School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2023-24 School Year

This chart shows the total general purpose revenue Sanger Unified School District expects to receive in the coming year from all sources.
The text description for the above chart is as follows: The total revenue projected for Sanger Unified School District is $223,987,741, of which $160,201,255 is Local Control Funding Formula (LCFF), $28,142,040 is other state funds, $10,266,143 is local funds, and $25,378,303 is federal funds. Of the $160,201,255 in LCFF Funds, $32,347,844 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).
LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

The text description of the above chart is as follows: Sanger Unified School District plans to spend $224,797,117 for the 2023-24 school year. Of that amount, $148,360,027 is tied to actions/services in the LCAP and $76,437,090 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

- The majority of these funds are our Federal and State Categorical Programs classified as Legally Restricted Funds in our Financial Statements and used for specific purposes as outlined by the grantors of the funds.
- The remainder is a planned transfer of $6.7 million to our special reserve fund for capital outlay.

Increased or Improved Services for High Needs Students in the LCAP for the 2023-24 School Year

In 2023-24, Sanger Unified School District is projecting it will receive $32,347,844 based on the enrollment of foster youth, English learner, and low-income students. Sanger Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Sanger Unified School District plans to spend $33,445,863 towards meeting this requirement, as described in the LCAP.
This chart compares what Sanger Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Sanger Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2022-23, Sanger Unified School District's LCAP budgeted $27,488,355 for planned actions to increase or improve services for high needs students. Sanger Unified School District actually spent $28,381,476 for actions to increase or improve services for high needs students in 2022-23.
Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Plan Summary [2023-24]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Sanger is located in the heart of the Central Valley, approximately 12 miles southeast of the City of Fresno, in Fresno County. The city of Sanger is a rural, agriculturally based community with a population of 26,716. Of the total population, 79.9% are identified as Hispanic, 15.6% as White and 2.8% Asian (July 2021 US Census Quick Facts). The median income for a household in the city was $59,650 and 17.4% of the population living below the poverty line.

Sanger Unified has twenty-one schools, including three charter schools, two comprehensive high schools, one comprehensive middle school, a community day school, an alternative education high school, and an adult school. The district covers 180 square miles and serves a population of 56,614. Within the boundaries of Sanger Unified are the city of Sanger and the communities of Centerville, Del Rey, Fairmont, Lone Star, Tivy Valley and portions of the Sunnyside area of metropolitan Fresno. Attendance in the District’s schools currently numbers 13,644 students. Of Sanger Unified students, 65.37% of our students qualify for Free and Reduced Lunch, and 13.7% (1,806 students) are English Language learners. Despite the challenges our children face, Sanger has an 94% Daily Attendance rate, a rate we continually strive to improve.

Our district operates on the vision that “All students will have the options to demonstrate what they learn and the opportunities to be successful and achieve their dreams.” Our district is centered on the educational practices that focus all efforts on three goals:
1. Raise the achievement of ALL students
2. Close the achievement gap
3. Ensure a safe environment

We push to achieve those goals through the following Strategies and Initiatives:

Strategies:
1. Professional Learning Communities

2. Effective Instruction

3. Multi-Tiered Systems of Support

Initiatives:

1. Balanced Literacy

2. College and Career Readiness

Sanger Unified’s success continues to be built on foundational Beliefs that have been consistent and are pervasive in the culture of Sanger Unified:

Hope is not a strategy

Don't blame the kids

It's about learning

Every child can and must learn

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Sanger Unified focused on the analysis of the most recent release of the California Dashboards in Fall 2022 for English Language Arts, Mathematics, Chronic Absenteeism, College and Career (not available in Fall 2022), Graduation Rate and Suspension Rate. We examined the data for all students as well as Student Groups. Due to the suspension of the California School Dashboard in 2020 and 2021, change/growth was not able to be considered, so each indicator was given one of five performance levels.

The all student group performance in both the English Language Arts Dashboard and the Mathematics Dashboard was low, but on English Language Arts, there were 3 student groups that scored in the High level (Asian, White, and Two or more races). In math, two student groups scored at the Medium level (White and Two or more races). The district performance level for Graduation Rate was High and the English Learning Progress Indicator was Medium, the majority of EL students making progress on the ELPAC (52%).
In terms of specific schools, 7 out of 20 schools scored Medium, High or Very High levels on the ELA Dashboard, and 5 out of 20 schools scored Medium, High or Very High levels on the Math Dashboard. In addition, 15 out of 20 schools scored in the Medium, Low, or Very Low levels on the Suspension Dashboard.

Sanger Unified is proud of the fact that students are in school and learning. Reading Diagnostic results on i Ready show that students went from 23% to 44 % on Tier I from Diagnostic 1 to Diagnostic 3. In math, students went from 12% on Diagnostic 1 to 36% on Diagnostic 3 for Tier 1.

In order to build upon success, we plan to focus on the solid foundational practices with a focus on Professional Learning Communities, Effective Instruction and Multi-Tiered Systems of Support. Informed data throughout the year will ensure metrics, collection design and reporting are set prior to implementation.

We will continue to monitor the following actions and expectations: Positive Behavioral Interventions and Support, Social Emotional Learning, Multi-Tiered Systems of Support, Tier 1 Instruction, Response to Intervention and English Language Development.

