-numbered Action 5. "The District will purchase books, materials, and increased computer/mobile devices that reflect the diversity of our learning community, language acquisition for English Learners, and literacy supports for Low-Income students and Foster Youth. Access to literature in all curricular areas will be supported by the staffing and training of a full-time library aide who will enable educationally- and culturally-responsive library services" added to this action. "Laton Online Academy using a curriculum supplemental to the Board- adopted base curriculum for our Low-Income, English Learners, and/or Foster Youth students whose needs, conditions, or circumstances have resulted in academic distress and the need for educational options" added to this action from former action 1.5.
- Action 7, re-numbered Action 6. "After-school and Saturday Academy for Low-Income students and Foster Youth to provide opportunities for credit recovery, high-stakes test preparation (e.g., AP), and other academic support services" and "Teaching Fellows will serve as tutors and additional instructional support" added to this action.
- Action 8, re-numbered Action 7. "These materials include Renaissance Learning and Learning A-Z" added to this action.
- Action 9, re-numbered Action 8. "After-school and Saturday Academy classes targeted at English Learners will provide opportunities for English language development, credit recovery, support for A-G class success, high-stakes test preparation (e.g., AP), and other

academic support services" and "Teaching Fellows will serve as tutors to support ELD and additional instructional support" added to this action.

- Action 1.11, the budget will be significantly reduced as a result of declining enrollments and less demand for college visits.
- Action 12, "GreatMinds and Renaissance Learning will be used as supplemental Materials to support the "Launchpad" program" added to this action. "The District will undertake efforts to identify and provide information to families of eligible children who have concerns about participating in the LaunchPad program" added to this action
- Action 1.14, the budget will be significantly reduced as a result of declining enrollments and fewer teachers needed to maintain smaller class sizes.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Goals and Actions

## Goal

Goal #	Description
2	Maintain a Safe, Healthy, and Supportive School Environment: By maximizing the processes within our organization to execute our mission by creating a safe, clean, efficient, and effective learning environment for all educational partners that promote student engagement provides social-emotional support, and builds academic success by providing access to 21st-century learning.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
School facilities maintained in good repair based on average score of Facilities Inspection Tool (FIT). ## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

2.1 -- This action was successfully implemented as planned. The District maintained facilities in good repair and followed the Facilities Master Plan.

2.2 -- Every student who needed it had safe, reliable transportation to and from school every day, confirming the success of this action.

2.3 -- The action was generally implemented as planned. The District continued the use of PBIS structures at each site K-12, and continued work on developing common behavior expectations. Assemblies to increase bullying awareness were held. All kindergarten students had a daily healthy snack beyond the meal program to help support mental acuity in the afternoons. Transitional services, social/emotional, and academic supports were available to Foster Youth and homeless students, but were seldom requested. A recognition program for students and staff who demonstrate positive, student- and peer-affirming behaviors was begun. Professional development activities were not conducted as planned due to a lack of staff time to organize and conduct the planned P.D.

2.4 -- The action was only partially implemented as planned. The District was able to continue with Counselors, counseling Interns, and a full-time psychologist for K–12th grades to address social/emotional issues. Character Counts implementation continued, but to a lesser degree than planned due to a lack of staff time to follow-up on building teachers' understanding of the most effective implementation. The "Leader in Me" mentorship program continued, but also not to the planned degree due to a lack of staffing to provide more direction to the students and help organize their mentoring schedules. Increased social-emotional skills were taught, modeled, and practiced by staff to support a safe and positive climate for learning. The District was challenged in finding a part-time behavior health clinician, and in finding time for staff to train on writing effective behavior plans.

2.5 -- The District successfully collaborated with the contractor K9 Drug Dogs, Central Valley Detection KT, to ensure the safety and security of students, reduce contraband-related suspensions and expulsions, and build positive relationships between the security team and the students.

2.6 -- The District also successfully concluded a contract with FCSS Truancy Intervention Program to intervene with truant students and be proactive in truancy prevention. The contract with Prodigy Healthcare was also executed and services provided to students. District and school administrators met monthly and reviewed attendance and absenteeism data. However, the plan was not completely implemented as planned, as the monthly incentives program took longer than expected to realize, and was implemented later in the year.

2.7 -- Restorative practices to support a positive and safe school climate, prevent bullying, and reduce disciplinary incidents in the schools was accomplished to the expected extent. Professional learning activities were provided. Implementation efforts will continue in the 2024-25 school year.

2.8 -- The action was only partially implemented as planned. While some of the planned expansion was completed, there were challenges in getting two projects underway, as one contractor delayed in responding, and a PG&E pole halted work on a second project. The hiring of a part-time Guided Playtime Facilitator was accomplished, and this person has been praised by students and staff for their positive influence on students.

2.9 -- The action was successfully implemented as planned. Feedback from students who represent the breadth of groups in our schools was gathered, and current District initiatives were examined to determine their effectiveness in increasing students' feelings of school safety and connectedness.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Action 2.4 -- Over-budgeted: The budgeted extra time for staff to engage in deeper implementation of Character Counts was not used. The same was true of the planned extra time for staff to oversee the Leader in Me mentoring program. Budgeted extra time for training in writing behavior intervention plans was not used. A qualified part-time Behavior Health clinician could not be secured.

Action 2.6 -- Over-budgeted: The Prodigy Healthcare contract was less than budgeted. The costs for the incentive program were less than expected

Action 2.8 -- Over-budgeted: Two projects were not completed, as one contractor delayed in responding, and a PG&E pole halted work on a second project.

Action 2.9 -- Over-budgeted: Less of the budgeted amount was needed for staff extra time to conduct the meetings to gather data and identify root causes and possible solutions.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

2.1 -- Based on FIT results, we believe this action was effective as intended.

2.2 -- This action was effective, as all students were safely transported to and from school.

2.3 and 2.4 -- These actions combine to achieve the ultimate outcome of every student being eager to attend school because they feel safe, connected, and engaged there. The data suggest that these actions have been moderately effective in achieving that outcome. Most of the metrics used to evaluate the actions have had positive results: The 2023 California School Dashboard showed that graduation rates increased for the second year in a row, by 6.8% points overall, to 95.7%, and a performance level of "Very High". Results for Low-Income students also increased to 95.%, again in the "Very High" performance level. Both these results met the "Desired Outcomes" the District had set for this metric to reach in 2023-24. Though the groups were too small to be assigned a performance level, the rate for Hispanic students reached 95.0%, and that for English Learners climbed to 91.7%. We believe that this was due in large part to Actions 2.3 and 2.4, which increased LHS students' feelings of connectedness to school and their sense of safety or well-being. The continued use of PBIS structures at the school and the implementation of Safe School Ambassadors, which identified leaders from the diverse groups and cliques on campus and equipped to model pro-social behaviors, shifted focus to positive behaviors and high school students as role models. Character Counts aided older students in developing self-awareness, self-management, responsible decision-making, social awareness, and other executive functioning skills that support maintaining focus on school and graduation as a realistic goal to be achieved. However, suspension rates from the 2023 Dashboard increased overall, and for all student groups, from 2022. Both Family and Instructional Educational Partners have expressed concerns about effective and appropriate interventions for students' behaviors at all levels. In order to

address that need, and to create school climates and cultures that focus on positive interactions and deflecting conflict, the District has added a Culture and Climate Specialist. 2023 California School Dashboard

2.5 -- The Spring 2024 survey results demonstrate significant positive increases in students' attitudes about school safety. The percentage who feel safe increased by 5% points to 80%, indicating the effectiveness of this action.

2.6 -- This action has been mostly effective as Chronic Absenteeism results shown in the "Reflections" section demonstrate that our efforts to identify and intervene with students at risk of chronic absenteeism, along with celebrating excellent attendance, have resulted in lowering chronic absenteeism rates. We will continue to address Chronic Absenteeism by providing parents and teachers with a systematic tiered approach to monitor attendance and address chronic absenteeism. However, the results have not been as expected for Students with Disabilities, and the rate for that group increased by 3.3% points, leading to the assignment of a "Red" or lowest performance level. We will address those with a specific action in the 2024-25 LCAP.

2.7 -- As with actions 2.4 and 2.5, the data to judge effectiveness are mixed, leading us to deem this action as moderately effective. It, too, was intended to achieve the outcome of every student being eager to attend school because they feel safe, connected, and engaged there by guiding them to alternatives to physical confrontation and sharing other strategies to resolve conflict. The 2023 California School Dashboard showed that graduation rates increased for the second year in a row, by 6.8% points overall, to 95.7%, and a performance level of "Very High". Results for Low-Income students also increased to 95.%, again in the "Very High" performance level. Both these results met the "Desired Outcomes" the District had set for this metric to reach in 2023-24. Though the groups were too small to be assigned a performance level, the rate for Hispanic students reached 95.0%, and that for English Learners climbed to 91.7%. We believe that this was due in large part to Actions 2.3 and 2.4, which increased LHS students' feelings of connectedness to school and their sense of safety or well-being. The continued use of PBIS structures at the school and the implementation of Safe School Ambassadors, which identified leaders from the diverse groups and cliques on campus and equipped to model pro-social behaviors, shifted focus to positive behaviors and high school students as role models. Character Counts aided older students in developing self-awareness, self-management, responsible decision-making, social awareness, and other executive functioning skills that support maintaining focus on school and graduation as a realistic goal to be achieved.

However, suspension rates from the 2023 Dashboard increased overall, and for all student groups, from 2022. Both Family and Instructional Educational Partners have expressed concerns about effective and appropriate interventions for students' behaviors at all levels. It is our expectation that, with deeper implementation and the guidance of the Culture and Climate Specialist, restorative practices will help bring down suspension rate and maintain the positive outcomes already demonstrated.

2.8 -- Students continue to be excited about the steps the District is taking to expand access to play areas; they recognize that it is a benefit not only during the school day but also after school and on weekends. The Guided Playtime Facilitator has also created many positive relationships with students at school. We are certain that this action is effective -- the 2023 Chronic Absenteeism results shown in the "Reflections" section demonstrate that our efforts to lower chronic absenteeism rates have been successful, in part thanks to this action. We were pleased to see the continued high percentages of students who responded in the 2024 survey that they feel safe at, and connected to, school. The percentage who feel safe increased by 5% points to 80%, and those feeling connected maintained at 76%. Parents' responses showed that 82% of respondents feel their child is safe at school, and 80% feel that their child is connected to school.

The 2023 California School Dashboard showed that performance levels for Low-Income students and English Learners improved in both ELA and math. The Low- Income students improved at a faster rate in both ELA and Math than the All Students group, closing inequalities in those areas. English Learners also improved, but did not keep pace with the aforementioned groups. The 2023 SBAC data for Percentage of Students Meeting or Exceeding Standard showed that Low-Income students improved at a faster rate in both ELA and Math than the All Students group. The foregoing data is another indication of the effectiveness of this action.

2.9 -- Increases in the percentage of students who feel safe at school, and the maintenance of a high percentage who feel connected indicate that this action has been generally effective. However, students at the secondary level provided feedback that they felt left out of decision-making and had no voice in the matters that directly affected them. As a result, the District added, "Students will join with parents and staff to examine data and make collaborative decisions that better address their needs regarding bullying", "The examination of data related to state and local indicators", and "A 'Student Center' on each campus, a safe place for students to meet and discuss issues important to them" were added to Goal 1, Action 3.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- With the addition of a new Goal 1, this Goal has been re-numbered to Goal 3.
- Action 3, "Providing professional presentations/ assemblies to increase bullying awareness for all educational partners" and "Providing professional development for staff to increase bullying awareness and for prevention and intervention techniques" deleted and added to Goal 1, Action 3. "Hire a Culture and Climate Specialist to support District initiatives" added to this action.
- Action 4, "Hire a Culture and Climate Specialist to support District initiatives" added to this action.
- Action 5, "Screeners to clear visitors" added to this action.
- Action 6, "Contract for Fresno County nurses to support the District's LVNs in increasing health services and access in schools. The nurse's role will include regular health assessments, coordination of care with the District's community liaisons, and health education tailored to the specific needs of vulnerable student populations" and "Parents of students who are referred to SARB will be required to attend a District parenting course as a part of the contract for improved attendance" added to this action.
- Action 7 was deleted from this goal and moved to Goal 1, Action 3.
- Action 9 was deleted from this goal and moved to Goal 1, Action 3.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
3	Collaborative Culture that Impacts Student Achievement: By building a culture based on trust, stability, and consistency that values and promotes a high level of parent and community involvement in decision-making opportunities that directly impact school programs and our diverse population of students.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Parent Engagement Results of the State's Self-Reflection Tool Reported to the LUSD Governing Board	MET -- Results Reported  3.8 Average Score (on a scale of 1 = Strongly Disagree to 5 = Strongly Agree) on the State's Self-Reflection Tool  MET  [June, 2021, Report to the LUSD Governing Board]	MET -- Results Reported  4.5 Average Score (on a scale of 1 = Strongly Disagree to 5 = Strongly Agree) on the State's Self-Reflection Tool  MET  [June, 2022, Report to the LUSD Governing Board]	MET -- Results Reported  3.8 Average Score (on a scale of 1 = Strongly Disagree to 5 = Strongly Agree) on the State's Self-Reflection Tool  MET  [June, 2023, Report to the LUSD Governing Board]	MET -- Results Reported  3.7 Average Score (on a scale of 1 = Strongly Disagree to 5 = Strongly Agree) on the State's Self-Reflection Tool  MET  [June, 2024, Report to the LUSD Governing Board]	The state's self-reflection tool will reflect an average rating of 4.5 (on a scale of 1 = Strongly Disagree to 5 = Strongly Agree) for parent and family engagement  MET  [Report to the LUSD Governing Board]

# Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

All actions were successfully implemented as planned. Parent Square, additional translation services at meetings and school activities were provided, and childcare was also provided at meetings and school activities. The development of the Community Schools Implementation Grant application continued a very deep engagement with a variety of community partners, much of which resulted in establishing a new goal for the 2024-25 LCAP. Thanks to the successful efforts of the Community Schools Coordinator and the District's Liaison, we were able to accomplish much in rebuilding relationships and trust with families. The Parent Institute for Quality Education (PIQE) was conducted.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Collectively, these actions are undertaken to increase feelings of connectedness and engagement with our schools, principally focused on the families of English Learners, Low-Income students, and Foster Youth. The state provides districts with a Self-Reflection Tool to measure parent engagement by measuring a number of factors with input from families and staff. The District's Family Liaison was effective in soliciting responses, and the number of responses increased from 25 last year to 51 this year. From those responses, the District's rating stayed close to the same level as last year, from 3.8 to 3.7, indicating that the actions were not as effective as expected. Family feedback from input meetings identified "recognition, teachers, director/principal, in-class support, and academic counselor" as academic support strengths, and suggested "interventions, tutoring support, communication, and parent involvement" as areas for improvement. Regarding culture/climate and engagement, families identified "academic recognition, celebration communication, enrichment trips, liaisons, and events" as strengths. "ParentSquare, communication, bullying, solution finding/problem solving, translations, racism, and welcoming environment" were cited as areas to be addressed. Results of the Spring surveys underscored these suggestions, with communication, welcoming environments, and trust between school and home declining in parents' feelings of satisfaction. Many of these suggestions were in contrast to initiatives such as ParentSquare and welcoming school environments being identified as strengths last year. Based on these data, the District has made modifications to Actions 1 and 2 under this goal, and modifications to other goals as well. The Parent Institute for Quality Education (PIQE) was conducted and was effective for those parents who participated, as they were important participants in the development process for the LCAP and Community Schools implementation grant. Their participation is also reflected in the survey data collection that was greater than in the past year, and families participated in advisory groups to develop the LCAP and community schools implementation plan, showing action 3.3 to be somewhat effective.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

With the addition of a new Goal 1, this goal was re-numbered to Goal 4.

- Action 1, "Support a District Family Liaison," moved from this action to Goal 1, Action 2. "English As a Second Language and Using Technology" added to "Parent-Requested Workshops/Classes based on survey responses" in this action. "Athletic recognition events" and "Waiver of fees to athletic events for families of Low-Income students" also added to this action.

Action 2, "Access to a wide range of family services and support through the school hub (community-growth, accountability, student-focused, investing in education, transformative change, accessibility for all)," was added to this action. "Translation services for communications at family events" was revised to read "Full-time translation services for high-quality, consistent communications at family events."

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

## Goals and Actions

## Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

California Department of Education  
November 2023

# Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Laton Unified School District	Lupe Gutierrez-Nieves Superintendent	lnieves@latonunified.org 559.922.4015

## Plan Summary [2024-25]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

At Laton Joint Unified School District, our vision of "Closing the Achievement Gap" means ensuring each student reaches their full potential, regardless of ethnic background or economic status. We are proud of our students, and we value our students and their unique backgrounds. We strongly believe in celebrating the cultural diversity of our community. Our vision of 'Closing the Achievement Gap' means ensuring each student reaches their full potential, regardless of ethnic background or economic status. Our beliefs are deeply rooted in celebrating the cultural diversity of our community. We are committed to providing equitable opportunities, fostering a nurturing environment, and implementing evidence-based strategies that address disparities and empower all students to succeed.

Laton Unified is comprised of five schools: Laton High School, Laton Middle School, Laton Elementary School, Laton Preschool, and Laton Online Academy(LOA). Most Laton Unified School District (LUSD) students are born and raised in the community of Laton and attend Transitional kindergarten through twelfth grade. LUSD is a small district with 597 students in Transitional Kindergarten and the K-12 program. Most students qualify for Free and Reduced Lunch, with 78.4% considered Socioeconomically Disadvantaged or Low-Income. We are a diverse District, with 87.1% of our students Hispanic/Latino, 11.1% White, and less than 1% African American. Other ethnic groups are American Indian, Asian, and students of Two or More races, each constituting less than 1% of our population. English Learners make up 28.3% of our students. Foster Youth are less than 1%, and homeless students are 1.7% of our student population. However, data are seldom reported for their group due to privacy concerns. Special Education Program students comprise 14% of our population. (2023-24 Enrollment data from DataQuest)

Our Beliefs and Values, developed by teachers, principals, superintendents, and school board members, are based upon a unified effort dedicated to helping students increase their knowledge and creative potential that includes:

- Developing a culture that builds partnerships across the District with mutual trust and respect;
- Creating a working and learning environment that encourages the necessary critical thinking and creative ideas that solve diverse challenges and problems;
- Belief in work and group support that is characterized by feedback, collaboration, flexibility, trust, and a safe environment that

encourages risk-taking while building rapport and positive communication from the student level to the governance team. Because we work in a small district, we want to capitalize on building capacity amongst our staff to support common goals.

One of the District's proudest initiatives is the K-8 Dual Immersion Program, which has been in existence for over 20 years. The Dual Language Immersion Program has made bilingualism and bi-literacy possible for many students and has prepared elementary and middle school students to meet the demands of the Spanish AP exam in high school while making high school students eligible for the California State Seal of Bi-literacy upon graduation. In recent years, the program has faced challenges in maintaining fidelity of implementation due to staff turnover. The District is taking steps to address the issue and continues to support the program through hiring of appropriately credentialed teachers and providing training in best practices for dual-immersion learning.

Laton Unified is committed to providing all students with an enriching and impactful educational experience. We offer safe, welcoming schools and employ many caring and talented people dedicated to our students and the District. The District's goal is to create an environment of respect and inclusion, making data-driven decisions that empower all students to embrace learning and become innovative leaders. It is a great place where students can grow and achieve!

No schools in LUSD received Equity Multiplier funds.

## Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

### Goal 1

State Assessments, 2023 California School Dashboard, SBAC Distance from Standard:

Group ELA Distance from Standard Change from 2022 Math Distance from Standard Change from 2022

All Students 80.6 points below 10.4 points improvement 101.6 points below 25.0 points improvement

Low Income 81.8 points below 15.0 points improvement 104.3 points below 27.3 points improvement

Students w/Disabilities 94.9 points below 25.4 points improvement 112.1 points below 27.1 points improvement

English Learners 109.7 points below 4.8 points improvement 119.5 points below 18.5 points improvement

Hispanic 87.0 points below 6.2 points improvement 105.2 points below 25.7 points improvement

White 42.4 points below 26.0 points improvement 79.4 points below 2.1 points improvement

Foster Youth n/r n/r

Homeless n/r n/r

The Overall performance level, as well as those for Low-Income students, English Learners, and all student groups, showed improvement in both ELA and math. The Low-Income students and Students with Disabilities improved at a faster rate in both ELA and Math than the All Students group, closing inequalities in those areas. English Learners also improved, but did not keep pace with the aforementioned groups. At Laton Elementary School, the ELA Distance from Standard for English Learners was assigned the "Very Low" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. Significant inequalities remain between English Learners and the All Students group.

State Assessments, 2023 SBAC Percentage of Students Meeting or Exceeding Standard:

Group ELA % Change from 2022 Math % Change from 2022  
All Students 19.7% 0.9% improvement 12.0% 4.5% improvement  
Low Income 19.4% 4.6% improvement 11.2% 6.2% improvement  
Students w/Disabilities 2.8% 3.7% decline 2.8% 0.5% improvement  
English Learners 3.2% 0.5% improvement 1.0% 0.8% decline  
Long-Term English Learners 0% 0%  
Hispanic 17.5% 1.2% decline 10.8% 4.3% improvement  
White 37.1% 12.1% improvement 17.1% 0.4% decline

The 2023 SBAC data for Percentage of Students Meeting or Exceeding Standard showed that Low-Income students improved at a faster rate in both ELA and Math than the All Students group. As with the "Distance from Standard", significant inequalities remain between English Learners and the All Students group in both areas. Significant inequalities remain between LUSD Low-Income students and their peers countywide in ELA (County, 36.04%) and Math (County, 30.40%). Results for Long-term English Learners (LTEL) were behind those of English Learners as a group, with no LTEL students meeting or exceeding standard in ELA or Math.

For the current year, District Benchmark Assessments show the following progress:

LES Reading (Change from 2023 Baseline)

Below Standard - 5% decrease  
Approaching Standard - 2.2% increase  
Meeting Standard - 2.9% increase  
Exceeding Standard - No change

LES Math (Change from 2023 Baseline)

Below Standard - 6.2% decrease  
Approaching Standard - 3.4% increase  
Meeting Standard - 1.5% increase  
Exceeding Standard - 1.4% increase

LMS Reading (Change from 2023 Baseline)

Below Standard - 4.6% increase  
Approaching Standard - 3.8% increase  
Meeting Standard - 1.8% decrease  
Exceeding Standard - 1.3% increase

LMS Math (Change from 2023 Baseline)

Below Standard - 14.9% decrease  
Approaching Standard - 7.7% increase  
Meeting Standard - 4.9% increase

Exceeding Standard - 2.4% increase

LHS Meeting or Exceeding Standard:

Reading – 14.6%

Math – 24.8%

These data suggest that the percentages of students meeting or exceeding standard has increased in the 2023-24 school year, which we expect to be reflected in 2024 state assessment results.

Early Assessment Program (EAP), 2023 Percentage of 11th Grade Students Scoring "Ready" (Exceeding Standard):

ELA Change from 2022 MATH Change from 2022

Overall -- 11.11% 2.84% decline Overall -- 7.41% 2.33% increase

Low-Income -- 12.5% 0.83% decline Low-Income -- 8.33% 8.33% increase

The percentage of students scoring "Ready" on the ELA EAP declined for Low-Income students at a lower rate than the overall decline. The percentage of 11th-grade students scoring "ready" in the Math EAP increased, with significant gains for Low-Income students. Significant inequalities remain between LUSD Low-Income students and their peers countywide in ELA (County, 25.42%).

California Science Test:

All Students: 13.49% English Learners: 0% SWD: 6.67% Low-Income: 12.28% Non Low-Income: 25.0% Hispanic: 10.91%

White: 26.67%

Examining the most recent CST results, the inequality in performance between Low-Income students and non Low-Income students is readily apparent. Inequalities between those two groups and English Learners are even more striking. The data clearly show the need for additional supports to lessen these inequalities in results and raise achievement levels for Low-Income students and English Learners.

The 2023 Overall A-G Completion Rates declined by 13.4% from the prior year to 30.4%. Low-Income students' results declined by 25.7% from 2022.

Low Income: 25.0%

English Learners: 16.7%

Hispanic: 32.5%

The 2023 CTE cohort completion rate increased by 23.3% points to 76.1%. The combined CTE/A-G completion rate also increased from 22.2% to 26.1%. The percentage of students passing an AP exam also increased significantly, rising from 45% to 61%. In the Spanish AP exam, 92% of the students who took the exam passed.

The percentage of students reclassified as Fluent English Proficient (RFEP) remained in double digits at 11.8%, a 1.2% decline from 2022. The rate of English Learner students who made one or more years of growth in acquiring English, as measured by the state's ELPAC, declined Districtwide by 21% points to 28.7%, at Laton Middle School (by 20.7% to 30.4%), and at Laton Elementary School (by 18.1%, to 26.2%), resulting in a performance level of "Very Low." Consequently, the District will include specific actions in the LCAP to address this need.

English Learners meeting U.C. or C.S.U. admission requirements in 2023 were 13.7% points behind the graduation cohort at large.

Because English learners have not shown the same pace of improvement in ELA as other student groups, the District will continue to implement its English Learner Master Plan, which is aligned with the English Learner Roadmap. Included in that plan, and the 2024-25 LCAP, are practices that will more closely monitor EL and RFEP students' progress and immediately adjust instruction as warranted by data students' needs. In Action 2.7, after-school and Saturday Academy classes targeted for English Learners will provide opportunities for English language development, credit recovery, support for A-G class success, high-stakes test preparation (e.g., AP), and other academic support services. Teaching Fellows will serve as tutors to support ELD and additional instructional support.

Parent Educational Partners lauded the Dual-Immersion program and suggested that it be expanded. Low-Income students, English Learners, and all student groups, showed improvement in both ELA and math in recent years, and we believe that the Dual-Immersion program has contributed to those improvements. The program has faced some challenges in maintaining fidelity of implementation due to staff turnover. The District is taking steps to address the issue and continues to support the program's success through hiring of appropriately credentialed teachers and providing training in best practices for dual-immersion learning.

2023 California School Dashboard: College and Career Indicator -- Percentage of students meeting "Prepared" requirements.

All Students: 69.6%

Hispanic: 70.0%

Low-Income: 70.0%

English Learners: 58.3%

These results were much higher than the last reported data (2020) exceeded our "Desired Outcomes for 2023-24" for All students, and met our goals for Low-Income students, and Hispanic students.

Teachers' ratings of the implementation of state standards was at 3.4 on a scale of 1 (Research and Development) to 5 (Full and Sustained implementation).

## Goal 2

Suspension rates from the 2023 Dashboard increased overall, and for all student groups, from 2022; "All Students," "Low-Income," "English Learners," "Hispanic," "White," and "Students with Disabilities" groups will all have specific actions included in the LCAP to address lowering suspension rates.

Overall -- 10.8%, an increase of 1.7%

English Learners -- 11.2%, an increase of 2.8%

Low-Income -- 11.3%, an increase of 1.3%

Non Low-Income -- 7.4%, an increase of 2.8%

Students with Disabilities -- 18.3%, an increase of 3.5%

Hispanic -- 10.3%, an increase of 1.9%

White -- 15.3%, an increase of 7.5%

Foster Youth -- n/d

Homeless -- n/d

We will continue to address suspension rates by providing social-emotional and mental health support to ensure that our students feel safe and connected to their schools, including continued significant increases in the budgets for those services and social-emotional learning (SEL). These services will include classroom practices that support SEL, such as:

- Daily check-ins
- Peer interactions
- Problem-solving and reflecting techniques
- Personal goal setting
- Celebration of milestones
- Practiced patience and empathy

The mental health clinician, school psychologist, and counselor will collaborate and collect data to determine the most effective support for students, including supporting the students' thoughts, feelings, and actions to give them access to a successful educational experience. The District remains committed to identifying and reaching out to students who might benefit from participation in social-emotional support. Educational partners' input resulting from our actions to engage students in emotional support services and anecdotal data strongly indicate that students have needs for social-emotional support, and the focus continues to increase in that area. In observing students' behaviors at all levels, District staff acknowledges that our students are still navigating the process of adjustment, re-acclimating, and dealing with the task of relearning social skills in the aftermath of the pandemic.

2023 California School Dashboard, Chronic Absenteeism:

Overall -- 16.7%, an improvement of 5.8%

English Learners -- 11.3%, an improvement of 10.3%

Low-Income -- 17.9%, an improvement of 5.8%

Students w/ Disabilities -- 30.1%, an increase of 3.3%

Hispanic -- 16.2%, an improvement of 6.2%

White -- 20.8%, an improvement of 4.2%

Foster Youth -- n/d

Homeless -- n/d

Additionally, the overall District attendance rate was 93.8%

Our efforts to identify and intervene with students at risk of chronic absenteeism, along with celebrating excellent attendance, have generally been very effective in lowering chronic absenteeism rates. We will continue to address Chronic Absenteeism by providing parents and teachers with a systematic tiered approach to monitor attendance and address chronic absenteeism. The tiered system will include the following:

- Tier I - Missing less than 10% of school
- Tier II - At risk of missing 10-19% of days
- Tier III - At risk of missing 20% or more days.
- Site administration will monitor student attendance weekly to determine where students fall, and create a watch list of students who are in danger of reaching 10%. Each site administrator will develop benchmarks that will be reviewed monthly. Data will be

presented and analyzed during the Principal's monthly PLC with other district administrators to discuss appropriate interventions and supports. The support will consist of the following measures:

- Monitoring of data formally and informally
- Create a climate that fosters and values student voice by communicating and engaging parents and students in solution-finding.
- Recognize and celebrate good and improved attendance
- Provide personalized and early outreach by scheduling meetings when students reach TIER II and as appropriate and include the school's community liaison and FCSS TIP officer
- Collaborate with the community liaison, parents, teachers, and administrators to increase communication and eliminate barriers interfering with school attendance.

However, the results have not been as expected for Students with Disabilities, and the rate for that group increased by 3.3% points, leading to the assignment of a "Red" or lowest performance level. As a result, an action will be included in the LCAP specifically to address that metric for SWD.

The 2023 California School Dashboard showed that graduation rates increased for the second year in a row, by 6.8% points overall, to 95.7%, and a performance level of "Very High". Results for Low-Income students also increased to 95.0%, again in the "Very High" performance level. Both these results met the "Desired Outcomes" the District had set for this metric to reach in 2023-24. Though the groups were too small to be assigned a performance level, the rate for Hispanic students reached 95.0%, and that for English Learners climbed to 91.7%.

We believe that this was due in large part to Actions 2.3 and 2.4, which increased LHS students' feelings of connectedness to school and their sense of safety or well-being. The continued use of PBIS structures at the school and the implementation of Safe School Ambassadors, which identified leaders from the diverse groups and cliques on campus and equipped to model pro-social behaviors, shifted focus to positive behaviors and high school students as role models. Character Counts aided older students in developing self-awareness, self-management, responsible decision-making, social awareness, and other executive functioning skills that support maintaining focus on school and graduation as a realistic goal to be achieved. Based on this success, we will continue the implementation of those actions.

We were pleased to see the continued high percentages of students who responded in the 2024 survey that they feel safe at, and connected to, school. The percentage who feel safe increased by 5% points to 80%, and those feeling connected maintained at 76%. Since our ultimate goal is for every student to feel safe and belonging at school, we will continue our culture and climate actions described in Goal 2.

### Goal 3

The percentage of parents who responded that they feel welcome at their children's schools fell from 80% to 65%. The percentage of parents who feel their children are safe at school also decreased, from 87.5% to 80%. This result was surprising, considering the continued parent and community meetings the District has held over the last two years to develop the LCAP and the Community Schools plan. It is evident that there is still a need to continue family outreach and determine why these declines occurred and the reasons there was again a decline in the family engagement survey results from 3.8 to 3.7.

The District will address performance the performance inequalities described above by a multi-pronged approach, including increased access to counseling services at the high school, increased academic guidance, and educational opportunities to participate in a broad course of

study in preparation for post-secondary opportunities to better meet the needs of low income and EL pupils, and monitoring student's progress in meeting post-secondary eligibility, utilizing various data systems to review graduation requirements, A-G and CTE completion, and enrolled in courses necessary to apply to four-year universities, prepare for enrollment in a community college, and/or prepared to successfully enter the military or workforce after graduation.

A more systematic approach to analyzing data remains a need. Implementing the data systems and analyzing data from supplemental materials to assess the effectiveness of various supplemental programs remains a work in progress. The staff has not had the anticipated planning time due to insufficient subs to allow teacher release time.

For the 2024-25 LCAP, a new Goal 1 has been added and the above goals will be renumbered: former Goal 1 is now Goal 2; former Goal 2 is now Goal 3; and former Goal 3 is now Goal 4.

#### Required Actions:

- Districtwide, Suspension rates for All Students, Low-Income students, English Learners, Students with Disabilities, Hispanic students, and White students were all assigned the "Very High" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. (Action 3.8)
- At Laton Middle School, Suspension rates for All Students, Low-Income students, English Learners, Students with Disabilities, and Hispanic students were all assigned the "Very High" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. (Action 3.8)
- At Laton High School, Suspension rates for All Students, Low-Income students, English Learners, and Hispanic students were all assigned the "Very High" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. (Action 3.8)
- At Laton Elementary School, Suspension rates for Students with Disabilities, was assigned the "Very High" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. (Action 3.9)
- Districtwide, at Laton Middle School, and at Laton Elementary School, Chronic Absenteeism for Students with Disabilities was assigned the "Very High" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. Action 3.10)
- Districtwide, at Laton Middle School, and at Laton Elementary School, the English Learner Progress Indicator (ELPI) was assigned the "Very Low" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. (Action 2.16)
- At Laton Elementary School, the ELA Distance from Standard for English Learners was assigned the "Very Low" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. (Action 2.16)

## Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Midway through the year, with the publication of the 2023 Dashboard, the District and the Fresno County Superintendent of Schools (FCSS) Differentiated Assistance (DA) team identified English Learner ELPI as the area to address for DA in 2024-25.

In consultations with the DA team and local educational partners, we concluded that actions focused on developing English language skills and academic vocabulary that improve reading, writing, listening, and speaking skills would effectively address both the ELPI for our English Learners district-wide and at all schools.

Early literacy will be a focus in the primary grades at Laton Elementary School, supported by English language development activities such as pre-loading and vocabulary development. The upper grades at Laton Elementary, along with Laton Middle School and Laton High, will focus on reading and writing, developing a common framework and strategies that will build through the grade levels, 4-12. It will also shift the focus at LMS and LHS to more expository writing and less narrative, supported by academic language development that will better enable students to understand stories and information that they read and to communicate better in writing. The three schools will articulate staff training and implementation of Differentiated Instruction. The purpose will be to support teachers in "meeting the students where they are", using evidence and arranging strategies to support different abilities, such as activating prior knowledge, chunking lessons, modeling, and including multiple modalities.

The District will review its English Learner Master Plan, which is aligned with the English Learner Roadmap. That plan will include practices that will more closely monitor the progress of EL, LTEL, and RFEP students and immediately adjust instruction as warranted by data and students' needs.

The Resource Teacher and Assessment Coordinator will provide support as monitored by the District's Learning Director and English Language Learner Coordinator.

Implementation of this action will be conducted in concert with the Fresno County Superintendent of Schools (FCSS) as the District's response to its eligibility for Differentiated Assistance (DA). The District's Improvement Team will meet regularly with the FCSS DA Team to review and monitor implementation, adjusting change idea implementation, as necessary. The team will debrief meeting protocols, identify what's working, what gaps might exist, and next steps. These improvement meetings will center around the Plan, Do, Study, Act (PDSA) process. Improvement Team will meet regularly through Spring to evaluate progress and develop a sustainability plan for continued improvement.

The Differentiated Assistance is described in Action 2.16.

# Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

## ***Schools Identified***

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Laton High School is eligible for Comprehensive Support and Improvement based on its suspension rate.

## ***Support for Identified Schools***

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

The District will provide the following support to the identified schools in developing and implementing a CSI plan that includes a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities:

- A CSI Improvement Team consisting of school partners and District leadership;
- Designate a District “lead” to serve as the point of contact for services related to Comprehensive Support and Improvement requirements and activities;
- Provide technical assistance in plan development, monitoring, and evaluation;
- Identify connections between the SPSA and the District’s LCAP to ensure that the school is aware of District-wide actions in the LCAP that can be leveraged to support improvement;
- Provide evidenced-based intervention training and support to the identified school. The selection, implementation, and monitoring of evidence-based interventions should reflect considerations of the school’s needs assessment and local context;
- Develop team capacity in continuous improvement, including PDSA (Plan, Do, Study, Act) cycles;
- Review data collection, analysis, and reporting to improve monitoring and evaluation of actions to address CSI.
- Protect time for improvement work, including regularly scheduled meetings to monitor and review.

The local needs assessment will be conducted by the CSI Improvement Team comprised of the school principal, adult and student representatives from the school, and the District’s Superintendent. The Team will examine student data, classroom practices, and input from other school staff, parents, and students. The District will support the school site staff in the development of the School Plan with the assistance of the Superintendent. The District will also use the services of a consultant with broad experience in SPSA development, state and federal regulations, and plan alignment. The surveys and data used in conducting the local needs assessment included in the School Plan are administered by the District, which will support release time, as needed, for data evaluation and root cause analysis by the school staff. The District's Chief Business Officer will provide support in fiscal analysis to determine if any resource inequities existed.

Evidence based interventions will be identified and selected through a process of examining research into the nature of the intervention, its effect size, and consideration of the likelihood of success within the local context. Since they will be implemented school wide, representatives of instructional staff will participate in the consideration and selection of the interventions.

Possible resource inequities will be identified by examining the data and educational partners' input during the needs assessment, and the review of District and school-level budgets cited above. The Superintendent, CBO, and the consultant will provide guidance to the school

principal and site staff regarding how resource resource inequities might be identified, and that all resources, not just fiscal, must be examined.

### ***Monitoring and Evaluating Effectiveness***

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The District and Laton High School will use the process outlined below to collect, organize, and examine the data necessary to monitor and evaluate the implementation and effectiveness of the CSI plan:

- Plan approval by the LUSD Board of Trustees;
- Monthly meetings between the Superintendent and Principal to review metric and implementation data.
- Regularly scheduled meetings – at least four times per year – of the CSI Improvement Team consisting of school partners (staff, parent, student) and District leadership. Meetings shall include:
  1. Review and analysis of data related to suspension rates and identification of next steps to be taken based on that analysis;
  2. Review and analysis of data related to ‘implementation progress markers’ identified in the school’s CSI plan, and identification of next steps to be taken based on that analysis;
    - The effectiveness of the plan shall be based on whether the actions in the plan are being implemented in a timely fashion, and whether the ongoing suspension rate data reflect progress with implementation of the plan. The final evaluation of its effectiveness will be based on the school exiting CSI.
    - Reports to the Superintendent or designee regarding progress;
    - Summative review, analysis, and evaluation of the plan to determine if revisions to the CSI plans, SPSAs, and/or LCAP are recommended for the following year.

# Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
District Administration/Principals Meetings	District administration and school administrators met regularly throughout the school year. At each meeting, the assessment and implementation data were discussed and suggestions put forward for LCAP development.
Classified Bargaining Unit, including all Classified Staff Educational Partners	Input Meeting, May 24, 2024, with the presentation of data and draft goals and actions to support students' success. Survey, March, 2024.
Certificated Bargaining Unit, including Teacher Educational Partners	Input Meeting, May 28, 2024, with the presentation of data and draft goals and actions to support students' success. Survey, March, 2024.
Students	Surveyed, March, 2024. A student input meeting with the presentation of data and draft goals and actions to support students' success was held on, May 21, 2024.
Parents	Meetings have been ongoing in 2023-24 through the process of developing the Community Schools Plan. Activities within the LCAP were included in Community Schools meetings. A meeting was held on May 28, 2024, with presentation of data and prior LCAP actions to support students' success. Survey, March, 2024.
Community Educational Partners	Meetings have been ongoing in 2023-24 through the process of developing the Community Schools Plan. A meeting was held on May 28, 2024, with a presentation of data and prior LCAP actions to support students' success.  The Public Comment period ran from June 12 to June 26, 2024. A draft of the LCAP was made available to

Educational Partner(s)	Process for Engagement
	<p>educational partners by request at the sites and on the school website. Comments could be provided to school site administrators for consideration or through a Google Form. The public hearing of the plan was held on June 12, 2024.</p>
SELPA Consultation	<p>The District consulted with the SELPA through attendance at its monthly Operations Committee meetings and individual consultation with staff. Student records for students receiving services from FCSS were reviewed to ensure information was up-to-date and parents were receiving appropriate notification regarding their child's services. Based on input from SELPA staff and discussions with committee members, the District's Student Services team ensured that actions in the LCAP for persons with exceptional needs were aligned with the strategies in the Local Plan for students with disabilities.</p>
LUSD Governing Board	<p>The LUSD Governing Board reviews and provides input for LCAP development throughout the school year.</p> <p>The 2024 LCAP Mid-Year Monitoring Report, which included the most recent state and local indicator data and progress on LCAP implementation, was presented to the Board on January 10, 2024.</p> <p>The LCAP submitted for LUSD Governing Board approval was posted on the District's website, and a link included in the Board agenda was posted 72 hours prior to the meeting. At the June 26, 2024, Board meeting, the Local Indicators report was presented to the Board prior to LCAP approval. The District's 2024-25 budget was approved subsequent to the LCAP at the June 26, 2024, meeting.</p> <p>Public Hearing, June 12, 2024.  Board Adoption, June 26, 2024. An updated draft that did not include material differences in actions or expenditures was adopted on 8/14/24.  Submitted to FCSS, July 2, 2024.</p>
Parent Advisory Committee (PAC)	<p>The draft of the 2024-25 LCAP was presented to the Parent Advisory Committee (PAC) for review on May 28, 2024, before presentation to</p>

Educational Partner(s)	Process for Engagement
	the Board. During LCAP draft review meetings with the PAC, zero questions were submitted that required a written response from the Superintendent.
District English Learner Advisory Committee (DELAC)	The draft of the 2024-25 LCAP was presented to the District English Learner Advisory Committee (DELAC) for review on May 21, 2024, before presentation to the Board. During LCAP draft review meetings with the DELAC, zero questions were submitted that required a written response from the Superintendent.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Goal 1 -- As we interviewed community Educational Partners, it became clear that Community Schools and a Multi-Tiered System of Support that went beyond the four walls of the school demanded its own goal. As a result, Goal 1 was created. Parents' input led the District to recognize the need to provide services for our community that would contribute to the health of the whole child, which meant the health and circumstances in and out of school. We built our concept of meeting the needs of children and their families on the idea of a hub where any member of the school community can seek and receive support. Each hub is run by the Liaisons, and offers mobile health services, a food pantry, a community closet, and facilities for washing and drying clothes. In time, the hub will also provide access to clean water and services to homeless children and their families or those whose circumstances have cut off access to water or utilities, including transportation.

Some of the Partners providing input also suggested that we use the hub as the place to learn from other parents, with sessions on how to support their children's at home to be more successful in school. These parent leaders will participate in trainings to build their skills in building those of others. In addition to supporting parents at the hub, parent leaders will offer workshops, using their expertise to support others in parenting, accessing community services, and advocating for their children and their families. As parents engage in the process and build their self-efficacy, they will take a leading role in determining services at the hub.

Another powerful way in which parents will develop leadership skills is through collaboration and participation in decision-making that may start at the hub level and extend its reach to the school and District levels. Both parent and student Ed Partners have voiced the desire to amplify their voices in decision-making. Concurrently, the District will support a student advisory council, building their leadership capacities to engage in decision-making about how students might be better-supported by other Ed Partner groups, including the schools and the hubs. Students will join with parents and staff to examine data, such as suspension rates or school climate, to make collaborative decisions that better address their needs.

The three Liaisons (elementary, middle, and high school) will continue to serve as connections between the schools and the community, and engage with families when a teacher or other school employee notices that a student is suddenly excessively absent or seems to be lacking engagement or interest in school. Having the Liaisons to reach out before administrators become involved avoids the stigma or fear of "authority" that some of our Educational Partners have noted as a concern that may be a barrier to their engagement.

Included in the above suggestions are allocating funds for staffing, professional development, community partnerships, and resources necessary for the sustainability of the Community Schools hubs and activities.

Students at the secondary level provided feedback that they felt left out of decision making, and had no voice in the matters that directly affect them. As a result the District added "Students will join with parents and staff to examine data and make collaborative decisions that better address their needs regarding bullying", "The examination of data related to state and local indicators", and "A 'Student Center' on each campus, a safe place for students to meet and discuss issues important to them" to Goal 1, Action 3.

Goal 2 -- Instructional Educational Partners suggested Renaissance Learning and Learning A-Z as effective and engaging supplementary learning programs, so they have been added to action 2.7. More than half of the teacher Educational partners identified professional support as a need. To address that need, the Action 2.4 has been revised to include "Teaching Fellows will serve as mentors to newer teachers, providing guidance, sharing best practices, and fostering a collaborative professional learning community." Instructional Educational Partners suggested Renaissance Learning and Great Minds as effective and engaging supplementary learning programs for students participating in the LaunchPad program, so those have been added to Action 2.12. Family feedback from input meetings suggested "interventions, tutoring support, communication, and parent involvement" as areas for improvement. To address this concern, "Teaching Fellows will serve as tutors and additional instructional support" has been added to Action 2.6. Additionally, "Teaching Fellows will serve as tutors to support ELD and additional instructional support" has been added to Action 2.8 to specifically provide additional help to English Learners. The Principals' PLC provided suggestions for High Impact Teaching Strategies (HITS) as an instructional focus for the 2024-25 school year. (Action 2.3) During the meetings for the development of the LCAP and Community Schools plan, it became evident to District leaders that parents of Long Term English Learners (LTEL) themselves often struggled with expressing themselves and understanding oral communications in their native language. These difficulties were exacerbated by the District's use of different staff for translation services at school events and District meetings, depending on whomever was available. To address the need for consistent communication at events, the District will hire a permanent, part-time translator for District and school meetings.

A survey of local conditions in collaboration with Educational Partners has shown an increasing trend for teachers to leave for nearby districts after a few years in LUSD, or for prospective teachers to refuse job offers to sign with neighboring districts. Generally cited as a primary reason for these actions is the opportunity to make a significantly higher salary and still stay in the area. In order to understand this trend, the District conducted a study of salaries in 16 Fresno County LEAs, including LUSD. Based on daily rates, we found that, in 2023-24, there were substantial differences in the salaries paid in the larger nearby districts than those paid in Laton Unified. Educational Partners have suggested that, while the culture and climate of the District are aspects they enjoy, the District needs to offer competitive salaries in order to hire and retain outstanding teachers who will provide excellent instruction for our Low-Income students, English Learners, and Foster Youth, and who will stay to use the District-provided professional development to improve their practice and better meet their students' needs. (Action 2.15)

Goal 3 -- Educational Partners have shared that many of our families, particularly those Low-Income families and families of Foster Youth, face health challenges and barriers to accessing care that result in their children missing school. Many of those children lack the basic and consistent health screenings and preventive care, which adversely impacts their attendance. The suggested remedy was increasing the contact time with nursing services within our school district to provide personalized health support and advocacy for Low-Income students

and Foster Youth. The nurse's role will include regular health assessments, coordination of care with the district's community liaisons, and health education tailored to the specific needs of these vulnerable student populations, and will be added to Action 3.6. Regarding culture/climate and engagement, "bullying, solution finding/problem solving, and racism" were cited as areas to be addressed. Educational Partners have also expressed concerns about effective and appropriate interventions for students' behaviors at all levels. In order to address that need, and to create school climates and cultures that focus on positive interactions and deflecting conflict, the District has added a Culture and Climate Specialist.

Goal 4 -- Family Educational Partners described a difficulty they faced in being able to attend their child's high school athletic events. The difficulty is that economic circumstances often dictate that if they pay for admission to attend the game, some other family expense. For the benefit of their children, they will forego the expense of attending the game. In order to remove this barrier, and increase school/family connectedness, the District will add to Action 4.1, that families of Low-Income students will have their admissions to athletic events waived by the District. Parents have requested workshops in English As a Second Language and Using Technology, which were included in Action 4.1. Family Educational Partners have also expressed concerns that translations at family events are often inconsistent in quality as the District has used different people to provide translation, depending on availability. Concerns included that translators may have even conveyed different meanings for the same statements, depending upon their own interpretation. In order to provide families with high-quality, consistent communications at family events, the District will add "full-time translation services" to Action 4.2.

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
1	Establish and nurture an inclusive educational environment that maximizes student success through the strategic integration of Community Schools and a Multi-Tiered System of Support. <ul style="list-style-type: none"> <li>• Implementation of Community Schools: Collaborate with community partners to establish Community Schools that provide comprehensive support services addressing students' academic, social, health and emotional needs.</li> <li>• Integration of MTSS: Develop and implement a Multi-Tiered System of Supports that identifies and addresses students' academic and behavioral needs at the different intervention levels.</li> </ul>	Broad Goal

State Priorities addressed by this goal.

- Priority 3: Parental Involvement (Engagement)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

If children and their families are healthy, the children are readier to learn. The District will engage in collaborative leadership practices through active family and community engagement with our Educational Partners that will provide expanded and enriched learning time and opportunities coupled with integrated student supports.

As we interviewed community Educational Partners, it became clear that Community Schools and a Multi-Tiered System of Support that went beyond the four wall of the school demanded its own goal. As a result, Goal 1 was created. Parents' input lead the District to recognize the need to provide services for our community that would contribute to the health of the whole child, which meant the health and circumstances in an out of school. We built our concept of meeting the needs of children and their families on the idea of the a hub where any member of the school community can seek and receive support. The hub is run by three district community liaisons and offers mobile health services, a food pantry, a community closet, and facilities for washing and drying clothes. In time, the hub will also provide access to clean water and services to homeless children and their families or those whose circumstances have cut off access to water or utilities, including transportation.

Some of the Partners providing input also suggested that we use the hub as the place to learn from other parents, with sessions on how to support their children's at home to be more successful in school. These parent leaders will participate in trainings to build their skills in

building those of others. In addition to supporting parents at the hub, parent leaders will offer workshops, using their expertise to support others in parenting, accessing community services, and advocating for their children and their families. As parents engage in the process and build their self-efficacy, they will take a leading role in determining services at the hub.

Another powerful way in which parents will develop leadership skills is through collaboration and participation in decision-making that may start at the hub level and extend its reach to the school and District levels. Both parent and student Ed Partners have voiced the desire to amplify their voices in decision-making. Concurrently, the District will support a student advisory council, building their leadership capacities to engage in decision-making about how students might be better-supported by other Ed Partner groups, including the schools and the hubs. Students will join with parents and staff to examine data, such as suspension rates or school climate, to make collaborative decisions that better address their needs.

The three Liaisons (elementary, middle, and high school) will continue to serve as connections between the schools and the community, and engage with families when a teacher or other school employee notices that a student is suddenly excessively absent or seems to be lacking engagement or interest in school. Having the Liaisons to reach out before administrators become involved avoids the stigma or fear of "authority" that some of our Educational Partners have noted as a concern that may be a barrier to their engagement.

Included in the above suggestions are allocating funds for staffing, professional development, community partnerships, and resources necessary for the sustainability of the Community Schools hubs and activities. The collective actions and metrics below will help achieve the goal.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	California School Dashboard: ELA Distance from Standard	All Students: 80.6 points below English Learners: 109.7 points below Students with Disabilities: 94.9 points below Hispanic: 87.0 points below Low-Income: 81.8 points below White: 42.4 points below			All Students: 50 points below English Learners: 65 points below Students with Disabilities: 60 points below Hispanic: 50 points below Low-Income: 50 points below White: 25 points below

# Goal Analysis [2023-24]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Not Applicable.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Not Applicable.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Not Applicable.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Not Applicable.

## Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Community School Hubs	<p>Establish Community School hubs at identified schools, offering comprehensive support services such as health and wellness programs, after-school activities, and family resources.</p> <ul style="list-style-type: none"> <li>• District Social Worker</li> <li>• Providing and maintaining off-campus hubs for support services.</li> <li>• Equipment and supplies for support services.</li> <li>• Part-time Custodian to cover parent engagement events and student/family events</li> <li>• Each hub will be run by the Liaisons, and offer mobile health services, a food pantry, a community closet, and facilities for washing and drying clothes. In time, the hub will also provide access to clean water and services to homeless children and their families or those whose circumstances have cut off access to water or utilities, including transportation.</li> </ul>	\$500,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
1.2	Support for Community Engagement	The District will maintain the three District Family Liaisons to support organizing family and community events, workshops, and forums to promote engagement and collaboration, including parents of Low-Income students, English Learners, and Foster Youth.	\$350,000.00	Yes
1.3	Empowering Partners in School Safety and Connectedness	<p>Each school will maintain a school climate task force to implement a multi-phase approach to identifying the causes of students' perceptions about school safety and connectedness and to amplify students' voices in decision-making:</p> <ul style="list-style-type: none"> <li>• Discussions with students who represent the breadth of groups in our schools</li> <li>• The examination of data related to state and local indicators</li> <li>• In-depth empathy interviews with students and staff</li> <li>• Protocols for identifying and analyzing root causes</li> <li>• Identifying how current District initiatives are providing solutions to the problems</li> <li>• An area to be re-purposed as a "Student Center" on each campus, a safe place for students to meet and discuss issues important to them.</li> </ul> <p>The budgeted funds will cover staff non-duty time to:</p> <ul style="list-style-type: none"> <li>• Maintain instruments for gathering information</li> <li>• Meet to identify root causes and possible solutions</li> <li>• Preparation of a summary of findings.</li> </ul> <ul style="list-style-type: none"> <li>• The District will provide each school with professional presentations/assemblies to increase bullying awareness for all educational partners. Additionally, professional development for staff to increase bullying awareness and for prevention and intervention techniques will be conducted. Students will join with parents and staff to examine data and make collaborative decisions that better address their needs regarding bullying.</li> <li>• The District will provide professional development training to teachers and students that focuses on restorative practices. The aim of this professional development is to work as a team to teach</li> </ul>	\$100,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>and empower English Learners, Foster Youth, and Low-Income students to manage their feelings and behavior. Restorative practices support a positive and safe school climate, prevent bullying, and reduce disciplinary incidents.</p> <ul style="list-style-type: none"> <li>The District will provide after school student-focused Restorative Practices activities.</li> </ul>		
1.4	Develop and Implement MTSS Principles and Practices	<p>The District will provide a multi-tiered system of supports for students that include:</p> <ul style="list-style-type: none"> <li>Training programs for educators on MTSS principles and practices.</li> <li>Use of Universal Screeners. Implement comprehensive universal screening tools, including               <ol style="list-style-type: none"> <li>Character Strong Screener</li> <li>STAR K-12 assessments</li> <li>PBIS Referral System</li> <li>PowerSchool data analysis</li> <li>A2A placeholder tool</li> <li>Navigate 360</li> <li>Educlimber</li> <li>Illuminate</li> <li>DataWorks</li> </ol> </li> <li>Regular education Resource Teachers and part-time paraprofessionals so Low-Income students and English Learner students will receive more one-on-one support in the areas of Math, ELA and Reading. Each Resource teacher will be assigned a paraprofessional to assist with groups and data collection. Paraprofessionals will be provided the same training as the RT. However, the RT will be overseeing the para and be available to provide guidance during the sessions with students. The paraprofessional will also provide assistance with end of cycle assessment.</li> <li>Qualified instructional aides that will provide smaller group instructional support and more individualized attention to Low-Income students, English Learners, and Foster Youth.</li> </ul>	\$350,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> <li>• Academic Coaches to provide targeted assistance to classroom teachers in better meeting the instructional needs of Low- Income students, English Learners, and Foster Youth.</li> <li>• Continuing with additional instructional aides in K-2 grade levels to provide classroom and reading support for Low-Income students, English Learners, and Foster Youth.</li> <li>• Continued professional development for instructional aides in strategies to support Low-Income students, English Learners, and Foster Youth, especially in the areas of English Language Arts and Math.</li> <li>• Universal Design for Learning that will identify the needs of struggling Low-Income students, English Learners, and Foster Youth, identify interventions and supports, and monitor the effects on those students.</li> <li>• A calendar of monthly meetings between District and site personnel to review student data.</li> <li>• A calendar of site team planning meetings to review, plan, and create site assessments, curriculum, and pacing.</li> </ul>		
1.5	Monitoring Implementation of Goal 1	<p>The District will use the process outlined below to collect, organize, and examine the data necessary to evaluate the implementation and effectiveness of this goal:</p> <ul style="list-style-type: none"> <li>• Administrative support for program monitoring and fiscal reporting</li> <li>• Monthly meetings between the Superintendent and Principals to review academic and implementation data.</li> <li>• Regularly scheduled meetings of Educational Partners (students, parents, and staff) to review assessment data, including data related to ‘implementation progress, and identification of next steps to be taken based on that analysis; the effectiveness of the actions shall be based on whether they are being implemented in a timely fashion, and whether the metrics reflect positive progress.</li> <li>• The Superintendent, Principals, and other Educational Partners will conduct an evaluation of the actions to determine if revisions to the goal are recommended for the following year.</li> </ul>	\$50,000.00	No

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
2	Promote Academic Success for All: By providing access to rigorous standards-aligned curriculum, intervention, and enrichment to increase academic proficiencies while closing the achievement gaps for all students, based on a culture of collaboration, community, and a supportive working environment that promotes independent learners, values collaboration among educational partners, and is centered on data-driven decision making.	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The Overall performance level, as well as those for Low-Income students, English Learners, and all student groups, showed improvement in both ELA and math. The Low-Income students and Students with Disabilities improved at a faster rate in both ELA and Math than the All Students group, closing inequalities in those areas. English Learners also improved, but did not keep pace with the aforementioned groups. At Laton Elementary School, the ELA Distance from Standard for English Learners was assigned the "Very Low" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. Significant inequalities remain between English Learners and the All Students group.

The 2023 SBAC data for Percentage of Students Meeting or Exceeding Standard showed that Low-Income students improved at a faster rate in both ELA and Math than the All Students group. As with the "Distance from Standard", significant inequalities remain between English Learners and the All Students group in both areas. Significant inequalities remain between LUSD Low-Income students and their peers countywide in ELA (County, 36.04%) and Math (30.40%).

The rate of English Learner students who made one or more years of growth in acquiring English, as measured by the state's ELPAC, declined to 28.7%, resulting in a performance level of "Very Low." To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. The percentage of students reclassified as Fluent English Proficient (RFEP) remained in double digits at 11.8%, a 1.25 decline from 2022.

English Learners meeting U.C. or C.S.U. admission requirements in 2023 were 13.7% points behind the graduation cohort at large. The 2023 Overall A-G Completion Rates declined by 13.4% from the prior year to 30.4%. Low-Income students' results declined by 25.7% from 2022. The 2023 CTE cohort completion rate increased by 23.3% points to 76.1%. The combined CTE/A-G completion rate also increased from 22.2% to 26.1%. The percentage of students passing an AP exam also increased significantly, rising from 45% to 61%. In the Spanish AP exam, 92% of the students who took the exam passed.

Because English learners have not shown the same pace of improvement in ELA as other student groups, the District will continue to implement its English Learner Master Plan, which is aligned with the English Learner Roadmap. Included in that plan, and the 2024-25 LCAP, are practices that will more closely monitor EL and RFEP students' progress and immediately adjust instruction as warranted by data students' needs. In Action 2.7, after-school and Saturday Academy classes targeted for English Learners will provide opportunities for English language development, credit recovery, support for A-G class success, high-stakes test preparation (e.g., AP), and other academic support services. Teaching Fellows will serve as tutors to support ELD and additional instructional support.