**Reflections: Identified Need**

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Sanger Unified performed at the Low level in English Language Arts and Math on the overall for the All student group. The English Language Arts overall performance was 14.8 points below standard and the Math overall performance level was 59.1 points below the standard. In addition, the indicator of Chronic Absenteeism was at a Very High level, with 29.2% of students being chronically absent, with 9 out of 11 student groups in the Very High level. For the Suspension Rate indicator, there were two student groups in the Very High level - African American and Foster Youth, and Students with Disabilities scored at the High level. For Graduation, the All group was at the High level with a rate of 94.5%, but the Students with Disabilities student group was at the Low level with a rate of 77.5%.

Sanger Unified Low Income, English Learner, and Foster Youth students perform at lower proficiency rates on the state indicators on the CAASPP in Spring 2022.

**English Language Arts All:** 47.58%, **EL:** 15.03%, **SED:** 39.86%

**Math All:** 31.57%; **EL:** 10.3%; **SED:** 23.67%.

Sanger Unified Low Income, English Learner, and Foster Youth students perform at a lower proficiency rates on the K-8 local indicator on iReady in Spring 2022

**English Language Arts All:** 45%, **EL:** 21%, **LI:** 37%

**iReady Math All:** 36%; **EL:** 15%; **LI:** 32%

The Sanger Unified Plan of Action
• Implement Universal Design for Learning- designed to provide access to all learners especially those on the margins as indicated by our student data, by setting clear goals as identified by the standards while providing students options and choice
  • Continue to focus on Academic Discourse in student discussion and lesson design, expand teacher and leadership capacity in implementing and monitoring Academic Discourse
  • Teachers continue to use and refine Effective instruction to improve student achievement
  • Professional development for new teachers and referred to teachers which focuses on best practices and effective instruction
  • Professional Learning Communities utilize high leverage team actions to address instructional practices that analyze a unit (before, after and during) to improve student achievement
  • Multi Tiered Systems of Support (MTSS) improvement cycle process will be used for continual and consistent analysis and progress monitoring of student performance data
  • Supported MTSS improvement cycle process for targeted schools and/or student groups
  • Differentiated supports will be provided to schools based on identified areas of need
  • Include special education teachers in training aimed at unpacking standards and determination of essential standards. 
  • RTI implemented with fidelity and utilizing a model that does not pull a student from core content to offer support.
  • Modeled instruction by District Instructional Specialist (DIS) and Curriculum Support Provider (CSP)
  • Lesson study opportunities at sites
  • Math walks with DISs, administration, and CSPs supporting high quality math instruction using mathematical practices
  • Maximize time in general education classroom accessing core instruction through expansion of co-teaching and other embedded models of support.
  • Continued Professional Development on Designated(ELD) topics to build capacity of administration, coaches (e.g., EL Site Contacts), and teachers which will improve effectiveness of site ELD implementation.
  • Push in extra support with DIS on a regular basis to support sites on how to utilize ELD resources available in Sanger Learns
  • Refocus teachers on using Language Matrices aligned to ELD and CA standards for Speaking and Listening
  • Peer observations/instructional rounds to observe ELD strategies and academic discourse.
  • Differentiated supports will be provided to schools based on identified areas of need
  • Increase support in core content areas for Special Education Students

LCAP Highlights
A brief overview of the LCAP, including any key features that should be emphasized.

Sanger Unified has maintained a clear and articulate focus on the goals of the district. The goals were established prior to the development of our first LCAP and have been the driving force behind the clarity of leadership and stability from the SUSD school board, Superintendent, principals, teachers, and classified staff. The three goals that guide our decision making process include the following:

1. Raise the Achievement of ALL Students
2. Close the Achievement Gap  
3. Ensure a Safe Environment  

Sanger Unified leadership analyzed multiple measures of data including; the California Dashboards, the required LCAP metrics and other local measures at the district and site levels to determine student achievement. In addition, we focused on the implementation of our Sanger Unified strategies (Professional Learning Communities, Effective Instruction and Multi-tiered Systems of Support) and the Sanger Unified initiatives (Balanced Literacy and College and Career Readiness).

Through the analysis we have determined to focus on the following actions:

<table>
<thead>
<tr>
<th>College and Career Readiness Skills</th>
</tr>
</thead>
<tbody>
<tr>
<td>Academic Intervention and Support</td>
</tr>
<tr>
<td>Social-Emotional and Behavioral Support</td>
</tr>
<tr>
<td>Enrichment Opportunities</td>
</tr>
<tr>
<td>Professional Learning</td>
</tr>
<tr>
<td>Technology</td>
</tr>
<tr>
<td>Additional School Site Allocation</td>
</tr>
<tr>
<td>Early Learning, Literacy and Numeracy</td>
</tr>
<tr>
<td>Class Size Maintenance</td>
</tr>
<tr>
<td>Facilities</td>
</tr>
<tr>
<td>Additional Transportation</td>
</tr>
</tbody>
</table>

As a result of Educational Partners input and the analysis of Hanover Research on the 22-23 LCAP Survey and Sanger Unified's analysis of trend data and progress monitoring, the following aspects of the LCAP were explored for adjustment:

A school counselor will be added to each SUSD elementary school site to address the increasing socio-emotional needs of elementary students.