2023 California School Dashboard: College and Career Indicator -- Percentage of students meeting "Prepared" requirements.

All Students: 69.6%

Hispanic: 70.0%

Low-Income: 70.0%

English Learners: 58.3%

The percentages of students meeting the "prepared criteria for the College and Career Indicator were much higher than the last reported data (2020), and exceeded our "Desired Outcomes for 2023-24" for All students, and met our goals for Low-Income students, and Hispanic students.

District Benchmark Assessment data suggest that the percentages of students meeting or exceeding standard has increased in the 2023-24 school year, which we expect to be reflected in 2024 state assessment results.

Teachers' ratings of the implementation of state standards was at 3.3 on a scale of 1 (Research and Development) to 5 (Full and Sustained implementation).

Results for Long-term English Learners (LTEL) were behind those of English Learners as a group, with no LTEL students meeting or exceeding standard in ELA or Math.

Implementing the Fresno State University Teaching Fellows program represents a strategic investment in the future of our education system. By nurturing a cohort of highly skilled, culturally responsive educators and integrating them into a comprehensive mentorship and academic tutoring framework, we are fostering an environment where both teachers and students thrive by learning from each other.

The basic purpose of education is to promote literacy and numeracy for all students, and the actions described under this goal are all designed to achieve that purpose. The metrics associated with this goal provide the necessary data to monitor and evaluate the effectiveness of those actions.

Studies completed by the Alliance for Excellent Education found that a U.S. 90% high school graduation rate would result in 250,000 additional graduates, \$3.1 billion in increased income, \$664 million in tax revenues, \$16.1 billion in health care savings, \$5.7 billion in economic growth, and more than 14,000 new jobs. In short, the positive impacts are enormous for Laton USD students who successfully complete high school and are prepared for college and career. Educational decisions will be student-centered and informed by excellent data collection, analysis, and appropriate input from our educational partners. The principles of a Multi-Tiered Support System and the Universal Design for Learning infuse and inform every part of this plan. While explicitly stated in this goal, every goal and action undertaken in the District is understood to be for the purpose of supporting our students to be successful and has a place in the tiered framework that bases universal, targeted, and intensive supports on students' needs for academic, mental health, social-emotional, and other integrated student supports. Every action should be judged by its results and applied or modified based on whether it contributes to the academic, social, and emotional well-being of our children.

Required Actions:

- Increasing English Learner Progress (ELPI) Districtwide and at Laton Middle School and Laton Elementary School. (Action 2.16)
- Increasing English Learners' Performance in ELA at Laton Elementary School. (Action 2.16)

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	California School Dashboard: ELA Distance from Standard	All Students: 80.6 points below English Learners: 109.7 points below Students with Disabilities: 94.9 points below Hispanic: 87.0 points below Low-Income: 81.8 points below White: 42.4 points below  Laton Elementary English Learners: 101.6 points below  [2023 California School Dashboard]			All Students: 50 points below English Learners:: 65 points below Students with Disabilities: 60 points below Hispanic: 50 points below Low-Income: 50 points below White: 25 points below  Laton Elementary English Learners: 60 points below  [2026 California School Dashboard]

## Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Outstanding Staff	The District will provide for core staffing, including administrative, teaching, classified, and support staff, including for Special Education.	\$7,665,917.12	No
2.2	Dual Immersion Language Program	<p>The District will provide a District-wide Two-Way Dual Immersion Program in Spanish and English. The purpose of the program will be to meet the following unique needs of our English Learners and Low-Income students:</p> <ol style="list-style-type: none"> <li>1. To promote high levels of oral language proficiency and literacy in both Spanish and English for English Learners and Low-Income students.</li> <li>2. To achieve proficiency for English Learners and Low-Income students in all academic subjects, meeting or exceeding district and state standards.</li> <li>3. To cultivate an understanding and appreciation of other cultures and to develop positive attitudes toward fellow students, their families, and the community.</li> <li>4. To increase the number of English Learners and Low-Income students who qualify for the State Seal of Bi-literacy.</li> </ol> <p>The Two-Way Dual Immersion Program will be implemented with the four factors that contribute to the success and sustainability of dual language programs. These are:</p> <ol style="list-style-type: none"> <li>(a) pedagogical equity,</li> <li>(b) effective bilingual teachers,</li> <li>(c) active parent participation,</li> <li>(d) knowledgeable leadership and continuity.</li> </ol>	\$200,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Teachers will be provided training, time, and resources to support implementation of the program with integrity, including monitoring implementation with regard to students' progress and the four success factors listed above.</p> <p>The program will include culturally enriching experiences, including educational field trips that build knowledge and experiences to support learning and language acquisition.</p> <p>The Dual Immersion Master Plan will be annually reviewed, revised, and updated, and will be implemented to reflect the above principles and practices.</p>		
2.3	Teacher Collaboration for Improving Instruction	<p>The District will provide professional learning and collaboration opportunities for teachers to enhance their understanding of common core standards and assessments. Leadership Teams review data and provide feedback to the site and District on initiatives being considered for implementation and present concerns related to students' and staff's well-being. Additionally, to ensure effective collaboration:</p> <ul style="list-style-type: none"> <li>• Support teachers in refining their abilities to use data from the Illuminate Data system and other data systems to target skill development for individual Low-Income students and English Learners, meet their needs, and ensure access to standards-mastery.</li> <li>• Continue development and improvement of Grade-level Rubrics to ensure that each Low-Income student and English Learner is evaluated by the same grade level criteria for proficiency in preparation for success in the next grade level.</li> <li>• Maintain full-time physical education teachers for K-8 students in order to provide teachers at those levels time to collaborate on data review and planning to address the needs of Low-Income students, English Learners, and Foster Youth.</li> <li>• Use benchmark assessments in all core content areas to identify the progress of Low-Income students and English Learners</li> <li>• Use standards-based report cards that report the progress identified above.</li> </ul>	\$150,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> <li>Collaborate on implementation of High Impact Teaching Strategies (HITS) for instructional improvement for the 2024-25 school year.</li> </ul> <p>Instructional staff will engage in regular, on-site collaboration in a Professional Learning Community (PLC). With the support of coaches, site administrators, and District staff, they will also engage in a continuous improvement process (plan, do, study, act) of observations, coaching, and reflection on instructional improvement.</p> <p>In order to ensure that the assessments and data are readily available for instructional staff to access for collaboration, evaluation, and targeting instruction to meet the needs of Low-Income students, English Learners, and Foster Youth, the District will maintain an Assessment Coordinator.</p>		
2.4	Effective Professional Development	<p>The District will:</p> <ul style="list-style-type: none"> <li>Consult with instructional staff to identify areas in which to provide professional development opportunities for teachers, paraprofessionals, and administrators in order to enhance instructional skills and increase available instructional strategies to promote learning for low-income students, English learners, and foster youth. As described by Dr. Michael Fullan in Coherence, staff will connect professional learning with the District's mission and vision, and administrators will function as lead learners. Professional development will support standards-based instruction for Low-Income students, English Learners, and Foster Youth in all subject areas that are taught, focused on essential standards and 21st-century learning needs. This will include professional development in English Language Development, Mathematics, and English Language Arts.</li> <li>Provide substitutes in order to release teacher groups to work collaboratively on developing curriculum scope and sequence, common assessments, and the vertical articulation and alignment of instructional planning to meet the needs of Low-Income students, English Learners, and Foster Youth.</li> <li>Continue professional development for instructional aides in providing support for Low-Income students, English Learners, and</li> </ul>	\$100,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Foster Youth, especially in the areas of English Language Arts and Math.</p> <ul style="list-style-type: none"> <li>• Teaching Fellows will serve as mentors to newer teachers, providing guidance, sharing best practices, and fostering a collaborative professional learning community.</li> <li>• Allocate funding for professional development for staff through the California Association for Bilingual Education (CABE) to support the Laton Unified Dual Immersion Program students and teachers in the mastery of Spanish.</li> </ul>		
2.5	Access to a Broad Curriculum	<p>The District will plan instructional schedules to ensure that Low-Income students, English Learners, and Foster Youth have access to a broad course of study in all grades. Students in grades TK-12 will participate in full curriculum that includes science, social studies, the arts, and a rigorous physical education program.</p> <p>LUSD will provide field trips that support standards-aligned instruction, which may include but are not limited to, the California State Capital, colleges/Universities, Science Camp, Native American cultural centers, Yosemite, Kings Canyon/Sequoia National Park, Mission, gold mining, Kearney Park, Fresno County Fair, and Chaffee Zoo.</p> <p>The District will purchase supplemental books, materials, and increased computer/mobile devices that reflect the diversity of our learning community, language acquisition for English Learners, and literacy supports for Low-Income students and Foster Youth. Access to literature in all curricular areas will be supported by the staffing and training of a full-time library aide who will enable educationally- and culturally-responsive library services.</p> <p>Laton Online Academy using a curriculum supplemental to the Board-adopted base curriculum for our Low-Income, English Learners, and/or Foster Youth students whose needs, conditions, or circumstances have resulted in academic distress and the need for educational options.</p>	\$100,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
2.6	After School Program	<p>The District will fund 50% of the Pre-K through 12 after-school ASES program in partnership with the Fresno County Superintendent of Schools, providing English Learners and Low-Income students with a place to go after school that will have adult supervision in an enriched atmosphere that promotes completion of homework, and participation in schoolwork and athletics. The contributing funds will be used to open additional spaces for low-income, English learners, and foster youth students, to whom we are not able to provide access, otherwise.</p> <p>Intercession offerings (ELOP) and increased engagement opportunities through the after-school program.</p> <p>After-school and Saturday Academy for Low-Income students and Foster Youth to provide opportunities for credit recovery, high-stakes test preparation (e.g., AP), and other academic support services.</p> <p>Teaching Fellows will serve as tutors and additional instructional support.</p> <p>The District will also provide transportation so students have access to safe, reliable means of traveling from activities to home.</p>	\$150,000.00	Yes
2.7	Supplemental/Intervention Support and Materials	<p>The District will purchase supplemental and intervention materials, including technology-based instructional programs and related costs, principally to provide interventions and additional supports for English Learners and Low-Income students who have demonstrated significant inequalities in outcomes between their performance levels and those of students at local and state levels. These materials include Renaissance Learning and Learning A-Z.</p> <p>Technology that enhances Low-Income students, Foster Youth, and English Learners' access to a broad variety of online and in-person enrichment experiences will be provided to create an expanded base of experiences that support language acquisition, improved academic outcomes, and access to a broad course of study through technology-based materials and programs.</p>	\$350,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		The District will continue to work on an evaluation timeline and process to determine if supplemental /intervention materials are having a positive impact on student outcomes.		
2.8	English Learner Supports	<p>The District will provide English Language Development (ELD) supplemental materials (e.g., Rosetta Stone) and additional support to English Learners, including Redesignated English Learner students who experience academic difficulties.</p> <p>These Reading/Literacy/Technology instructional programs are directed toward accelerating language acquisition and access to the core. Teachers and paraprofessionals will use the materials in small group settings to provide additional support. Fresno County Superintendent of Schools' staff will provide targeted professional learning activities to teachers and paraprofessionals to support the best use of these materials and programs and the broadest possible access to the curriculum.</p> <p>After-school and Saturday Academy classes targeted at English Learners will provide opportunities for English language development, credit recovery, support for A-G class success, high-stakes test preparation (e.g., AP), and other academic support services.</p> <p>Teaching Fellows will serve as tutors to support ELD and additional instructional support.</p> <p>The District will continue implementation its English Learner Master Plan aligned with the English Learner Roadmap. Included in that plan are practices that will more closely monitor the progress of EL students and RFEP students, and immediately adjust instruction as warranted by data and students' needs.</p>	\$75,000.00	Yes
2.9	Addressing the Needs of Long-Term English Learners	<p>The Laton Unified School District aims to support LTELs' linguistic and academic needs, ensuring their success in school and beyond by the following:</p> <ul style="list-style-type: none"> <li>• Early identification as "at risk"</li> </ul>	\$215,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> <li>• Targeted instructional support, with emphasis in reading</li> <li>• Professional development for instructional staff</li> <li>• Parent and community engagement</li> <li>• District Trained Permanent Part-Time Translator to ensure consistent communication with parents of LTELs.</li> <li>• Monitoring progress and intervening immediately</li> <li>• English Learner Master Plan revision with section explicitly addressing LTEL.</li> </ul>		
<b>2.10</b>	Summer School Program	The District will provide a summer extended learning program for Low Income students, Foster Youth, English Learners to provide learning recovery, acceleration, enrichment, English language development, credit recovery, and original credit classes for grades pre-K-12.	\$75,000.00	No
<b>2.11</b>	Create a Culture of Post-Secondary Success	<p>To increase the number of Low-Income students, Foster Youth, and English Learners completing requirements for admission to U.C. and/or C.S.U. those taking and passing A.P. classes, and/or those completing a C.T.E. pathway, the District will:</p> <ul style="list-style-type: none"> <li>• Ensure Low Income students, Foster Youth, and English Learners in grades 6-12 will make at least one college visit where they can see what a college campus looks like, and talk to college educators and students from similar circumstances who will encourage them to attend.</li> <li>• Ensure Low-Income students, Foster Youth, and English Learners in grades 11-12 will visit at least one C.T.E. program at a community college so they can learn about a greater variety of post-secondary career paths than it is possible to provide at a small high school like Laton High.</li> <li>• Use the greenhouse as the driver for creating a student-run farmer's market and entrepreneurial program that will provide Low-Income students, Foster Youth, and English Learners with opportunities to experience business planning and management. They will learn about the associated C.T.E. or college pathways associated with running an ag business.</li> </ul>	\$50,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> <li>Increase participation and interest in AVID and college campus exposure by promoting Low-Income students, Foster Youth, and English Learners' participation in AVID student recognition events as part of a college campus visit. The use of AVID strategies that support the success of Low-Income students, Foster Youth, and English Learners will be expanded throughout the District.</li> </ul>		
<b>2.12</b>	Early Childhood Education	<p>The District offers a preschool program that promotes early literacy and a smooth transition to elementary school. We will increase our outreach to the community to educate parents of preschool-age English Learners, Foster Youth, and Low-Income children on the importance of early education and literacy, including the offering of a three-week "Launchpad" program to prepare students who have not attended preschool to be ready for Kindergarten. GreatMinds and Renaissance Learning will be used as supplemental Materials to support the "Launchpad" program.</p> <p>The District will undertake efforts to identify and provide information to families of eligible children who have concerns about participating in the LaunchPad program.</p>	\$75,000.00	Yes
<b>2.13</b>	Students with Exceptional Needs	<p>To increase academic outcomes for Students with Disabilities and decrease the significant inequalities in outcomes between them and higher-performing student groups, the District will:</p> <ul style="list-style-type: none"> <li>Provide supplemental materials and access to technology that will allow those students to access the core curriculum more easily.</li> <li>Provide professional development for teachers in supporting students with exceptional needs and increasing their access to the core curriculum.</li> <li>Implement a Comprehensive Coordinated Early Intervening Services (CCEIS) plan to support the proper identification of students who qualify for Special Education services and ensure a Student Success Team (SST) is in place to meet those students' continued needs.</li> </ul>	\$300,000.00	No

Action #	Title	Description	Total Funds	Contributing
2.14	Smaller Class Sizes	The District will hire and retain properly credentialed teachers for the purpose of reducing class sizes as needed for grades 4-12, in order to provide additional support to Low-Income students, English Learners, and Foster Youth.	\$450,000.00	Yes
2.15	Provide Improved Excellent Instruction	In order to hire and retain high-quality and well-trained instructional staff, the District will offer competitive salaries.	\$350,000.00	Yes
2.16	Required Action: Increasing English Learner Progress (ELPI) and English Learners' Performance in ELA	<p>On the 2023 California School Dashboard, the district-wide percentage of English Learners making a year or more progress in acquiring English language skills was 28.7%, a decline 21% from the prior year, resulting in a "Very Low" performance level on the Dashboard. Similar declines were experienced by English Learners at Laton Elementary (-18%) and at Laton Middle School (-21%), resulting in "Very Low" performance levels for both those schools. Additionally, the 2023 performance level for English Learners at Laton Elementary School was "Very Low" in ELA.</p> <p>We believe that actions focused on developing English language skills and academic vocabulary that improve reading, writing, listening, and speaking skills would effectively address both the ELPI for our English Learners district-wide and have a positive impact on ELA results at Laton Elementary.</p> <p>Early literacy will be a focus in the primary grades at Laton Elementary School, supported by English language development activities such as pre-loading and vocabulary development. The upper grades at Laton Elementary, along with Laton Middle School and Laton High, will focus on reading and writing, developing a common framework and strategies that will build through the grade levels, 4-12. It will also shift the focus at LMS and LHS to more expository writing and less narrative, supported by academic language development that will better enable students to understand stories and information that they read and to communicate better in writing. The three schools will articulate staff training and implementation of Differentiated Instruction. The purpose will be to support teachers in "meeting the students where they are", using evidence and</p>	\$10,000.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>arranging strategies to support different abilities, such as activating prior knowledge, chunking lessons, modeling, and including multiple modalities.</p> <p>The District will review its English Learner Master Plan, which is aligned with the English Learner Roadmap. That plan will include practices that will more closely monitor the progress of EL, LTEL, and RFEP students and immediately adjust instruction as warranted by data and students' needs.</p> <p>The Resource Teacher and Assessment Coordinator will provide support as monitored by the District's Learning Director and English Language Learner Coordinator.</p> <p>Implementation of this action will be conducted in concert with the Fresno County Superintendent of Schools (FCSS) as the District's response to its eligibility for Differentiated Assistance (DA). Midway through the year, with the publication of the 2023 Dashboard, the District and FCSS identified English Learner ELPI as the area to address for DA in 2024-25. The District's Improvement Team will meet regularly with the FCSS DA Team to review and monitor implementation, adjusting change idea implementation, as necessary. The team will debrief meeting protocols, identify what's working, what gaps might exist, and next steps. These improvement meetings will center around the Plan, Do, Study, Act (PDSA) process. Improvement Team will meet regularly through Spring to evaluate progress and develop a sustainability plan for continued improvement.</p>		

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
3	Maintain a Safe, Healthy, and Supportive School Environment: By maximizing the processes within our organization to execute our mission by creating a safe, clean, efficient, and effective learning environment for all educational partners that promotes student engagement and provides social-emotional support and builds academic success by providing access to 21st-century learning.	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Our first priority is to make certain our students are well, physically, socially, and emotionally before engaging them in positive learning environments.

A critical component of student success in learning is a positive school climate that engages students in learning. Research also shows that positive learning environments can reduce teacher turnover by as much as 25%, a significant factor in providing students with increasingly effective initial instruction.

Suspension rates from the 2023 Dashboard increased overall, and for all student groups, from 2022; "All Students," "Low-Income," "English Learners," "Hispanic," "White," and "Students with Disabilities" groups will all have specific actions included in the LCAP to address lowering suspension rates. We will continue to address suspension rates by providing social-emotional and mental health support to ensure that our students feel safe and connected to their schools, including continued significant increases in the budgets for those services and social-emotional learning (SEL). These services will include classroom practices that support SEL.

2023 California School Dashboard, Chronic Absenteeism results shown in the "Reflections" section demonstrate that our efforts to identify and intervene with students at risk of chronic absenteeism, along with celebrating excellent attendance, have generally been very effective in lowering chronic absenteeism rates. We will continue to address Chronic Absenteeism by providing parents and teachers with a systematic tiered approach to monitor attendance and address chronic absenteeism. However, the results have not been as expected for Students with Disabilities, and the rate for that group increased by 3.3% points, leading to the assignment of a "Red" or lowest performance level.

The 2023 California School Dashboard showed that graduation rates increased for the second year in a row, by 6.8% points overall, to 95.7%, and a performance level of "Very High". Results for Low-Income students also increased to 95.%, again in the "Very High" performance level. Both these results met the "Desired Outcomes" the District had set for this metric to reach in 2023-24. Though the groups

were too small to be assigned a performance level, the rate for Hispanic students reached 95.0%, and that for English Learners climbed to 91.7%. We believe that this was due in large part to Actions 2.3 and 2.4, which increased LHS students' feelings of connectedness to school and their sense of safety or well-being. The continued use of PBIS structures at the school and the implementation of Safe School Ambassadors, which identified leaders from the diverse groups and cliques on campus and equipped to model pro-social behaviors, shifted focus to positive behaviors and high school students as role models. Character Counts aided older students in developing self-awareness, self-management, responsible decision-making, social awareness, and other executive functioning skills that support maintaining focus on school and graduation as a realistic goal to be achieved. Based on this success, we will continue the implementation of those actions.

We were pleased to see the continued high percentages of students who responded in the 2024 survey that they feel safe at, and connected to, school. The percentage who feel safe increased by 5% points to 80%, and those feeling connected maintained at 76%. Since our ultimate goal is for every student to feel safe and belonging at school, we will continue our culture and climate actions described in Goal 2.

Educational partners' input resulting from our actions to engage students in emotional support services and anecdotal data strongly indicate that students have needs for social-emotional supports, and the focus is increasing in that area. District staff provide input that our younger students are still re-acclimatizing and relearning social skills after participating in distance learning.

A positive learning environment, coupled with positive relationships among peers and between students, staff, and parents, is critical to students' success. As The Education Trust has noted, "Strong relationships provide a foundation for student engagement, belonging, and, ultimately, learning." The actions described under this goal are all designed with the purpose to achieve the goal of maintaining a positive climate and building relationships that support students' mental health.

#### Required Actions:

- Districtwide, Suspension rates for All Students, Low-Income students, English Learners, Students with Disabilities, Hispanic students, and White students were all assigned the "Very High" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. (Action 3.8)
- At Laton Middle School, Suspension rates for All Students, Low-Income students, English Learners, Students with Disabilities, and Hispanic students were all assigned the "Very High" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. (Action 3.8)
- At Laton High School, Suspension rates for All Students, Low-Income students, English Learners, and Hispanic students were all assigned the "Very High" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. (Action 3.8)
- At Laton Elementary School, Suspension rates for Students with Disabilities, was assigned the "Very High" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. (Action 3.9)
- Districtwide, at Laton Middle School, and at Laton Elementary School, Chronic Absenteeism for Students with Disabilities was assigned the "Very High" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP. (Action 3.10)

# Measuring and Reporting Results

## Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Well-Maintained Facilities	<p>The District will maintain safe, welcoming facilities for all educational partners and continue to respond to prioritized classroom/site facilities requests in a timely manner to ensure appropriate learning environments for all students. The District will conduct routine maintenance to maintain clean and safe facilities and school sites to enhance the educational experience for students.</p> <p>The District will follow the Facilities Master Plan and review possible portable classroom repairs and replacements.</p>	\$500,000.00	No
3.2	Transportation	Ensure that our students have access to safe, reliable transportation to and from school every day.	\$200,000.00	No
3.3	Positive School Climate	<p>The District will continue to use programs already in place, including:</p> <ul style="list-style-type: none"> <li>• Common Behavior Expectations for LES/LMS/LHS Classrooms and Campuses;</li> <li>• PBIS structures at each site K- 12;</li> <li>• A daily healthy snack beyond the meal program will be provided to all kindergarten students;</li> <li>• Provide transitional services and social/emotional and academic support to foster youth and homeless students.</li> <li>• Link Crew at LHS.</li> <li>• Recognition of students and staff who demonstrate positive, student—and peer-affirming behaviors that reflect social-emotional growth and development. Recognition may include certificates and incentives that fall within the District's BP 5126.</li> </ul>	\$120,000.00	No
3.4	Social/Emotional Learning and Supports	The District will offer social/emotional programs for students. The District will track students' participation in order to evaluate the impact of the programs.	\$313,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> <li>• Continuing with Counselors and Counseling Interns for K–12th grade English Learners, Foster Youth, and Low-Income students' support and a full-time school psychologist to address social/emotional issues; focused on support geared toward English Learners, Foster Youth, and Low-Income students who need support "in addition to" or "beyond" what is required by law to access systems that impact their success.</li> <li>• Implementing Character Counts at each site, K- 12, in order to support social, emotional, and character development for English Learners, Foster Youth, and low-income students, as well as a positive school/district climate;</li> <li>• LHS/LMS Mentorship -- Further implementation of the "Leader in Me" program to build self-confidence, resilience, and leadership skills. High School students who complete the program may serve as mentors for younger English Learners, Foster Youth, and Low-Income students;</li> <li>• Increase English Learners, Foster Youth, and Low-Income students' social-emotional development through teaching, modeling, and practicing social-emotional skills that support a safe and positive climate for learning.</li> <li>• Continue contracting/employing a part-time behavior health clinician to support low-income students who don't qualify for All4Youth services due to insurance benefits.</li> <li>• Targeted PD and training for staff and consultants on writing effective Behavior Intervention Systems.</li> <li>• Hire a Culture and Climate Specialist to support District initiatives.</li> </ul>		
3.5	Safe Schools	<p>In response to requests from our educational partners to ensure our students have a safe physical environment, the District will contract with K9 Drug Dogs, Central Valley Detection KT. This service will include:</p> <ul style="list-style-type: none"> <li>• Ensuring safety &amp; security by minimizing the presence of illegal drugs, gunpowder-based items, and weapons in addition to commonly abused medication.</li> <li>• Reducing the contraband-related suspension and expulsion rate.</li> <li>• An educational component to help build a relationship between the security team and the students.</li> </ul>	\$250,000.00	No

Action #	Title	Description	Total Funds	Contributing
		<ul style="list-style-type: none"> <li>• Screeners to clear visitors</li> </ul> <p>The presence of canines on campus will not only deter the presence of illegal items at school but is also expected to deter individuals seeking to cause problems or incite violence on campuses.</p>		
3.6	Improve Attendance	<p>The District will contract with FCSS Truancy Intervention Program. This program will not only intervene with truant students but will also be proactive in providing strategies for the prevention of truancy before it happens. Additionally, to support improved attendance, the District will:</p> <ul style="list-style-type: none"> <li>• Contract for Fresno County nurses to support the District's LVNs in increasing health services and access in schools that is beyond the required "specialized physical health care services prescribed by a child's licensed physician that require medically related training for the individual who performs the services and which are necessary during the school day to enable the child to attend school." The nurses' roles will include regular health assessments, coordination of care with the District's community liaisons, and health education tailored to the specific needs of Low-Income, English Learner, and Foster Youth student populations.</li> <li>• Contract with Prodigy Healthcare, Inc. provides services to youth and their families through evidence-based programming designed to promote pro-social behavior and healthy lifestyles.</li> <li>• Establish a calendar of monthly meetings with District and site administrators to look at absenteeism data and other data pieces to support improved attendance for Low-Income students, English Learners, and Foster Youth.</li> <li>• Provide monthly attendance incentives and recognition for students.</li> <li>• Parents of students who are referred to SARB will be required to attend a District parenting course as a part of the contract for improved attendance.</li> </ul>	\$5,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.7	Expand Access to Athletic Fields and Recreational Areas	<p>Within the Laton community, the only safe, clean, and wide-open spaces equipped for outdoor physical education, extracurricular, and open play areas are the school fields at our elementary school and high school. Laton lacks recreational areas where students can participate in physical or athletic activities. Maximizing participation and access to these activities has a direct effect on low- income students.</p> <p>LUSD is addressing the limited access to outdoor play areas/fields and access to extracurricular activities by expanding playfields and sports fields to increase access. The expansion will also provide Low-Income students with year-round access to those areas. Providing these spaces will increase students' feelings of connectedness and school engagement.</p> <p>Additionally, in order to most effectively use the expanded playfields and sports fields for our Low-Income students, English Learners, and Foster Youth, the District will continue a part-time Guided Playtime Facilitator. This person will develop opportunities for students to engage in structured playtime during recess and lunch.</p>	\$25,000.00	Yes
3.8	<p>Required Action: Districtwide Suspension rates for All Students, Low-Income students, English Learners, Students with Disabilities, Hispanic students, and White students</p> <p>Laton Middle School Suspension rates for All Students, Low-Income students, English Learners, Students with</p>	<p>2023 California School Dashboard Suspension Rate results were at the "Very High" performance level for All Students, Low-Income students, English Learners, Students with Disabilities, Hispanic students, and White students, Districtwide; at the "Very High" performance level for All Students, Low-Income students, English Learners, Students with Disabilities, and Hispanic students at Laton Middle School; and at the "Very High" performance level for All Students, Low-Income students, English Learners, and Hispanic students at Laton High. To address these issues, a specific action or actions to address those rates will be included in the LCAP.</p> <p>The District has conducted a survey of the reasons for the increased suspension rates and found that districtwide, at LHS, and LMS, that 25% of total incidences at the high school and 30% of the total incidences at the middle school were related to vaping. Vaping-related suspensions for the first offense more than doubled at LHS and more than tripled at LMS from the prior year. We also found that vaping cuts across student groups, and</p>	\$1,000.00	No

Action #	Title	Description	Total Funds	Contributing
	<p>Disabilities, and Hispanic students</p> <p>Laton High School, Suspension rates for All Students, Low-Income students, English Learners, and Hispanic students</p>	<p>affects all of them. We determined that lowering the LHS and LMS vaping suspension rates for all groups will have the same result for the District, and a single action will impact all three.</p> <p>To address these circumstances, the District will implement a process of mandatory referrals to counseling on the first vaping offense without suspension. The goal will be to educate the students on the dangers of vaping and strategies to resist peer pressure. As a result, we expect a decline in suspension rates for All Students, Low-Income students, English Learners, Students with Disabilities, Hispanic students, and White students.</p>		
<b>3.9</b>	Required Action: Suspension Rates for Students with Disabilities at Laton Elementary School	<p>At Laton Elementary School, Suspension rates for Students with Disabilities (SWD), was assigned the "Very High" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP.</p> <p>In looking at the data, the District has determined that the increase of 1% was the result of a decrease in the number of Students with Disabilities enrolled at school. The same number of SWD were suspended as the prior year, but the lower number in the cohort caused the percentage to increase. The school staff are working with the students who have been suspended, using a variety of means including counseling and check-ins. Because of the small number of students (&lt;5) involved, the specific reason or reasons cannot be publicly disclosed. We are confident that in continuing to work one-on-one with these students, we will lower the suspension rate for SWD.</p>	\$10,000.00	No
<b>3.10</b>	Required Action: Chronic Absenteeism for Students with Disabilities Districtwide, at Laton Middle School, and	Districtwide, at Laton Middle School, and at Laton Elementary School, Chronic Absenteeism for Students with Disabilities (SWD) was assigned the "Very High" performance level. To address this issue, the possible reasons will be identified and a specific action or actions to address them will be included in the LCAP.	\$10,000.00	No

Action #	Title	Description	Total Funds	Contributing
	Laton Elementary School	<p>In an assessment of local circumstances, the District found that many parents of SWD in the middle school and elementary remain concerned about communicable diseases since the COVID pandemic, and that their children may be more sensitive and likelier to develop a serious medical condition if they attend school when they are feeling unwell, no matter to what degree. These parents continue to feel that the likelihood of contracting an airborne disease in a classroom is much greater post-pandemic.</p> <p>To address the issue, the District will communicate with parents that the District has continued cleaning and safety protocols to protect against widespread contagion, and that, absent a diagnosis that the student is medically fragile, their children are no likelier than any others to become seriously ill from attending school when feeling slightly unwell. The District is also communicating to parents of SWD at LMS and LES of the importance of being in school to being academically successful.</p>		

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
4	Collaborative Culture that Impacts Student Achievement: By building a culture based on trust, stability, and consistency that values and promotes a high level of parent and community involvement in decision-making opportunities that directly impact school programs and our diverse population of students.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)

An explanation of why the LEA has developed this goal.

The Family Engagement Framework, a California Department of Education publication, acknowledges that "family engagement is one of the single most important factors in helping students succeed in school. Parents, families, and other caring adults provide the primary educational environment for children early in life and can reinforce classroom learning throughout the school years."

Relationships between LUSD schools and the families they serve have been positive. LCAP development practices and the submission of our Community Schools Grant application have involved parents to an unprecedented degree. However, the state's self-reflection instrument suggests that there remain areas for improvement, and the District recognizes that the quality and nature of engagement can be fashioned to encourage an increasing role for families in local decision-making. The District's goal is to increase and enhance family engagement to a level that is reflected in an average score between 4 ("Agree") and 5 ("Strongly Agree") on the state's self-reflection tool for parent and family engagement.

The actions and metrics grouped together below will help achieve this goal.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