Transportation funds were reduced to reflect the additional funds allocated from the California Department of Health to Sanger Unified. Parent and Family Engagement will continue to provide classes in a variety of settings and will include topics recommended by parents and staff. The addition of a Parent Education Program Specialist has been added as a support system for outreach and education.

Balanced Literacy will now only include District Pre-School. The Literacy Specialist Teachers will not be funded this year, as all sites have fully implemented the guided reading program and have trained staff to continue to coach and support teachers in this area.

English Learner Support will include an English Learner Program Specialist that will serve all sites in the district.

Educational Partners were supportive in maintaining the broad goals that captured specific actions intended to provide services to all students including English Learners, foster youth, low-income students, and students with exceptional needs. The top 5 priorities of our educational partners include: Academic Intervention, Safe School Facilities, Social Emotional Support, Evaluating programs that are not working, Class Size Maintenance and College and Career. Support Systems and Education for families continues to emerge as another top recommendation. Actions also high on the list this year include: Technology, Early Literacy, Enrichment Arts and Science and English Learner Support.
Actions to continue based on Educational Partners input and supporting documents to ensure effectiveness include:

Goal 1- Raise Student Achievement for All Students
Balanced Literacy: District Pre- School
College and Career Readiness: AP Exam, CTE VROP Personnel
Technology: Tech Support Specialist to Support One-on-One, Tech Devices 1:1 Program
Professional Learning: District Professional Learning Initiatives, Teacher Development
Enrichment Opportunities: Summer School Enrichment, Visual and Performing Arts, Dual Language Site Support
Parent Engagement: Parent and Family Engagement Support
Additional Site Allocation: Includes Academic Intervention, Curriculum Support Providers and Site Professional Learning

Goal 2- Close the Achievement Gap
Academic Intervention and Support: SHS/Sequoia/Quail Lake/WAMS After School Programs, Parent Student Advocates
Social, Emotional and Behavioral Support: Psychologist at each site; expansion of services, Homeless/Foster Liaison, Restorative Justice Personnel, Teacher for Center for Behavioral Support, 7 Para Educators
English Learner Support: English Learner Professional Development, English Learner Program Specialist

Goal 3- Ensure a Safe Environment
Facilities, Additional Transportation, Class Size Reduction

There will be a continued focus on closing the achievement gap between all students, EL students and students with disabilities. Actions supporting this focus are reflected in Goal 2.
Sanger Unified School District will continue to collaborate with educational partners throughout the school year to explore and monitor the progress of implemented actions.

Comprehensive Support and Improvement
An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

**Schools Identified**
A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Sanger Community Day School, Kings River High School
Support for Identified Schools
A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Sanger Unified School District operates on the vision that “All students will have the options to demonstrate what they learn and the opportunities to be successful and achieve their dreams.” Our district is centered on the educational practices that focus all efforts on three goals: 1) Raise the achievement of ALL students, 2) Close the achievement gap, and 3) Ensure a safe environment. These three goals have been established over the last 15 years and continue to provide guidance for all schools. We push to achieve those goals through the following Strategies and Initiatives: Professional Learning Communities, Effective Instruction, Multi-Tiered Systems of Support, Balanced Literacy, and College and Career Readiness. Sanger Unified’s success continues to be built on foundational Beliefs that have been consistent and are pervasive in the culture of Sanger Unified: Hope is not a strategy, Don’t blame the kids, It's about learning, and Every child can and must learn.

Sanger Community Day School (CDS) and Kings River High School (KRHS) provide an alternative educational environment to students in grades 7th through 10th (CDS) and 11th through 12th grade (KRHS), who are having difficulties in the following areas: behavioral issues, attendance issues, and/or having difficulty transitioning to a traditional school setting. Students are at risk of not graduating because of poor attendance, lack of credits, or serious behavior concerns. Some of the students are on temporarily suspended expulsions. A student must maintain a 2.0 GPA, 97% attendance, no suspensions, counseling, and any other services based on the offense. Our goal is to keep students in the district and maintain their understanding that our goal as a district is to provide them the options and opportunities their peers have to succeed. All students must eventually transfer to another school to graduate. An average length of time of placement for students is one semester, depending on their rehabilitation plan. Our purpose is to create a consistent and engaging learning environment that meets the individual needs of all students enrolled at CDS and KRHS. Ultimately, CDS and KRHS assist students in preparation for transitioning to our comprehensive high schools (middle school students) and progressing toward graduation (high school students). During the 2022-2023 school year, CDS enrolled and served approximately 85 students at one time in grades 7-10 and Kings River served approximately 100 students. There is high transiency as is the nature of the programs.

CDS certificated staff consists of a principal, four full-time teachers for core curriculum areas, two part-time intervention teachers, one part-time Resource Specialist (RSP) teacher, one full time Students Assistance Program (SAP) counselor, and one part-time school psychologist. CDS’ support staff consists of: one full-time office manager, one part time clerical assistance, one campus safety officer, one noon aide, one part time custodian, and one district food service personnel. KRHS certificated staff consists of a principal, one full-time Guidance Learning Specialist, six full-time teachers for core curriculum areas, one part-time intervention teachers, one part-time Resource Specialist (RSP) teacher, one full time Students Assistance Program (SAP) counselor, and one part-time school psychologist. The support staff of KRHS consists of: one full time office manager, one part time clerical assistance, one campus safety officer, one Student/Parent Advocate, one noon aide, one part time custodian, and one district food service personnel.

Upon the identification of the CSI status, Sanger Unified School District, Sanger Community Day School (CDS), and Kings River High School (KRHS) developed a CSI committee. The purpose of the committee was to identify the practices which lead CDS and KRHS to the CSI eligibility and search for practices to ameliorate the issues. CDS and KRHS were identified as a CSI school during the 2022/23 school-year due to high rates of suspensions and meeting the criteria for a CSI school. The team met once per week to analyze the data and
determine the best plan of action to address the issue at hand. The strength of the Community Day school is the limited number of students and the relationship building culture of the staff. As the team analyzes data, they are able to discuss student by student rather than raw numbers and subgroup demographic only data. The team was composed of teachers, parents, office staff, support staff, school counselor, school administrator and a district supervisor. The team analyzed data from a variety of sources such as grades, absenteeism, rates, mental health referrals, and academic achievement. Furthermore, the process of continuous improvement began with the FCSS CSI collaborative team along with our SUSD/CDS CSI team. The team developed a needs assessment by gathering and analyzing data from the current Western Association of Schools and Colleges (WASC) visit, School Plan for Student Achievement (SPSA) plan, Comprehensive School Safety Plan (CSSP), Power-school, grades, attendance, Healthy Kids Surveys, minor/major data, restorative justice practices, counseling referrals, CDS Internal discipline logs, and the CDE data dashboard. Each year the principal develops a Principal's Summit that provides insight to the data and identifies school established goals to meet for the year. The Principal Summit is delivered to the site, educational partners, and district office personnel. In addition, educational partners were able to provide input via the Café Con Ponce meetings and School Site Council meetings. Educational Partners also completed annual parent surveys in the spring of each year.

The Community Day School initial needs assessment yielded a decline in discipline referrals and suspensions on Wednesdays and on days which expanded learning beyond the classroom. Students participate in the College and Career Readiness (CCR) Program on Wednesdays. In addition, teachers reported that on those days, they had opportunities to strengthen their relationships with their students which led to a positive and safe environment. Based on these data discussions, it was determined that the most effective approach to strengthening the school culture, increasing student self-efficacy, student engagement, and reducing the discipline and suspension rates would be by the expansion of the CCR program at CDS. However, in subsequent needs assessment the staff recognized the need for additional support in student socio-emotional support at both Community Day School and Kings River High School.

In an effort to reduce the number of suspensions and increase student engagement, CDS and Kings River will have continue to deliver a more robust College and Career Readiness Component. Teachers and Counselors will have the responsibility of planning a variety of real-life experience expeditions on a weekly basis. Teachers will be responsible for connecting and developing relationships with community businesses and colleges, which in turn will facilitate trips to those locales. The goal is to ensure the CCR Program is predictable and sustainable for years to come. In an effort to offer a more relevant program to CDS students, we will implement a supplemental personal growth/goal setting curriculum. To achieve this goal, CDS will utilize the 7 Habits of Highly Effective Teens books, curriculum and activities along with the CCR program. These activities will be delivered daily along with the 2nd Step in the Leadership class. The 2nd step program appears more of a socio-emotional approach. The 7 habits main focus is on a cognitive behavior approach (learning replacement behaviors).

CSI funds will be used to support the improvement science approach to the needs assessment development, the root cause analysis process and identification of drivers to focus on the reduction of suspension at Sanger Community Day School. Sanger Unified will receive support for the improvement science approach through the Carnegie Foundation Summit for general supports, and Fresno County Superintendent of Schools CSI support team. Initial areas of concern include: training on de-escalation skills, self-efficacy, self-control; Interventions provided for Counseling, Drug intervention; Home to School connections; work-based connections; and housing authority support. The CSI stakeholders along with a SUSD supervisor will meet monthly to analyze Multi-Tiered Systems of Support (MTSS) data to ensure the services are calibrated with the CSI plan. Currently the sites are expected to identify district and site level data each month and provide
analysis by identifying trends of the academic, behavioral, and socio-emotional data of all students, targeted student groups as well as individual student needs when appropriate.

Sanger Unified provides equal to or greater level of funding for Sanger Community Day School and Kings River High School. The funding formulas for Title I and LCAP are equal to all the other sites within the district. The Administrative staff, Counseling staff, Health staff, clerical, and safety officer, and teacher ratios to students are appropriate for a community day school setting. Sanger Unified recognizes the community day school setting requires small class sizes with appropriate support staff. An Area Administrator is assigned to CDS and Kings River to ensure appropriate resources are provided to the site. We have not determined any resource inequities both budgetary and personnel for CDS or Kings River relative to all the other SUSD schools.