## Required Descriptions

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	<p><b>Action:</b> Community School Hubs</p> <p><b>Need:</b> Parents' input lead the District to recognize the need to provide services for our community that would contribute to the health of the whole child, which meant the health and circumstances in an out of school. We built our concept of meeting the needs of Low-Income</p>	<p>Establish Community School hubs at identified schools, offering comprehensive support services such as health and wellness programs, after-school activities, and family resources.</p> <ul style="list-style-type: none"> <li>District Social Worker</li> <li>Providing and maintaining off-campus hubs for support services.</li> <li>Equipment and supplies for support services.</li> </ul>	<ul style="list-style-type: none"> <li>California School Dashboard: Suspension Rate</li> <li>California School Dashboard: Chronic Absenteeism Rate</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>students, English Learners, and Foster Youth and their families on the idea of a hub where they can seek and receive support. An assessment of local needs revealed that providing social work services as part of our community school hub would help address the mental health needs of our unduplicated students who have experienced trauma from food instability, loss of income, and/or family relocations. Additionally, custodial services are also needed in order to ensure that the District can honor the educational partner requests for access to the hub outside of school hours for family workshops and services.</p> <p>Some of the Partners providing input also suggested that we use the hub as the place to learn from other parents of Low-Income students, English Learners, and Foster Youth, with sessions on how to support their children's at home to be more successful in school. These parent leaders will participate in trainings to build their skills in building those of others. In addition to supporting parents at the hub, parent leaders will offer workshops, using their expertise to support others in parenting, accessing community services, and advocating for their children and their families. As parents of Low-Income students, English Learners, and Foster Youth engage in the process and build their self-efficacy, they will take a leading role in determining services at the hub.</p> <p>Another powerful way in which parents will develop leadership skills is through</p>	<ul style="list-style-type: none"> <li>• Part-time Custodian to cover parent engagement events and student/family events</li> <li>• Each hub will be run by the Liaisons, and offer mobile health services, a food pantry, a community closet, and facilities for washing and drying clothes. In time, the hub will also provide access to clean water and services to homeless children and their families or those whose circumstances have cut off access to water or utilities, including transportation.</li> </ul> <p>We expect the Community Schools hubs to result in an increase in families' feeling of engagement and empowerment in the District, as measured by the state's Priority 3 self-reflection instrument. Additionally, we believe that offering more extensive or "wrap-around" health and social services to families and access to other services, facilitated by the three Liaisons, student attendance will improve and chronic absenteeism rates will decrease. The District Social Worker will assist Low-Income students, English Learners, and Foster Youth and their families with developing and practicing pro-social behaviors in school in response to trauma experienced outside. Their hours will be set to include accessibility outside of school hours. Our experience as educators confirms that students who experience pro-social behaviors help establish positive relationships, which, in turn, cause students to feel safer and more connected to school. Additionally, students who feel increased school connectedness are less likely to be chronically</p>	<ul style="list-style-type: none"> <li>• District Survey Results: Percentage of Students Who Feel Safe and Connected to School</li> <li>• Parent Engagement: Results of the State's Self-Reflection Tool Reported to the LUSD Governing Board</li> <li>• Percentage of Parents Who Feel Welcome at their Children's Schools</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>collaboration and participation in decision-making that may start at the hub level and extend its reach to the school and District levels. Both parent and student Ed Partners have voiced the desire to amplify their voices in decision-making.</p> <p><b>Scope:</b> LEA-wide</p>	<p>absent.</p> <p>Parent leaders teaching workshops and using their expertise to support others in parenting, accessing community services, and advocating for their children and their families are expected to enhance parents' feelings of self-efficacy. When students collaborate with parents and staff to examine data, such as suspension rates or school climate, to make collaborative decisions that better address their needs, we expect suspension rates to decline and feelings of safety and connectedness to increase. The percentage of parents who feel welcome at their children's schools will be reported in the Annual evaluation of the effectiveness of the action.</p> <p>The part-time custodian will ensure that our Low-Income students, English Learners, and Foster Youth and their families have access to the services the hub provides at times outside of school hours. They will also help maintain a clean, safe environment for meetings and workshops that take place at the hub.</p> <p>To maximize the impact its impact on our students, this action will be implemented Districtwide.</p>	
1.2	<p><b>Action:</b> Support for Community Engagement</p> <p><b>Need:</b> Feedback from Educational Partners has been very positive regarding the Family Liaisons and the assistance that they provide. Parents</p>	<p>The District will maintain the three District Family Liaisons to support organizing family and community events, workshops, and forums to promote engagement and collaboration.</p> <p>The three Liaisons (elementary, middle, and high school) will continue to serve as connections</p>	<ul style="list-style-type: none"> <li>• Parent Engagement: Results of the State's Self-Reflection Tool Reported to the</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>reported that they would like to see us continue these supports in order to strengthen Low-Income, English Learner, and Foster Youth parent and family engagement. School staff reported that the liaisons have been a boon in addressing chronic absenteeism rates among our students.</p> <p>Some of our Educational Partners have noted as a concern that when administrators reach out to them, the stigma or fear of "authority" may be a barrier to their engagement. There is a need for intermediaries such as the Family Liaisons to reach out initially and avoid that barrier.</p> <p><b>Scope:</b> LEA-wide</p>	<p>between the schools and the community, and engage with families when a teacher or other school employee notices that a student is suddenly excessively absent or seems to be lacking engagement or interest in school.</p> <p>We expect that by offering more extensive or "wrap-around" health and social services to families and access to other services, facilitated by the three Liaisons, chronic absenteeism rates will decrease. Additionally, as the Liaisons serve as connections between the schools and the community, and engage with families in positive ways, the families' perceptions of the District's desire to welcome and engage with parents as decision-makers and pillars of the educational community will grow stronger.</p> <p>To maximize the impact its impact on our students, this action will be implemented Districtwide.</p>	<p>LUSD Governing Board</p> <ul style="list-style-type: none"> <li>Percentage of Parents Who Feel Welcome at their Children's Schools</li> <li>California School Dashboard: Chronic Absenteeism Rate</li> </ul>
<p><b>1.3</b></p>	<p><b>Action:</b> Empowering Partners in School Safety and Connectedness</p> <p><b>Need:</b> Suspension rates from the 2023 Dashboard increased overall, and for all student groups, from 2022; "All Students," "Low-Income," and "English Learners" groups. 2023 California School Dashboard, Chronic Absenteeism results shown in the "Reflections" section demonstrate that our efforts to identify and intervene with students at risk of chronic absenteeism, along with</p>	<p>Each school will maintain a school climate task force to implement a multi-phase approach to identifying the causes of Low-Income students', English Learners' and Foster Youth's perceptions about school safety and connectedness:</p> <ul style="list-style-type: none"> <li>Discussions with students who represent the breadth of groups in our schools</li> <li>The examination of data related to state and local indicators</li> <li>In-depth empathy interviews with students and staff</li> <li>Protocols for identifying and analyzing root causes</li> </ul>	<ul style="list-style-type: none"> <li>California School Dashboard: Suspension Rate</li> <li>California School Dashboard: Chronic Absenteeism Rate</li> <li>California School Dashboard: Graduation Rate</li> <li>District Survey Results:</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>celebrating excellent attendance, have generally been very effective in lowering chronic absenteeism rates.</p> <p>The 2023 California School Dashboard showed that graduation rates increased for the second year in a row, by 6.8% points overall, to 95.7%, and a performance level of "Very High". Results for Low-Income students also increased to 95.%, again in the "Very High" performance level. Both these results met the "Desired Outcomes" the District had set for this metric to reach in 2023-24. Though the group was too small to be assigned a performance level, the rate for English Learners climbed to 91.7%. We believe that this was due in large part to actions which increased LHS students' feelings of connectedness to school and their sense of safety or well-being.</p> <p>We were pleased to see the continued high percentages of students who responded in the 2024 survey that they feel safe at, and connected to, school. The percentage who feel safe increased by 5% points to 80%, and those feeling connected maintained at 76%. Since our ultimate goal is for every student to feel safe and belonging at school, we will continue our culture and climate actions.</p> <p>The improved results for Low-Income in Chronic Absenteeism, with English Learners lowering rates by 10.3%, and Low-Income students improving by 5.8%; the increases in graduation rates; and the continued high percentages of students feeling "safe at" and</p>	<ul style="list-style-type: none"> <li>• Identifying how current District initiatives are providing solutions to the problems</li> <li>• An area to be re-purposed as a "Student Center" on each campus, a safe place for students to meet and discuss issues important to them.</li> </ul> <p>The school climate task forces will use the above steps to collaborate with the upper elementary and secondary students to identify specific reasons why they feel they have no voice in the matters that directly affect them. From discussions that take place in the "Student Center", staff and Low-Income students, English Learners and Foster Youth will develop solutions and provide forums that empower students as decision-makers.</p> <ul style="list-style-type: none"> <li>• The District will provide each school with professional presentations/assemblies to increase bullying awareness for all educational partners. Additionally, professional development for staff to increase bullying awareness and for prevention and intervention techniques will be conducted. Students will join with parents and staff to examine data and make collaborative decisions that better address their needs regarding bullying.</li> <li>• The District will provide professional development training to teachers and students that focuses on restorative practices.</li> <li>• The District will provide after school student-focused Restorative Practices activities.</li> </ul>	<p>Percentage of Students Who Feel Safe and Connected to School</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>"connected to" school demonstrate the need to continue these initiatives from prior Goal 2. In looking at suspension data, we found that at each school, the percentages of students suspended for incidences not related to drugs/vaping were 100% Low-Income at LES, 95% Low-Income at LMS, and 100% Low-Income at LHS. We also found that suspensions for defiance increased at each site from 2022 to 2023. These data showed the need for increased restorative practices to deal with defiant behaviors in lieu of suspension. The data also showed that, while declining, suspensions for violent behaviors contributed significantly to suspension rates at each school, and that the percentages of Low-Income students suspended was consistent with those for defiance. We determined the need to support those students with restorative practices activities, as well, to try and mitigate conflict before it erupted into violence. Students at the secondary level provided feedback that they felt left out of decision making, and had no voice in the matters that directly affect them. To address the need for student voice, the District added "Students will join with parents and staff to examine data and make collaborative decisions that better address their needs regarding bullying", "The examination of data related to state and local indicators", and "An area to be re-purposed as a 'Student Center' on each campus, a safe place for students to meet and discuss issues important to them" were added to this action.</p>	<p>We expect this action to be effective in decreasing suspension rates and chronic absenteeism rates, maintaining and increasing high levels of students' feelings of safety and connectedness to schools, and continue increasing graduation rates. The school climate task forces will amplify students' voices in decision-making at our schools, building their feelings of efficacy and deepening their engagement with their peers and staff through collaboration.</p> <p>Our efforts to raise awareness and take preventive measures regarding bullying, with students as partners, will result in the implementation of practices based on students' knowledge of the reality of school interactions, and should be more effective as a result. These efforts will be reinforced by after-school restorative practices (RP) activities that support a positive and safe school climate, mitigate defiant behaviors, and reduce disciplinary incidents. The aim of the RP professional development is to work as a team to teach and empower English Learners, Foster Youth, and Low-Income students to manage their feelings and behaviors so they are not manifested</p> <p>To maximize the impact its impact on our students, this action will be implemented Districtwide.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p><b>Scope:</b> LEA-wide</p>		
<p><b>1.4</b></p>	<p><b>Action:</b> Develop and Implement MTSS Principles and Practices</p> <p><b>Need:</b> The 2023 California School Dashboard Distance from Standard Overall performance level, as well as those for Low-Income students, English Learners, and all student groups, showed improvement in both ELA and math. The Low-Income students improved at a faster rate in both ELA and Math than the All Students group, closing inequalities in those areas. English Learners also improved, but did not keep pace with the aforementioned groups. Significant inequalities remain between English Learners and the All Students group.</p> <p>The 2023 SBAC data for Percentage of Students Meeting or Exceeding Standard showed that Low-Income students improved at a faster rate in both ELA and Math than the All Students group. As with the "Distance from Standard", significant inequalities remain between English Learners and the All Students group in both areas. Significant inequalities remain between LUSD Low-Income students and their peers countywide in ELA (County, 36.04%) and Math (30.40%). The percentages of students meeting the "prepared criteria for the College and Career Indicator were much higher than the last</p>	<p>The District will provide a multi-tiered system of supports for students that include:</p> <ul style="list-style-type: none"> <li>• Training programs for educators on MTSS principles and practices.</li> <li>• Implementation of comprehensive universal screening tools.</li> <li>• Regular education Resource Teachers and part-time paraprofessionals so Low-Income students and English Learner students receive additional support in the areas of Math, ELA and Reading.</li> <li>• Qualified instructional aides that will provide smaller group instructional support and more individualized attention to Low-Income students, English Learners, and Foster Youth.</li> <li>• Academic Coaches to provide targeted assistance to classroom teachers in better meeting the instructional needs of Low- Income students, English Learners, and Foster Youth.</li> <li>• Continuing with additional instructional aides in K-2 grade levels to provide classroom and reading support for Low-Income students, English Learners, and Foster Youth.</li> <li>• Continued professional development for instructional aides in strategies to support Low-Income students, English Learners, and Foster Youth, especially in the areas of English Language Arts and Math.</li> </ul>	<ul style="list-style-type: none"> <li>• California School Dashboard: ELA Distance from Standard</li> <li>• California School Dashboard: Math Distance from Standard</li> <li>• SBAC ELA: Percentage of Students Meeting or Exceeding Standard</li> <li>• SBAC Math: Percentage of Students Meeting or Exceeding Standard</li> <li>• California School Dashboard: English Learner Progress <ul style="list-style-type: none"> <li>• California School Dashboard: College and Career Readiness</li> </ul> </li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>reported data (2020), and exceeded our "Desired Outcomes for 2023-24" for All students, and met our goals for Low-Income students. Low-Income students were ranked at the "very high" level, and English Learners at the "high" level.</p> <p>Dashboard data from state assessments show that this action has been successful in improving academic results for Low-Income students and English Learners, which indicates a need to continue the support and intervention initiatives included in this action that was formerly part of the current Goal 2. While there was not a Foster Youth who took the in the assessments, we believe that this action will benefit them as well. CCI readiness data cited above also supports the need to continue this action.</p> <p>Additionally, 2023 SBAC Percentage of Students Meeting or Exceeding Standard data show that Low Income students improved in both ELA ( 4.6% improvement) and math (6.2% improvement), further evidence of the need to continue this action.</p> <p>As the District data show that this action has been successful in meeting the needs of our Low-Income students and English Learners, comparisons to county-wide data show that our students continue to lag behind their peers, and need continued interventions and supports to maintain improvement.</p> <p>Examining the state assessment data for Low-Income students, the area that was most challenging in ELA was "Communicating in</p>	<ul style="list-style-type: none"> <li>• Universal Design for Learning that will identify the needs of struggling Low-Income students, English Learners, and Foster Youth, identify interventions and supports, and monitor the effects on those students.</li> <li>• A calendar of monthly meetings between District and site personnel to review student data.</li> <li>• A calendar of site team planning meetings to review, plan, and create site assessments, curriculum, and pacing.</li> </ul> <p>We expect this action to be effective in meeting the needs of Low-Income students, English Learners and Foster Youth, as each element is designed to assist students. The universal screening tools will be periodic assessments given to all students in the classroom. The purpose of these assessments will be to determine which students may be struggling with reading, writing, or math skills, allowing the instructional staff to identify their individual learning needs and respond to those in a deliberate, targeted fashion. The professional learning activities support staff in accomplishing the action through diagnosis, support, and evaluation and planning through levels of identified needs. Monthly meetings using an improvement cycle process will ensure that staff are aware of how students are progressing and what responses are needed to support improvement. Assessing students' progress and providing the interventions students need to overcome challenges to learning will lay a foundation for meeting the criteria for college and</p>

	<p>Writing", where 57.4% were below standard, and only 5.9% above. The second most difficult skill for Low-Income students was in "Understanding the stories and information they read", with 45.6% below standard. Looking at Math results, Low-Income students struggled most in the areas of "Using mathematical rules and ideas", with 64.9% scoring at Below Standard, and in "Showing and applying their problem-solving skills" with 54.4% below standard.</p> <p>Reviewing the state assessment data for English Learners, 79% were below grade level in "Communicating in Writing". As with the Low-Income students, English Learners also struggled with "Understanding the stories and information they read", with 69.2% below standard. Also as with Low-Income students in math, English Learners struggled most in the areas of "Using mathematical rules and ideas", with 76% scoring at Below Standard. These results confirm the need to provide a multi-tiered system of supports for reading and math that provides diagnoses and recommendations for reteaching and support. Family feedback from input meetings suggested "interventions [and] tutoring support" as areas for improvement.</p> <p><b>Scope:</b> LEA-wide</p>	<p>career readiness. The District will continue to improve in implementation, and intends to take steps to retain a stable, high-quality, and well-trained instructional staff to collaborate and to be as successful as possible in addressing students' needs.</p> <p>To maximize the impact its impact on our students, this action will be implemented Districtwide.</p>	
2.2	<p><b>Action:</b> Dual Immersion Language Program</p>	<p>The District will provide a District-wide Two-Way Dual Immersion Program in Spanish and English. The purpose of the program will be to meet the</p>	<ul style="list-style-type: none"> <li>California School Dashboard:</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p><b>Need:</b>  The Overall performance level, as well as those for Low-Income students, English Learners, and all student groups, showed improvement in both ELA and math. English Learners also improved in Math, but did not keep pace with the aforementioned groups. Significant inequalities remain between English Learners and the All Students group. The 2023 SBAC data for Percentage of Students Meeting or Exceeding Standard showed that Low-Income students improved at a faster rate in both ELA and Math than the All Students group. As with the "Distance from Standard", significant inequalities remain between English Learners and the All Students group in both areas. Significant inequalities remain between LUSD Low-Income students and their peers countywide in ELA (County, 36.04%) and Math (30.40%). Examining the state assessment data for Low-Income students, the area that was most challenging in ELA was "Communicating in Writing", where 57.4% were below standard, and only 5.9% above. The second most difficult skill for Low-Income students was in "Understanding the stories and information they read", with 45.6% below standard. Looking at Math results, Low-Income students struggled most in the areas of "Using mathematical rules and ideas", with 64.9% scoring at Below Standard, and in "Showing and applying their problem-solving skills" with 54.4% below standard.</p>	<p>following unique needs of our English Learners and Low-Income students.  Teachers will be provided training, time, and resources to support implementation of the program with integrity, including monitoring implementation with regard to students' progress and the four success factors listed above. The program will include culturally enriching experiences, including educational field trips that build knowledge and experiences to support learning and language acquisition. The Dual Immersion Master Plan will be revised and updated, and will be implemented to reflect the above principles and practices.</p> <p>We expect this action to improve academic outcomes for our English Learner and Low-Income students. Our experience tells us that our most academically successful students are those who are truly bi-lingual. This action supports their ability to think in two languages, contributing to a more flexible growth mindset that is better able to deal with academic and social challenges. Data supports this, as our "recently reclassified" students scored 50 points better than the overall population on the 2023 ELA Distance from Standard, and 23 points better in math. Distance from Standard ELA and Math data show positive outcomes for Low-Income students and English Learners from this action during the past two years of implementation. Recent research (Barac, Moreno, Bialystok, 2016) (Adesope, Lavin, Thompason, 2010) (Grundy and Timmer, 2016) has shown that dual immersion programs can sharpen student focus, boost working memory,</p>	<p>ELA Distance from Standard</p> <ul style="list-style-type: none"> <li>• California School Dashboard:</li> </ul> <p>Math Distance from Standard</p> <ul style="list-style-type: none"> <li>• SBAC ELA: Percentage of Students Meeting or Exceeding Standard</li> <li>• SBAC Math: Percentage of Students Meeting or Exceeding Standard</li> <li>• California School Dashboard: English Learner Progress</li> <li>• Reclassification Rate</li> <li>• Educational Partner Feedback</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Reviewing the state assessment data for English Learners, 79% were below grade level in "Communicating in Writing". As with the Low-Income students, English Learners also struggled with "Understanding the stories and information they read", with 69.2% below standard. Also as with Low-Income students in math, English Learners struggled most in the areas of "Using mathematical rules and ideas", with 76% scoring at Below Standard. Our experience has been that the results in ELA and math are so similar for Low-Income students and English Learners because both groups have very limited word banks and academic vocabulary on which to draw when attempting to decode and understand reading selections and math word problems. There is a powerful need to build vocabulary and increase reading comprehension for those student groups.</p> <p>The rate of English Learner students who made one or more years of growth in acquiring English, as measured by the state's ELPAC, declined to 28.7%, resulting in a performance level of "Very Low." The percentage of students reclassified as Fluent English Proficient (RFEP) remained in double digits at 11.8%, a 1.2% decline from 2022. These data support the need to build vocabulary and comprehension that are part of successful English language development.</p> <p>Dashboard data from state assessments show that this action has been successful in improving academic results for Low-Income students and English Learners, which</p>	<p>and increase reading comprehension for all students, a definite boon to our Low-Income students, who have made progress in closing inequalities. The District is taking steps to address the issue of staff turnover and its impact on student learning by providing training in best practices for dual-immersion learning, providing the time and coaching to feel supported, and the resources to respond to their students' needs.</p> <p>In order to maximize its impact in increasing academic outcomes for all students, this action is being provided schoolwide at Laton Elementary and Laton Middle.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>indicates a need to continue the support and intervention initiatives included in this action that was formerly part of the current Goal 2. While there was not a Foster Youth who took the in the assessments, we believe that this action will benefit them as well.</p> <p>Additionally, 2023 SBAC Percentage of Students Meeting or Exceeding Standard data show that Low Income students improved in both ELA ( 4.6% improvement) and math (6.2% improvement), further evidence of the need to continue this action.</p> <p>As noted above, Low-Income students and English Learners showed improvement in both ELA and math In recent years, and we believe that the Dual-Immersion program has contributed to those improvements and has demonstrated a need to continue the program. The program has faced some challenges in maintaining fidelity of implementation due to staff turnover that resulted in some students having teachers new to the profession each year; an assessment of local conditions identified a need to provide teachers with the training, time, and resources to feel successful in affecting students' learning.</p> <p>Parent Educational Partners lauded the Dual-Immersion program and suggested that it needs to be continued and expanded.</p> <p><b>Scope:</b> Schoolwide</p>		

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
<p><b>2.3</b></p>	<p><b>Action:</b> Teacher Collaboration for Improving Instruction</p> <p><b>Need:</b> The Overall performance level, as well as those for Low-Income students, English Learners, and all student groups, showed improvement in both ELA and math. The Low-Income students improved at a faster rate in both ELA and Math than the All Students group, closing inequalities in those areas. English Learners also improved, but did not keep pace with the aforementioned groups. Significant inequalities remain between English Learners and the All Students group. The 2023 SBAC data for Percentage of Students Meeting or Exceeding Standard showed that Low-Income students improved at a faster rate in both ELA and Math than the All Students group. As with the "Distance from Standard", significant inequalities remain between English Learners and the All Students group in both areas. Significant inequalities remain between LUSD Low-Income students and their peers countywide in ELA (County, 36.04%) and Math (30.40%). The second most difficult skill for Low-Income students was in "Understanding the stories and information they read", with 45.6% below standard.</p>	<p>The District will provide professional learning and collaboration opportunities for teachers to enhance their understanding of common core standards and assessments. Site Leadership Teams review data and provide feedback to the site and District on initiatives being considered for implementation and present concerns related to addressing the needs of Low-Income students, English Learners, and Foster Youth. Additionally, to ensure effective collaboration:</p> <ul style="list-style-type: none"> <li>• Support teachers in refining their abilities to use data</li> <li>• Continue development and improvement of Grade-level Rubrics to ensure that students are evaluated by the same grade level criteria</li> <li>• Maintain full-time physical education teachers for K-8 students in order to provide teachers at those levels time to collaborate on data review and planning</li> <li>• Use benchmark assessments in all core content areas to identify the progress of Low-Income students, Foster Youth, and English Learners</li> <li>• Use standards-based report cards that report the progress identified above</li> </ul> <p>Instructional staff will engage in regular, on-site collaboration in a Professional Learning Community (PLC). With the support of coaches, site administrators, and District staff, they will also engage in a continuous improvement process (plan, do, study, act) of observations, coaching, and reflection on instructional improvement.</p> <p>We expect this action to improve academic</p>	<ul style="list-style-type: none"> <li>• California School Dashboard: ELA Distance from Standard</li> <li>• California School Dashboard: Math Distance from Standard</li> <li>• SBAC ELA: Percentage of Students Meeting or Exceeding Standard</li> <li>• SBAC Math: Percentage of Students Meeting or Exceeding Standard</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Looking at Math results, Low-Income students struggled most in the areas of “Using mathematical rules and ideas”, with 64.9% scoring at Below Standard, and in “Showing and applying their problem-solving skills” with 54.4% below standard.</p> <p>Reviewing the state assessment data for English Learners, 79% were below grade level in "Communicating in Writing". As with the Low-Income students, English Learners also struggled with “Understanding the stories and information they read”, with 69.2% below standard. Also as with Low-Income students in math, English Learners struggled most in the areas of “Using mathematical rules and ideas”, with 76% scoring at Below Standard. Our experience has been that the results in ELA and math are so similar for Low-Income students and English Learners because both groups have very limited word banks and academic vocabulary on which to draw when attempting to decode and understand reading selections and math word problems. There is a powerful need to build vocabulary and increase reading comprehension for those student groups.</p> <p><b>Scope:</b> LEA-wide</p>	<p>outcomes for our English Learner and Low-Income students because it will provide teachers with the time and resources to collaborate on identifying the individual and group needs of their students, and to draw on their experiences and skills to identify best practices to address those needs as part of an on-going improvement cycle. Distance from Standard ELA and Math data show positive outcomes for Low-Income students and English Learners from this action during the past two years of implementation.</p> <p>One focus of teachers' collaboration districtwide will be in professional learning about questioning strategies. These questioning techniques will teach students how to predict, clarify, question, and summarize, all skills to build comprehension. Students may use graphic representations as part of multi-media responses to questions, a means to also build vocabulary. The use of rich academic language in discussions surrounding text and concepts improves children’s vocabulary and comprehension. These techniques will be modified for use with older students or English Learners. Older students will be able to provide elaborate written responses rather than just drawings and can be exposed to multiple meanings and tenses of vocabulary words; for English Learner students, the use of gestures, real photos, objects, or drawings may help with understanding of vocabulary words. In addition, teachers can incorporate the vocabulary word in their native language to parallel the word in English.</p> <p>The "continuous improvement process (plan, do,</p>