**Monitoring and Evaluating Effectiveness**

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The CSI educational partners along with a SUSD supervisor will meet monthly to analyze Multi-Tiered Systems of Support (MTSS) data to ensure the services are calibrated with the CSI plan. The MTSS process is used throughout the district and has been implemented and refined over the last 10 years. Currently the sites are expected to identify district and site level data each month and provide analysis by identifying trends of the academic, behavioral, and socio-emotional data of all students, targeted student groups as well as individual student needs when appropriate. The implementation and impact of the CCR program will be added to the MTSS process. Additional data of student participation in CCR, engagement data provided by the teachers and reflection summaries of the student experience will be analyzed and compared to the other output data from the MTSS process described below. In addition, CDS plans to provide a pre-test and post-test of student knowledge of CCR initiatives at the beginning and end of the year or entry and exit if the student leaves mid-year.

The purpose of the SUSD MTSS process addresses the needs of students through screening data, researched based interventions, and constant progress monitoring. The process ensures equity and access for all learners and expects the implementation of a continuous cycle of improvement. The cycle of improvement not only includes the site level, but also the feedback loop includes leaders from other sites in our Administrative Professional Learning Communities, and district leaders in the District MTSS team. The data analyzed varies and includes site focused data as well as district data expectations. Examples of data includes reading scores in DIBELs and BAS, minor and major discipline data, various types of PBIS data, D/F list data, SEL data, iReady data, NWEA data, Restorative practice data, students on-track data, seniors on-track data, Attendance and Engagement data, Chronic absenteeism data, classroom walkthrough data, English Learner specific data, FAFSA completion data, A-G on track data, suspension and expulsion data, and college and career readiness data. For the Sanger Community Day school, the specific data related to minor/major discipline infractions, suspension and expulsion data, Restorative practices data and college and career readiness data, attendance and engagement data, D/F and GPA data will be discussed in the MTSS meetings. In addition to the CSI plan, the MTSS data analysis supports the School Plan for Student Achievement (SPSA) plan, the site level Western Association of Schools and Colleges (WASC) plan, the principal's summit plan and district/school Local Control Local Control and Accountability Plan (LCAP) at Community Day School.
Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Sanger Unified School District has existing structures in place to disseminate information and seek input from parents, staff, and community. Educational Partner engagement for the LCAP followed the same communication structures in addition to specific presentation sessions focused on the LCFF and provided information to parents, administrators, teachers, and students. Throughout this process, the goals of the district have been clearly identified and articulated as the following:

1. Raise the Achievement of ALL Students
2. Close the Achievement Gap
3. Ensure a Safe Environment

Parent/School Staff/ Student/Community LCAP Educational Partners Survey

As part of the planning process for updating our Local Control Accountability Plan (LCAP), Sanger Unified contracted with Hanover Research to survey parents, teachers/staff, students and community. Survey included a series screener questions, background questions, as well as opportunities to respond to current LCAP services including Student Support Services, Multi-Tiered Systems of Support, College and Career Readiness, School Climate and Culture, Professional Development, Parent and Community Engagement and District Priorities. Respondents were able to indicate how much they agree or disagree with statements, how satisfied they are with a variety of topics as well as an open ended response with any additional thoughts related to community involvement in Sanger Unified.

Survey responses contained a statistically-appropriate sample of all educational partner groups. A total of 4,947 responded to the online survey from November 1- November 18, 2022. Of the respondents, 32% qualify for free or reduced price meals, 8% indicated their children are English Learners, 4% indicated their children are on an Individualized Education Plan, 1% are Migrant and 1% are foster parents and 59% were none of the above.

In addition to the LCAP Survey, the District also provides a Parent Survey to all parents and every school. The survey goes out in March and the input is used improve services for students. The expected return rate is 85% for elementary sites and 75% for secondary sites. The survey is distributed in English, Spanish and Hmong.

LCAP Presentation/Discussion/Input sessions

Each site principal communicates the importance and intent of LCAP and encourages input from all educational partners. Components of the communication include the following:

Three District Goals

Goal 1: The District will provide a high quality system to raise the academic achievement of all students
1. Students provided sufficient access to standards aligned curricular materials as measured by local indicator self-reflection tool. (Priority 1)
2. Implementation of the CA state standards as measured by the state self-reflection tool. (Priority 2)
3. CAASPP Student Average Distance from Level 3 in English Language Arts (ELA) for all students including applicable Student Groups (Priority 4)
4. CAASPP Student Average Distance from Level 3 in Mathematics for all students including applicable Student Groups (Priority 4)
5. A-G Completion rates for all students including applicable Student Groups (Priority 4)
6. Career Tech Education Pathway Completion rate for all students including applicable Student Groups (Priority 4)
7. Advanced Placement pass rate for all students scoring 3 or higher including applicable Student Groups (Priority 4)
8. Early Assessment Program English Language Arts (ELA) pass rate for students meeting Conditionally Ready or higher status for all students including applicable Student Groups. (Priority 4)
9. Early Assessment Program Mathematics pass rate for students meeting Conditionally Ready or higher status for all students including applicable Student Groups. (Priority 4)
10. Student access to a broad course of study as measured by the analysis of school site master schedule (Priority 7)
11. Other Pupil Outcome - Student Met or Exceeded rate on SUSD TK-2 District Progress Assessments in English Language Arts (ELA) and CDE Interim Comprehensive Assessments for English Language Arts (ELA) (Priority 8)
12. Other Pupil Outcome - Student Met or Exceeded rate on SUSD TK-2 District Progress Assessments in Mathematics and CDE Interim Comprehensive Assessments for Mathematics (Priority 8)