	<p>students reclassified as Fluent English Proficient (RFEP) remained in double digits at 11.8%, a 1.2% decline from 2022.</p> <p>The 2023 Overall A-G Completion Rates declined by 13.4% from the prior year to 30.4%. Low-Income students' results declined by 25.7% from 2022. English Learners meeting U.C. or C.S.U. admission requirements in 2023 were 13.7% points behind the graduation cohort at large.</p> <p>The percentages of students meeting the "prepared criteria for the College and Career Indicator were much higher than the last reported data (2020), and exceeded our "Desired Outcomes for 2023-24" for All students, and met our goals for Low-Income students.</p> <p>District Benchmark Assessment data suggest that the percentages of students meeting or exceeding standard has increased in the 2023-24 school year, which we expect to be reflected in 2024 state assessment results. Data from state assessments also suggests that this action has been moderately successful in improving academic results for Low-Income students and English Learners. While there was not a Foster Youth who took the in the assessments, we believe that this action will benefit them as well.</p> <p>Family feedback from input meetings suggested "interventions, tutoring support, communication, and parent involvement" as areas for improvement. To address this concern, "Teaching Fellows will serve as tutors</p>	<p>enormous impact and post-graduation success. Since participation in the after school program is voluntary, students who participate are more highly motivated to get the tutoring or extra homework help that the program provides; or to participate in other activities that increase background and experiential knowledge.</p> <p>Distance from Standard ELA and Math data show positive outcomes for Low-Income students and English Learners from this action during the past two years of implementation. As modifications, Saturday Academy and Teaching Fellows have been added to this action. Saturday Academy will also support improved academic outcomes through opportunities for credit recovery, high-stakes test preparation (e.g., AP) that can contribute to classification as "ready" in the College and Career Indicator, and other academic support services. Teaching Fellows will serve as tutors and additional instructional support. As an additional modification, the ELPI metric will be added to this action as an additional measure of its impact on English Learners.</p> <p>In order to maximize its impact in increasing academic outcomes for all students, this action is being provided on a Districtwide basis.</p>	<p>College and Career Indicator</p> <ul style="list-style-type: none"> <li>Educational Partner Feedback</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>and additional instructional support" has been added to this action.</p> <p>Student and Parent Educational Partners have indicated that, for Low-Income students, transportation to and from after school activities is often not possible from family members. The opportunities for these students to participate is impacted by the lack of available, reliable transportation.</p> <p>These data revealed a need to provide English Learners, Foster Youth, and Low-Income students with a place to go after school that will have adult supervision in an enriched atmosphere that promotes completion of homework, and participation in schoolwork and athletics. The contributing funds will be used to open additional spaces for Low-Income, English Learner, and Foster Youth students, to whom we are not able to otherwise provide access.</p> <p><b>Scope:</b> LEA-wide</p>		
2.7	<p><b>Action:</b> Supplemental/Intervention Support and Materials</p> <p><b>Need:</b> The Overall performance level, as well as those for Low-Income students, English Learners, and all student groups, showed improvement in both ELA and math. The Low-Income students improved at a faster rate in both ELA and Math than the All Students</p>	<p>The District will purchase supplemental and intervention materials, including technology-based instructional programs and related costs, principally to provide interventions and additional supports for English Learners and Low-Income students who have demonstrated significant inequalities in outcomes between their performance levels and those of students at local and state levels. These materials include Renaissance Learning and Learning A-Z. Technology that enhances Low-Income students,</p>	<ul style="list-style-type: none"> <li>• California School Dashboard: ELA Distance from Standard</li> <li>• California School Dashboard: Math Distance from Standard</li> <li>• SBAC ELA: Percentage of</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>group, closing inequalities in those areas. English Learners also improved, but did not keep pace with the aforementioned groups. Significant inequalities remain between English Learners and the All Students group. The 2023 SBAC data for Percentage of Students Meeting or Exceeding Standard showed that Low-Income students improved at a faster rate in both ELA and Math than the All Students group. As with the "Distance from Standard", significant inequalities remain between English Learners and the All Students group in both areas. Significant inequalities remain between LUSD Low-Income students and their peers countywide in ELA (District 19.4%; County, 36.04%) and Math (District, 11.2%; County, 30.40%). District Benchmark Assessment data suggest that the percentages of students meeting or exceeding standard has increased in the 2023-24 school year, which we expect to be reflected in 2024 state assessment results. Data from state assessments also suggests that this action has been moderately successful in improving academic results for Low-Income students and English Learners. While there was not a Foster Youth who took the in the assessments, we believe that this action will benefit them as well. The data show that, for our Low-Income students and English Learners, this action has been effective in improving academic outcomes. Comparisons with their peers countywide show that our Low-Income students still lag behind, and need the</p>	<p>Foster Youth, and English Learners' access to a broad variety of online and in-person enrichment experiences will be provided to create an expanded base of experiences that support language acquisition, improved academic outcomes, and access to a broad course of study through technology-based materials and programs. The District will continue to work on an evaluation timeline and process to determine if supplemental /intervention materials are having a positive impact on student outcomes.</p> <p>This action is expected to increase academic outcomes for Low-Income students, English Learners, and Foster Youth, because supplemental materials and the technology to use them provide instructors a means to identify holes in the adopted instructional materials and offer additional approaches to motivate students and address learning needs. Complementary supplemental learning materials can also aid instructors in meeting the diverse needs of different learners. Administrators and support teachers will assist teachers in determining, by examining research and results, which materials have the greatest potential for positive impacts and how they might be best implemented. Distance from Standard ELA and Math data show positive outcomes for Low-Income students and English Learners from this action during the past two years of implementation. As a modification, the ELPI metric will be added to this action as a measure of its impact on English Learners.</p>	<p>Students Meeting or Exceeding Standard</p> <ul style="list-style-type: none"> <li>• SBAC Math: Percentage of Students Meeting or Exceeding Standard</li> <li>• California School Dashboard: English Learner Progress Indicator</li> <li>• Access to a Broad Course of Study</li> </ul>

	<p>supports that this action has effectively provided. The District should continue to provide supplemental materials and the technology that will enable instructors to identify gaps in the adopted instructional materials and offer additional approaches to motivate students and address learning needs.</p> <p><b>Scope:</b> LEA-wide</p>	<p>In order to maximize its impact in increasing academic outcomes for all students, this action is being provided on a Districtwide basis.</p>	
<p><b>2.11</b></p>	<p><b>Action:</b> Create a Culture of Post-Secondary Success</p> <p><b>Need:</b> The percentage of students scoring "Ready" on the ELA EAP declined for Low-Income students at a lower rate than the overall decline. The percentage of 11th-grade students scoring "ready" in the Math EAP increased, with significant gains for Low-Income students. Significant inequalities remain between LUSD Low-Income students and their peers countywide in ELA (County, 25.42%). The 2023 Overall A-G Completion Rates declined by 13.4% from the prior year to 30.4%. Low-Income students' results declined by 25.7% from 2022. English Learners meeting U.C. or C.S.U. admission requirements in 2023 were 13.7% points behind the graduation cohort at large. The 2023 CTE cohort completion rate increased by 23.3% points to 76.1%. The</p>	<p>The District will:</p> <ul style="list-style-type: none"> <li>• Ensure Low Income students, Foster Youth, and English Learners in grades 6-12 will make at least one college visit where they can see what a college campus looks like, and talk to college educators and students from similar circumstances who will encourage them to attend.</li> <li>• Ensure Low-Income students, Foster Youth, and English Learners in grades 11-12 will visit at least one C.T.E. program at a community college so they can learn about a greater variety of post-secondary career paths than it is possible to provide at a small high school like Laton High.</li> <li>• Use the greenhouse as the driver for creating a student-run farmer's market and entrepreneurial program that will provide Low-Income students, Foster Youth, and English Learners with opportunities to experience business planning and management. They will</li> </ul>	<ul style="list-style-type: none"> <li>• Early Assessment Program Readiness: Percentage of 11th grade students scoring "ready" in ELA and Math</li> <li>• A-G Completion Rate</li> <li>• CTE Completion Rate</li> <li>• Combined CTE and A-G Completion Rates</li> <li>• California School Dashboard: College and Career Indicator</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>combined CTE/A-G completion rate also increased from 22.2% to 26.1%</p> <p>The percentages of students meeting the “prepared criteria for the College and Career Indicator were much higher than the last reported data (2020), and exceeded our "Desired Outcomes for 2023-24" for All students, and met our goals for Low-Income students, and Hispanic students.</p> <p>The data indicate a need to increase the number of Low-Income students, Foster Youth, and English Learners completing requirements for admission to U.C. and/or C.S.U. those taking and passing A.P. classes, and/or those completing a C.T.E. pathway.</p> <p><b>Scope:</b> Schoolwide</p>	<p>learn about the associated C.T.E. or college pathways associated with running an ag business.</p> <ul style="list-style-type: none"> <li>• Increase participation and interest in AVID and college campus exposure by promoting Low-Income students, Foster Youth, and English Learners' participation in AVID student recognition events as part of a college campus visit. The use of AVID strategies that support the success of Low-Income students, Foster Youth, and English Learners will be expanded throughout the District.</li> </ul> <p>This action is expected to increase the number of Low-Income students, Foster Youth, and English Learners completing requirements for admission to U.C. and/or C.S.U. those taking and passing A.P. classes, and/or those completing a C.T.E. pathway because it will cultivate an interest in post-secondary education, in an academic or career path. AVID strategies are also effective in engaging students in supporting Low-Income students, Foster Youth, and English Learners in finding and pursuing their interests. The results for CTE completion, and College and Career readiness cited in the "Need" column indicate that this action has been moderately effective in achieving its desired outcomes of increases in the percentages of students scoring "ready" on the E.A.P., and higher A-G and CTE completion rates. As a modification, the College and Career Readiness Indicator will be added as a metric to this action.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>In order to maximize its impact in increasing academic outcomes for all students, this action is being provided on a Districtwide basis.</p>	
<p><b>2.12</b></p>	<p><b>Action:</b> Early Childhood Education</p> <p><b>Need:</b> Many of our Low-Income and English Learner families have voiced concerns and expressed reluctance to send their children to preschool. Whether this hesitance is based on economic factors, cultural factors, or concerns that interactions with the District might lead to interactions with enforcement agencies, it is our best estimate that almost half of the preschool age children in our attendance area do not attend preschool, and come to T-K or Kindergarten lacking experiences and skills that place them behind many of their peers as soon as they start school. While we do not currently have Foster Youth enrolled, we recognize our commitment to them if and when they attend our schools.</p> <p>Instructional Educational Partners suggested Renaissance Learning and Great Minds as effective and engaging supplementary learning programs for students participating in the LaunchPad program, so those have been added.</p> <p><b>Scope:</b> Schoolwide</p>	<p>The District offers a preschool program that promotes early literacy and a smooth transition to elementary school. We will increase our outreach to the community to educate parents of preschool-age English Learners, Foster Youth, and Low-Income children on the importance of early education and literacy, including the offering of a three-week "Launchpad" program to prepare students who have not attended preschool to be ready for Kindergarten. Great Minds and Renaissance Learning will be used as supplemental Materials to support the "Launchpad" program.</p> <p>We expect this head start in preparing for school to result in improved academic outcomes in Kindergarten District benchmarks and onward, as reflected in state and local assessments. The Kindergarten District benchmark results will be reported as part of the LCAP Annual Evaluation. As modifications, "The District will undertake efforts to identify and provide information to families of eligible children who have concerns about participating in the LaunchPad program" and "Great Minds and Renaissance Learning will be used as supplemental Materials to support the Launchpad program" will be added to this action.</p> <p>In order to maximize its impact in increasing academic outcomes for all students, this action is being provided on a schoolwide basis at LES.</p>	<ul style="list-style-type: none"> <li>• Educational Partner Feedback</li> <li>• Percentage of Low-Income, English Learner, and Foster Youth students attending preschool. (Will be reported in the Annual Update for this action.)</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
2.14	<p><b>Action:</b> Smaller Class Sizes</p> <p><b>Need:</b> The Overall performance level, as well as those for Low-Income students, English Learners, and all student groups, showed improvement in both ELA and math. The Low-Income students improved at a faster rate in both ELA and Math than the All Students group, closing inequalities in those areas. English Learners also improved, but did not keep pace with the aforementioned groups. Significant inequalities remain between English Learners and the All Students group. The 2023 SBAC data for Percentage of Students Meeting or Exceeding Standard showed that Low-Income students improved at a faster rate in both ELA and Math than the All Students group. As with the "Distance from Standard", significant inequalities remain between English Learners and the All Students group in both areas. Significant inequalities remain between LUSD Low-Income students and their peers countywide in ELA (County, 36.04%) and Math (30.40%). The percentage of students scoring "Ready" on the ELA EAP declined for Low-Income students at a lower rate than the overall decline. The percentage of 11th-grade students scoring "ready" in the Math EAP increased, with significant gains for Low-Income students. Significant inequalities remain between LUSD Low-Income students</p>	<p>The District will provide appropriate staffing to maintain smaller class sizes in 4th through 12th grades.</p> <p>By providing smaller class sizes in grades 4-12, we expect that our English Learners, Foster Youth, Low-Income students will show increased achievement in ELA and math. Glass and Smith concluded in their 1979 study of the impact of class size on student achievement that "A clear and strong relationship between class size and achievement has emerged...There is little doubt, that other things being equal, more is learned in smaller classes." Based on research and feedback from our educational partners, having smaller class sizes, the extra support in ELA and Math can be better tailored to individual learner's needs, or designed for a small group. Acceleration from targeted interventions is expected to increase learning outcomes for English learners, Foster Youth, and Low-Income students who are struggling. Feedback and acceleration in a small group setting is expected to have an effect size on improvement for those students of almost twice (.76) the threshold for gains.</p> <p>In order to maximize its impact in increasing academic outcomes for all students, this action is being provided on a Districtwide basis.</p>	<ul style="list-style-type: none"> <li>• California School Dashboard: ELA Distance from Standard</li> <li>• California School Dashboard: Math Distance from Standard</li> <li>• SBAC ELA: Percentage of Students Meeting or Exceeding Standard</li> <li>• SBAC Math: Percentage of Students Meeting or Exceeding Standard</li> <li>• Early Assessment Program Readiness: Percentage of 11th grade students scoring "ready" in ELA and Math</li> <li>• California School Dashboard: English Learner Progress Indicator</li> <li>• Reclassification Rate</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>and their peers countywide in ELA (County, 25.42%).</p> <p>The rate of English Learner students who made one or more years of growth in acquiring English, as measured by the state's ELPAC, declined to 28.7%, resulting in a performance level of "Very Low." The percentage of students reclassified as Fluent English Proficient (RFEP) remained in double digits at 11.8%, a 1.2% decline from 2022.</p> <p>English Learners meeting U.C. or C.S.U. admission requirements in 2023 were 13.7% points behind the graduation cohort at large.</p> <p>The 2023 Overall A-G Completion Rates declined by 13.4% from the prior year to 30.4%. Low-Income students' results declined by 25.7% from 2022.</p> <p>The percentages of students meeting the "prepared criteria for the College and Career Indicator were much higher than the last reported data (2020), and exceeded our "Desired Outcomes for 2023-24" for All students, and met our goals for Low-Income students.</p> <p>These data also demonstrated a need to provide English Learners, Foster Youth, and Low-Income students with more individual attention to identify and target their specific learning needs in ELA, Math, and, for English Learners, English language acquisition. The greater individual attention will be provided by smaller class sizes that result in a lower student/instructional staff ratio.</p>		<ul style="list-style-type: none"> <li>• A-G Completion Rate</li> <li>• California School Dashboard: College and Career Indicator</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p><b>Scope:</b> LEA-wide</p>		
<p><b>2.15</b></p>	<p><b>Action:</b> Provide Improved Excellent Instruction</p> <p><b>Need:</b> "Distance from Standard (DFS)" results show that the Overall performance level, as well as those for Low-Income students and English Learners showed improvement in both ELA and math. Inequalities persist in the achievement of Low-Income students and English Learners when compared to the achievement of their peers countywide.</p> <p>The percentages of students "Meeting or Exceeding Standard" in ELA and math echoed the DFS results, with Low-Income students closing inequalities by making greater gains than those Overall.</p> <p>The rate of English Learner students who made one or more years of growth in acquiring English, as measured by the state's ELPAC, declined to 28.7%, resulting in a performance level of "Very Low."</p> <p>A survey of local conditions in collaboration with Educational Partners has shown an increasing trend for teachers to leave for nearby districts after a few years in LUSD, or for prospective teachers to refuse job offers to sign with neighboring districts. Generally cited as a primary reason for these actions is the</p>	<p>In order to hire and retain high-quality, and well-trained instructional staff, the District will offer competitive salaries.</p> <p>The District needs to be able to have a high-quality, stable instructional staff that learn and build on prior learning, become increasingly self-efficacious, and that can implement initiatives with integrity over time because they remain employed by the District. It is through the hiring and retention of high quality staff that the District is able to improve the quality of instruction for our Low-Income students, English Learners, and Foster Youth. These teachers will provide excellent instruction for our Low-Income students, English Learners, and Foster Youth, and will stay to use the District-provided professional development to improve their practice and better meet their students' needs.</p> <p>This action is expected to significantly increase academic outcomes for Low-Income students, English Learners, and Foster Youth, since it is designed to address their identified needs in math and ELA. The "Teacher Retention Data: Average Yearly Turnover" will be annually reported in the Annual Update to this action. The 2024 base line was a prior three-year average of 3.4 teachers leaving each year to take other teaching jobs.</p>	<p>California School Dashboard: ELA Distance from Standard</p> <p>California School Dashboard: Math Distance from Standard</p> <p>California School Dashboard: Rate of English Learner Students Making Progress toward English Proficiency</p> <p>Teacher Retention Rate: Average Yearly Turnover</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>opportunity to make a significantly higher salary and still stay in the area. In order to understand this trend, the District conducted a study of salaries in 16 Fresno County LEAs, including LUSD. Based on daily rates, we found that, in 2023-24, there were substantial differences in the salaries paid in the larger nearby districts than those paid in Laton Unified. Educational Partners have suggested that, while the culture and climate of the District are aspects they enjoy, the District needs to offer competitive salaries in order to hire and retain outstanding teachers.</p> <p>Data gathered for the prior three years shows an average rate of 3.4 teachers leaving each year to take other teaching jobs. Over the cycle of the LCAP, this means that 10 teachers will have to be hired, trained, and establish their roles in the LUSD community. In a District our size, this has a tremendous, deleterious impact on our ability to implement LCAP actions as planned. This creates instability and negatively impacts instructional continuity. Successful implementation of the LCAP actions is very difficult with that rate of turnover during the life of the plan.</p> <p>The District believes that it is crucial to the success of our Low-Income students, English Learners, and Foster Youth that they have a stable, high-quality, and well-trained instructional staff to be as successful as possible. Evidence from state assessments and our local experience shows that</p>	<p>In order to maximize their impact in increasing academic outcomes for all students, this action is being provided on an LEA-wide basis.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>experienced teachers with access to professional development get positive results. When our excellent, trained teachers or support staff leave for higher salaries elsewhere, or superior candidates turn down job offers for greater compensation in a neighboring district, it is students who feel the brunt, especially our Low-Income students, English Learners, and Foster Youth. It is by retaining staff that we can continue to improve the quality of instruction for our unduplicated pupils.</p> <p><b>Scope:</b> LEA-wide</p>		
3.4	<p><b>Action:</b> Social/Emotional Learning and Supports</p> <p><b>Need:</b> Suspension rates from the 2023 Dashboard increased overall, and for all student groups, from 2022, including Low-Income students and English Learners. Both Family and Instructional Educational Partners have expressed concerns about effective and appropriate interventions for students' behaviors at all levels. In looking at suspension data, we found that at each school, the percentages of students suspended for incidences not related to drugs/vaping were 100% Low-Income at LES, 95% Low-Income at LMS, and 100% Low-Income at LHS. We also found that suspensions for defiance increased at each</p>	<p>The District will offer social/emotional programs for English Learners, Foster Youth, and Low-Income students. The District will track students' participation in order to evaluate the impact of the programs.</p> <ul style="list-style-type: none"> <li>Continuing with Counselors and Counseling Interns for K–12th grade English Learners, Foster Youth, and Low-Income students' support and a full-time school psychologist to address social/emotional issues; focused on support geared toward English Learners, Foster Youth, and Low-Income students who need support "in addition to" or "beyond" what is required by law to access systems that impact their success.</li> </ul>	<ul style="list-style-type: none"> <li>California School Dashboard: Suspension Rate</li> <li>California School Dashboard: Chronic Absenteeism Rate</li> <li>California School Dashboard: Graduation Rate</li> <li>District Survey Results: Percentage of Students Who Feel Safe and Connected to School</li> </ul>