Goal 2: The District will provide a high quality educational system for all students focusing on high academic rigor with a Multi-Tiered System with a focus on narrowing the achievement gap for all subgroups.
13. English Learners making annual growth as measured by/ELPAC annual growth data (Priority 4)
14. English Learner Reclassification rate (Priority 4)
15. Middle school dropout rates for all and applicable Student Groups (Priority 5)
16. High school dropout rates for all and applicable Student Groups (Priority 5)
17. High school graduation rates for all and applicable Student Groups (Priority 5)
18. Locally defined Sanger Pledge/Central Valley Promise (Priority 8)

Goal 3: The District will operate with increasing efficacy and effectiveness in all areas of operation promoting a safe school environment.
19. Properly Credentialed teachers as measured by Misassignments of teachers of English Learners, total teacher misassignments and vacant teacher positions (Priority 1)
20. Facilities maintained above 95% as measured by the Facilities Inspection Tool (Priority 1)
21. Parent involvement through the local indicator tool (Priority 3)
22. Student attendance rates for all and applicable Student Groups (Priority 5)
23. Chronic absenteeism rates for all and applicable Student Groups (Priority 5)
24. Student suspension rates for all and applicable Student Groups (Priority 6)
25. Student expulsion rates for all and applicable Student Groups (Priority 6)
26. School climate from locater indicator tool (Priority 6)

In addition to the school site communication, SUSD holds LCAP Educational Partner meetings/ input opportunities:
LCAP Educational Partner Presentation/ Input:
November 1-18 2022      Hanover LCAP Educational Partner Survey
Teachers and staff members were provided an opportunity during the school day to complete the LCAP survey which provided feedback to the district.
Some completed the digital survey during staff meetings and others completed on their own time.
February 2, 2023            District English Language Committee
March 7, 2023            Sanger Community Task Force
March 7, 2023            Sanger Unified Teachers Association
March 9, 2023            SELPA Meeting-No input provided
March 15, 2023            Alternative Education Student Presentation
March 22, 2023            High School Student Presentation
May 4, 2023            District English Language Committee

Certificated/Classified Survey- November 2022 and collection of results.

Educational Partners were given an opportunity to give input regarding LCAP Actions and Allocations.
Community Educational Partners also provided feedback through an open ended survey.
1. What services do you suggest Sanger Unified should continue?
2. What current services do you suggest Sanger Unified enhance or expand on?
3. What services do you suggest Sanger Unified provide that we are not currently providing?
4. Other suggestions and input

This information was compiled and shared with the district leadership, site leadership, the DELAC committee and the LCAP Guidance Committee. The feedback was one of the many different forms of communication to the district leadership teams to determine ongoing LCAP Goal, Actions, Services and Expenditures.

LCAP Actions and Services
Additional School Site Allocation
Technology
Early Learning, Literacy and Numeracy
Academic Intervention and Support
Social-Emotional and Behavioral Support
English Learner Support
College and Career Readiness
Parent and Community Involvement
Professional Learning
Enrichment Opportunities
Another avenue for communication and educational partner input is through the LCAP Guidance Committee. The role of the LCAP Guidance Committee is to: 1) Advise on LCAP Budget allocation, 2) share information with community members, 3) review annual progress on District goals, and 4) review other educational partner input.

Composition: Ensure that parents of students in Sanger Unified, including LCFF target subgroups, make up a majority of the membership. Through facilitated meetings, the LCAP Guidance Committee members provide important feedback that helps SUSD to shape the LCAP plan that authentically reflects the diverse interests of the community.

The LCAP Guidance Committee includes 22 members:
12 Parents
4 EL
6 SED
2 None of above
3 Students
3 Teachers
1 staff member
2 Administrator
1 SUSD board member
Certificated and Classified Local Bargaining units members

Observers
Superintendent - Adela Jones
Assistant Superintendent Tim Lopez

LCAP Guidance Committee Calendar and Focus Area

March 9, 2023         Intro, Norms, Purpose and LCFF/LCAP Overview,, Metrics and Goals and Priorities, Budget Overview, Transportation Update, Differentiated Assistance and 8 State Priorities
April 18, 2023        Goals and Metrics and Student Achievement, Local Indicator Survey, LCAP Survey Results, English Learner Presentation, Overview of Goals, Actions, Services and Expenditures presented by LCAP Writers, Budget Activity
May 16, 2023          LCAP Writers small group discussions with committee to Review Draft considerations, Review educational partner Input, Questions for Superintendent
June 1, 2023          District English Language Advisory Council review of LCAP Draft
June 5, 2023          Parent Advisory Council (PAC) Review of LCAP Draft
Met with the curriculum and instruction department leaders and provided an opportunity for input. The team synthesized the input from the LCAP survey and LCAP educational partners feedback and developed recommendations. Administration has multiple opportunities for input including LCAP Survey, DELAC meeting, and LCAP Guidance Committee Meeting.

Meetings and Opportunities to Provide additional input to LCAP Draft
May/June  LCAP Guidance Committee meeting. Members will be given opportunities to review LCAP proposed allocations and provide feedback.
June 1, 2023 District English Learner Advisory Council to review LCAP draft and provided opportunities for feedback.
June 5, 2023 LCAP Guidance Committee/DAC review of LCAP draft and provided opportunities for feedback.
June 9, 2023 Post Public Notice of Public Hearing on LCAP
The Superintendent responds to questions from /DAC and LCAP Guidance committees in response to specific questions.
In addition, the LCAP draft will be posted on June 1 on the district website for comment. An online form was made available to download and send to the district.
June 13, 2023 - Public Hearing at Board Meeting
June 27, 2023 - Board Meeting adoption of Sanger Unified LCAP, Annual Update, Budget and Local Indicators

A summary of the feedback provided by specific educational partners.

LCAP Survey  22-23, 21-22, 20-21, 19-20, 18-19
Four areas have emerged as a common trend in each of the last 5 years of the LCAP Survey.

The first is developing a system of resources and interventions for struggling students. It is recommended that the district continue to enhance efforts to highlight existing district and school support networks and mechanisms, particularly to parents. Respondents overall have a positive opinion of existing support resources and positive trends in the longitudinal data exhibit an improvement year to year not just of the perception of sufficiency of the support resources in place, but also of the educational partner awareness of these resources. However, there is still a significant number of respondents, parent respondents in particular, that are not aware of district and school resources. It is recommended that SUSD continue to promote and improve the multi-tiered system of resources and interventions to support struggling students.

The second is Social Emotional Learning. Responses demonstrate overall satisfaction with district's social-emotional support; however, students indicate a larger concern about the support than parents and staff members do. Over two-thirds of respondents indicate that schools provide resources (79%) and teachers teach students how to get help for (71%) social or emotional problems, and schools make students and families aware of resources on students' emotional or mental needs (72%). Among groups, students are less likely than parents and staff to agree or strongly agree that students and families are made aware of resources on their social emotional needs (students: 70%, vs parents: 76%, staff: 77%) and that schools teach students how to
get help for social or emotional problems when needed (67%, vs. 75%, 82%). It is recommended that SUSD strengthen the focus on providing more social emotional support by increasing students' and parents' awareness of resources on social emotional needs and enhancing trust between students and staff members.

The third area is continue to promote a safe school environment and gain feedback about perceptions of physical, mental, an emotional safety in schools. This has been a consistent factor, particularly in the last 3 years. Although about two-thirds of respondents report feeling safe at school, students are less likely than parents and staff to indicate the the school is safe.

The fourth action that emerged in the last 4 years of the LCAP Survey is a focus on College and Career and Career Technical Education. Most respondents in the 22-23 Survey agree that Sanger USD schools prepare students for college or a career at similar rates to past iterations of the LCAP Survey. A recommendation from the 20-21 survey suggested SUSD work with students to ensure they are provided with adequate college and career preparation. The 19-20 survey suggested SUSD increase opportunities for Career and Technical Education. In 18-19 a top recommendation was to emphasize skills development as part of its College and Career Readiness efforts. Less than two-thirds of staff members agree that students have the skills to succeed in the workforce or in college after graduation.

An additional action that continues to emerge is networks for families to support their children. It is recommended that SUSD further develop existing support networks and make resources more visible to families and students.

Rounding out top findings and/or recommendations include: eliminate programs that are not working and class size maintenance.

Overall Results by specific groups:
Bargaining Units: Class Size Maintenance, Social Emotional Support, Academic Intervention
DELAC: Social Emotional Support, Academic Intervention and Safe Facilities
Community: Family Engagement, Social Emotional Support, College and Career

Common trends based on written responses

What services to you suggest Sanger Unified should continue?

Social Emotional Support
Intervention
Class Size Maintenance
Parent Classes/Engagement
Career Pathways
English Language Development
Intervention Teachers
Curriculum and Staff to support English Language Development
Library services
LEAP Program (Academic as well as Enrichment)
PE and Music Teachers
Summer School
Student Advocates
Technology including apps
Professional Learning
Response to Intervention
Literacy Support
Accelerated Reader
Teacher Planning Days
Campus Monitors
Health Services

What current services do you suggest Sanger Unified enhance or expand on?

Early Literacy
Social Emotional Support
Interventions
Welcoming Families
Smaller class size
Technology
Technology Support for Families
Programs for anti-bullying
Visual and Performing Arts
STEM
Science
Field Trips
Library Services
After school tutoring
Professional Learning
Special Education Services-Hire more teachers, psychologists and speech pathologist
Athletic Facilities
New electives
What services do you suggest Sanger Unified provide that we are not currently providing?