	<p>site from 2022 to 2023. These data showed the need to deal with defiant behaviors in ways in lieu of suspension. The data also showed that, while declining, suspensions for violent behaviors contributed significantly to suspension rates at each school, and that the percentages of Low-Income students suspended was consistent with those for defiance. We determined the need to support those students with social-emotional supports to try and mitigate conflict before it erupted into violence.</p> <p>2023 California School Dashboard, Chronic Absenteeism results shown in the "Reflections" section demonstrate that our efforts to identify and intervene with students at risk of chronic absenteeism, along with celebrating excellent attendance, have generally been very effective in lowering chronic absenteeism rates.</p> <p>The 2023 California School Dashboard showed that graduation rates increased for the second year in a row, by 6.8% points overall, to 95.7%, and a performance level of "Very High". Results for Low-Income students also increased to 95.%, again in the "Very High" performance level. Both these results met the "Desired Outcomes" the District had set for this metric to reach in 2023-24. Though the groups were too small to be assigned a performance level, the rate for Hispanic students reached 95.0%, and that for English Learners climbed to 91.7%.</p> <p>We were pleased to see the continued high percentages of students who responded in the</p>	<ul style="list-style-type: none"> <li>• Implementing Character Counts at each site, K- 12.</li> <li>• LHS/LMS Mentorship</li> <li>• Increase English Learners, Foster Youth, and Low-Income students' social-emotional development through teaching, modeling, and practicing social-emotional skills that support a safe and positive climate for learning.</li> <li>• Continue contracting/employing a part-time behavior health clinician to support low-income students who don't qualify for All4Youth services due to insurance benefits.</li> <li>• Targeted PD and training for staff and consultants on writing effective Behavior Intervention Systems.</li> <li>• Hire a Culture and Climate Specialist to support District initiatives.</li> </ul> <p>Research shows that Social Emotional Learning activities increase prosocial behaviors (such as kindness, sharing, and empathy), improve student attitudes toward school, and reduce depression and stress among students (Durlak et al., 2011). Providing students with the social-emotional programs and activities will reduce the stress that often manifests as suspendible behavior, and build the prosocial skills that replace antisocial behaviors such as defiance or violent acts.</p> <p>Additional counseling service providers allow for more individualized intervention and support for students who are experiencing social-emotional difficulties, or in intervening before those become drastic.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>2024 survey that they feel safe at, and connected to, school. The percentage who feel safe increased by 5% points to 80%, and those feeling connected maintained at 76%. Since our ultimate goal is for every student to feel safe and belonging at school, we will continue our culture and climate actions described in Goal 2.</p> <p>Regarding culture/climate and engagement, "bullying, solution finding/problem solving, and racism" were cited as areas to be addressed. Educational Partners have also expressed concerns about effective and appropriate interventions for students' behaviors at all levels. In order to address that need, and to create school climates and cultures that focus on positive interactions and deflecting conflict, the District has added a Culture and Climate Specialist.</p> <p><b>Scope:</b> LEA-wide</p>	<p>Further implementation of the "Leader in Me" program will continue to build self-confidence, resilience, and leadership skills. High School students who complete the program may serve as mentors for younger English Learners, Foster Youth, and Low-Income students and provide models for self-control.</p> <p>Character Counts is a research-based program that stresses positivity and recognizing compassionate, kind behaviors. A program of positivity that presents options to cruel or mean behaviors gives students the tools to be positive. The addition of a Culture and Climate Specialist will support implementation of the District's social-emotional supports through their expertise in the area, sharing best practices, modeling lessons, and coaching on classroom management strategies that redirect behaviors before they become referrals.</p> <p>The availability of the Behavior Health Clinician for student who don't qualify for All4Youth services due to insurance benefits will support better mental health for students who might otherwise "slip through the cracks".</p> <p>The Culture and Climate Specialist will have the responsibility to ensure that the initiatives in this action reach the Low-Income students, English Learners, and Foster Youth for whom they are intended with alacrity and consistently. Rather than having multiple people responsible, and chancing breakdowns in communication, the Specialist will be the identified person to over see implementation for the benefit of unduplicated student groups.</p> <p>Graduation rate data and data from Chronic</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>Absenteeism rates show positive outcomes for Low-Income students and English Learners from this action during the past two years of implementation. We expect continued implementation to show continued increases. Additionally, we expect it to increase the percentage of Low-Income students, English Learners, and Foster Youth who feel connected to school, decrease Chronic Absenteeism among those groups, and decrease inequalities in suspension rates.</p> <p>To maximize the impact its impact on our students, this action will be implemented Districtwide.</p>	
3.6	<p><b>Action:</b> Improve Attendance</p> <p><b>Need:</b> Educational Partners have shared that many of our families, particularly those Low-Income families and families of Foster Youth, face health challenges and barriers to accessing care that result in their children missing school. Many of those children lack the basic and consistent health screenings and preventive care, which adversely impacts their attendance. The suggested remedy was increasing the contact time with nursing services within our school district to provide personalized health support and advocacy for Low-Income students and Foster Youth. They expressed the belief that increased access to health care at school will result in</p>	<p>The District will contract with FCSS Truancy Intervention Program. This program will not only intervene with truant students but will also be proactive in providing strategies for the prevention of truancy before it happens. Additionally, to support improved attendance, the District will:</p> <ul style="list-style-type: none"> <li>Contract for Fresno County nurses to support the District's LVNs in increasing health services and access in schools that is beyond the required "specialized physical health care services prescribed by a child's licensed physician that require medically related training for the individual who performs the services and which are necessary during the school day to enable the child to attend school." The nurses' roles will include regular health assessments, coordination of care with the District's community liaisons, and health education tailored to the specific</li> </ul>	- California School Dashboard: Chronic Absenteeism Rate

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>better health, increased in attendance rates, and lower chronic absenteeism rates.</p> <p><b>Scope:</b> LEA-wide</p>	<p>needs of Low-Income, English Learner, and Foster Youth student populations.</p> <ul style="list-style-type: none"> <li>• Contract with Prodigy Healthcare, Inc. provides services to youth and their families through evidence-based programming designed to promote pro-social behavior and healthy lifestyles.</li> <li>• Establish a calendar of monthly meetings with District and site administrators to look at absenteeism data and other data pieces to support improved attendance for Low-Income students, English Learners, and Foster Youth.</li> <li>• Provide monthly attendance incentives and recognition for students.</li> <li>• Parents of students who are referred to SARB will be required to attend a District parenting course as a part of the contract for improved attendance.</li> </ul> <p>The addition of the nurse's role will include regular health assessments, coordination of care with the District's community liaisons, and health education tailored to the specific needs of these vulnerable student populations. This action is expected to result in decreases in Chronic absenteeism rates for Low-Income students, English Learners, and Foster Youth. Providing increased access to health services at school sites will respond to our Parent Educational Partners belief that such access will result in better health, increased in attendance rates, and lower chronic absenteeism rates. With school administrators regularly examining absenteeism data, they will be able to have staff to notify parents and provide</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>interventions before absences reach the "chronic" level. For parents who do not use the offered supports, the parenting course will help them to help their children. Coupled with attendance incentives and recognition, attendance should improve and chronic absenteeism rates continue to decline.</p> <p>To maximize the impact its impact on our students, this action will be implemented Districtwide.</p>	
<p><b>3.7</b></p>	<p><b>Action:</b> Expand Access to Athletic Fields and Recreational Areas</p> <p><b>Need:</b> Within the Laton community, the only safe, clean, and wide-open spaces equipped for outdoor physical education, extracurricular, and open play areas are the school fields at our elementary school and high school. Laton lacks recreational areas where Low-Income students can participate in physical or athletic activities. We know from surveys and feedback from Educational Partners that maximizing participation and access to these activities has a direct effect on the connection and satisfaction that Low-Income students feel for their schools. 2023 California School Dashboard, Chronic Absenteeism results shown in the “Reflections” section demonstrate that our efforts to lower chronic absenteeism rates</p>	<p>LUSD is addressing the limited access to outdoor play areas/fields and access to extracurricular activities by expanding playfields and sports fields to increase access. The expansion will also provide Low-Income students with year-round access to those areas. Providing these spaces will increase students' feelings of connectedness and school engagement. Additionally, in order to most effectively use the expanded playfields and sports fields for our Low-Income students, English Learners, and Foster Youth, the District will continue a part-time Guided Playtime Facilitator. This person will develop opportunities for students to engage in structured playtime during recess and lunch.</p> <p>We expect to see declines in suspension and chronic absenteeism rates and increases in school safety and connectedness responses. Expanding access to inviting school playgrounds/fields will provide the needed spaces for students to become engaged and increase the feelings of school connectedness have been</p>	<ul style="list-style-type: none"> <li>• California School Dashboard: Suspension Rate</li> <li>• California School Dashboard: Chronic Absenteeism Rate</li> <li>• District Survey Results: Percentage of Students Who Feel Safe and Connected to School</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>have been successful, in part thanks to this action.</p> <p>Recent research suggests that participation in physical education programs and extracurricular activities may increase students' sense of engagement or attachment to their school, and thereby decrease the likelihood of school failure and dropping out (Lamborn et al, 1992; Finn, 1993). With study after study showing that participation in co-curricular and extracurricular activities can lead to success in school, then the availability of these activities to Low-income students becomes an important equity issue.</p> <p>We were pleased to see the continued high percentages of students who responded in the 2024 survey that they feel safe at, and connected to, school. The percentage who feel safe increased by 5% points to 80%, and those feeling connected maintained at 76%. Suspension rates from the 2023 Dashboard increased overall, and for all student groups, from 2022, including Low-Income students and English Learners. Our experiences with students at all levels has shown that students often need structured, immersive activities as alternatives to unstructured time that is likelier to result in inappropriate behavior.</p> <p><b>Scope:</b> LEA-wide</p>	<p>lacking among our Low-Income students by increasing opportunities to interact with their peers in a fun, positive manner while playing games or friendly competitions, and to experience genuine affirming experiences with adult supervisors outside the classroom. Increasing engagement will allow students to stay connected with the educational setting and increase students' opportunity to receive additional services and supports that are needed, as they increasingly interact with caring adults such as coaches, teachers, aides, and community volunteers. As James Comer stated, "No significant learning occurs without a significant relationship." Expanding access to inviting school playgrounds/fields with guided, structured playtime will also keep students engaged in positive activities as alternatives to inappropriate or confrontational situations such as name-calling, bullying, and fighting.</p> <p>We will be able to identify specific student needs and develop targeted support that will increase opportunity to maximize educational outcomes for this specific group of students. The longer we can keep these students on our campuses, the better we will be able to understand their needs and provide them with the services that have been proven to impact their future.</p> <p>To maximize the impact its impact on our students, this action will be implemented Districtwide.</p>	

## Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
<p><b>2.8</b></p>	<p><b>Action:</b> English Learner Supports</p> <p><b>Need:</b> English Learners showed improvement in both ELA and math "Distance from Standard" results from the California School Dashboard. English Learners also improved in Math, but did not keep pace with the aforementioned groups. Significant inequalities remain between English Learners and the All Students group.</p> <p>The 2023 SBAC "percentage Meeting or Exceeding Standard" data show that significant inequalities remain between English Learners and the All Students group in both areas. Examining the ELA and Math data more closely, we see that English Learners are lagging in academic language necessary to comprehend what they read, to clearly express their ideas in writing, and to understand what is being asked when dealing with math word problems or questions.</p> <p>The rate of English Learner students who made one or more years of growth in acquiring English, as measured by the state's ELPAC, declined to 28.7%, resulting in a performance level of "Very Low." The percentage of students reclassified as Fluent English</p>	<p>The District will provide English Language Development (ELD) supplemental materials (e.g., Rosetta Stone) and additional support to English Learners, including Redesignated English Learner students who experience academic difficulties. These Reading/Literacy/Technology instructional programs are directed toward accelerating language acquisition and access to the core. Teachers and paraprofessionals will use the materials in small group settings to provide additional support. Fresno County Superintendent of Schools' staff will provide targeted professional learning activities to teachers and paraprofessionals to support the best use of these materials and programs and the broadest possible access to the curriculum.</p> <p>The District will revise and implement its English Learner Master Plan aligned with the English Learner Roadmap. Included in that plan are practices that will more closely monitor the progress of EL students and RFEP students, and immediately adjust instruction as warranted by data and students' needs. After-school and Saturday Academy classes targeted for English Learners. Teaching Fellows will serve as tutors to support ELD and additional instructional support.</p> <p>This action is expected to increase academic outcomes for English Learners because research-based support materials will be used to provide</p>	<ul style="list-style-type: none"> <li>• California School Dashboard: ELA Distance from Standard (EL)</li> <li>• California School Dashboard: Math Distance from Standard (EL)</li> <li>• SBAC ELA: Percentage of Students Meeting or Exceeding Standard (EL)</li> <li>• SBAC Math: Percentage of Students Meeting or Exceeding Standard (EL)</li> <li>• California School Dashboard: English Learner Progress Indicator</li> <li>• Reclassification Rate</li> <li>• English Learners A-G Completion Rates</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>Proficient (RFEP) remained in double digits at 11.8%, a 1.25 decline from 2022.</p> <p>English Learners meeting U.C. or C.S.U. admission requirements in 2023 were 13.7% points behind the graduation cohort at-large.</p> <p>While our English Learners are showing growth in many areas, the assessment results show the need for increased acceleration in closing learning gaps. The ELPI results indicate that our English Learners are struggling with making progress in acquiring English. The SBAC results show the need to increase academic language in ELA and Math.</p> <p><b>Scope:</b> Limited to Unduplicated Student Group(s)</p>	<p>instructional responses aimed at specific identified student's needs. Small group and greater individual attention will be employed to target identified needs and front-load vocabulary. After-school and Saturday Academy classes targeted for English Learners will provide opportunities for English language development, credit recovery, support for A-G class success, high-stakes test preparation (e.g., AP) that can contribute to classification as "ready" in the College and Career Indicator, and other academic support services. Increased monitoring of EL progress will be geared to preventing students from "falling through the cracks".</p> <p>In order to maximize its impact in increasing academic outcomes for English Learners, this action is being provided to EL on an LEA-wide basis.</p>	
2.9	<p><b>Action:</b> Addressing the Needs of Long-Term English Learners</p> <p><b>Need:</b> Results for Long-term English Learners (LTEL) were behind those of English Learners as a group, with no LTEL students meeting or exceeding standard in ELA or Math.</p> <p>Looking at the ELPAC data in more detail, 62% OF LTEL are at the "Beginning to Develop" level in the Reading domain, more than twice the percentage at that level in any of the other domains. This demonstrates the</p>	<p>The Laton Unified School District aims to support LTELs' linguistic and academic needs, ensuring their success in school and beyond by the following:</p> <ul style="list-style-type: none"> <li>• Early identification as "at risk"</li> <li>• Targeted instructional support, with emphasis in reading</li> <li>• Professional development for instructional staff</li> <li>• Parent and community engagement</li> <li>• Monitoring progress and intervening immediately</li> <li>• English Learner Master Plan revision with section explicitly addressing LTEL.</li> </ul>	<ul style="list-style-type: none"> <li>• SBAC ELA: Percentage of Students Meeting or Exceeding Standard (LTEL)</li> <li>• SBAC Math: Percentage of Students Meeting or Exceeding Standard (LTEL)</li> <li>• California School Dashboard: English Learner</li> </ul>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>need to provide supports that will accelerate achievement in reading, including decoding, vocabulary development, and comprehension.</p> <p>During the meetings for the development of the LCAP and Community Schools plan, it became evident to District leaders that parents of Long Term English Learners (LTEL) themselves often struggled with expressing themselves and understanding oral communications in their native language. These difficulties were exacerbated by the District's use of different staff for translation services at school events and District meetings, depending on whomever was available. The District identified a need to support those parents by ensuring that communication was consistent and not depending on the subjective interpretations of a variety of interpreters.</p> <p><b>Scope:</b> Limited to Unduplicated Student Group(s)</p>	<ul style="list-style-type: none"> <li>• District Trained permanent Part-Time Translator</li> </ul> <p>This action is expected to increase academic outcomes for Long-Term English Learners because teachers will be aware of not only which students are LTEL, but who are at risk of becoming Long-term without additional support. Professional development activities for instructional staff will give them additional tools to identify the unique needs of their LTEL students, to meet the students at their language level, and strategies to address their needs. Both LTEL and "at risk" will be provided the resources and support to address those. Engaging families to support these efforts will add another layer of support for students who are struggling in acquiring English language skills. To address the need for consistent communication at events to support the understanding of parents of LTEL, the District will hire a permanent, part-time translator for District and school meetings. Specific monitoring of LTEL progress will be geared to intervention before graduation.</p> <p>In order to maximize its impact in increasing academic outcomes for Long-Term English Learners, this action is being provided to them on a schoolwide basis at LMS and LHS.</p>	<p>Progress Indicator</p>

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

N/A

### **Additional Concentration Grant Funding**

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The District will use Concentration Grant add-on funds to maintain the regular education Resource Teachers and part-time paraprofessionals so Low-Income students and English Learner students will receive more one-on-one support in the areas of Math, ELA, and Reading in Action 1.4.

<b>Staff-to-student ratios by type of school and concentration of unduplicated students</b>	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	N/A
Staff-to-student ratio of certificated staff providing direct services to students	N/A	N/A

# Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [LCFF@cde.ca.gov](mailto:LCFF@cde.ca.gov).

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
    - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

## Requirements and Instructions

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

### Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

### Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

**Comprehensive Support and Improvement**

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

*Schools Identified*

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

*Support for Identified Schools*

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

*Monitoring and Evaluating Effectiveness*

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

**Engaging Educational Partners**

**Purpose**

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

# Requirements

**School districts and COEs:** *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

**Charter schools:** *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);

- **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

## Instructions

### Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

### Complete the table as follows:

#### Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

#### Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

# Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

## Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

### Focus Goal(s)

#### Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

#### Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

**Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding**

**Description**

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
  - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
  - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

**Type of Goal**

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

**Note:** EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

**Broad Goal**

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

### Type of Goal

Identify the type of goal being implemented as a Broad Goal.

### State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

### An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

## Maintenance of Progress Goal

### Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

### Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

### State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

### An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

## Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
  - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
  - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

Metric #
<ul style="list-style-type: none"> <li>• Enter the metric number.</li> </ul>
Metric
<ul style="list-style-type: none"> <li>• Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.</li> </ul>
Baseline
<ul style="list-style-type: none"> <li>• Enter the baseline when completing the LCAP for 2024–25.</li> </ul>

- Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
- Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
- Indicate the school year to which the baseline data applies.
- The baseline data must remain unchanged throughout the three-year LCAP.
  - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
  - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

### Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

### Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

### Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

**Current Difference from Baseline**

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2026–27</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> and <b>2026–27</b> . Leave blank until then.

**Goal Analysis:**

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

**A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.**

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

**Actions:**

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

## Title

- Provide a short title for the action. This title will also appear in the action tables.

## Description

- Provide a brief description of the action.
  - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
  - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

## Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

## Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
  - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

## Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - Language acquisition programs, as defined in *EC* Section 306, provided to students, and

- Professional development for teachers.
- If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.
- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

### **Purpose**

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

### **Statutory Requirements**

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

**LEA-wide and Schoolwide Actions**

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**For School Districts Only**

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Requirements and Instructions**

Complete the tables as follows:

**Total Projected LCFF Supplemental and/or Concentration Grants**

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

**Projected Additional 15 percent LCFF Concentration Grant**

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year**

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**LCFF Carryover — Percentage**

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar**

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

**Total Percentage to Increase or Improve Services for the Coming School Year**

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**Required Descriptions:**

**LEA-wide and Schoolwide Actions**

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis**

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

**Note for COEs and Charter Schools:** In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

**Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s)**

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

## Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)

- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

## Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.  
  
See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If “Yes” is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

- **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
  - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
  - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

## Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic

Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
  - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

#### **LCFF Carryover Table**

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