Outreach for Non English Speaking Families
Programs to enhance healthy eating for families
Build Arts and Reading Programs
Social Emotional Support for Students
Enrichment for Math, Science and Social Studies
Saturday Tutoring
Mental Health Support for Teachers
Class size reduction
Aides for TK/ Kinder/ elementary classes
Increase Professional Learning to include Innovation
English Language Learner Support/ Including PD
Math Support
Liaison to reach out and help parents learn about school programs
GATE opportunities at all schools
Accelerated Reader/ iReady Curriculum, science kits
Other suggestions and input
Hire more Social Emotional Support Staff

The LCAP Guidance Committee ranked the actions in the following order:
Social Emotional Support
English Learner Support
Literacy
Class Size Maintenance
Parent Engagement
Facilities
College and Career
Academic Intervention
Professional Learning
Enrichment
Technology

Educational Partners ranked the actions in the following order:
Social Emotional Support
College and Career
Academic Intervention
English Learner Support
Literacy
Class Size Maintenance
Family Engagement

Student Partners Ranked the actions in the following order:
College and Career
Social Emotional Support
Enrichment
English Learner Support,
Literacy
Academic Intervention
Technology

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

As a result of educational partner input and the analysis of Hanover Research on the 22-23 LCAP Survey and Sanger Unified's analysis of trend data and progress monitoring, the following aspects of the LCAP were explored for adjustment:
Parent and Family Engagement will continue to provide classes in a variety of settings and times and will include topics recommended by parents and staff. The addition of a Parent Education Program Specialist will continue to add the needed support system for outreach and education.
Balanced Literacy will once again only include District Pre-School. The Literacy Specialist Teachers will not be funded once again this year, as all sites have fully implemented the guided reading program and have trained staff to continue to coach and support teachers in this area. English Learner Support will once again include an English Learner Program Specialist that will serve all sites in the district.

Educational Partners were supportive in maintaining the broad goals that captured specific actions intended to provide services to all students including English Learners, foster youth, low-income students, and students with exceptional needs. The top priorities of educational partners include: Social Emotional Support, College and Career, Academic Intervention, English Learner Support, Literacy and Class Size Maintenance, and Family Engagement.

Actions to continue based on educational partners input and supporting documents to ensure effectiveness include:

Goal 1- Raise Student Achievement for All Students
Balanced Literacy: District Pre-School Services
College and Career Readiness: AP Exam, CTE VROP Personnel
Technology: Tech Support Specialist to Support One-on-One, Tech Devices 1:1 Program
Professional Learning: District Professional Learning Initiatives, Teacher Development
Enrichment Opportunities: Summer School Enrichment, Visual and Performing Arts, Dual Language Site Support
Parent Engagement: Parent and Family Engagement Support
Additional Site Allocation: Will continue to include Intervention and Curriculum Support Providers and Site Professional Learning

Goal 2- Close the Achievement Gap
Academic Intervention and Support: SHS/Sequoia/Quail Lake/WAMS After School Programs, Parent Student Advocates
Social, Emotional and Behavioral Support: Psychologist at each site; expansion of services, Homeless/Foster Liaison, Restorative Justice Personnel, Teacher for Center for Behavioral Support, 7 Para Educators
English Learner Support: English Learner Professional Development, English Learner Program Specialist

Goal 3- Ensure a Safe Environment
Facilities, Additional Transportation, Class Size Reduction

There will be a continued focus on closing the achievement gap between all students, EL students and students with disabilities. Actions supporting this focus are reflected in Goal 2.

Sanger Unified School District will continue to collaborate with educational partners throughout the school year to explore and monitor the progress of implemented actions.
Goals and Actions

Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>The district will provide a high quality educational system to improve the academic achievement of ALL students.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

This goal was developed to reflect the core program provided to all students in the district. Data reflects that the district continues to have all facilities in good repair and all students have sufficient access to standards aligned materials. Additionally, teachers continue to implement state board adopted standards and provide EL students access to standards for purposes of gaining academic content knowledge and English Language proficiency. The district, in collaboration with school staff, will ensure the actions aligned with the goal continue to sustain the positive progress by monitoring the implementation of each action described below. The district will continue to consult with stakeholders and will adjust actions as necessary if data begins to reflect a decrease in outcomes.

This goal was developed because student achievement data shows that Sanger Unified needs to increase the academic achievement of all students, including Low Income, English Learners, Foster Youth students and student groups with a performance gap. The actions and metrics associated with this goal were chosen specifically to target and improve academic performance of all students while closing the achievement gaps. The metrics will illustrate the year to year growth of both students and students groups with performance gaps.

| 1.2     | Early Learning, Literacy and Numeracy      | District Pre-School ($800,000)  
The Sanger Unified English Language Arts and Math data from CAASPP and local measures of the Desired Results Developmental Profile (DRDP) indicate a need focus on early literacy and numeracy for improved achievement outcomes by 3rd grade for LI, EL, FY. To meet this need, the district will continue to provide additional preschool services to support early literacy and numeracy development and increase access to students with added risk factors such as Low Income, English Learners and Foster Youth. The preschool program is designed to prompt the early development of the identified students' language skills, social skills, learning to learn skills, and promote a love of literacy and the development of vocabulary, oral language abilities, phonological awareness, and print-related knowledge as well as number sense. Sanger Unified will monitor the Desired Results Developmental Profile (DRDP) and the Kindergarten readiness profiles have shown individual student growth from the entry and exit of the program over the last four years of implementation and will be monitored to demonstrate student growth throughout the year. This action is designed to meet the unique needs of Low Income, English Learners, and Foster Youth, however, because all students will benefit this action is being provided on an LEA-wide basis. It is our expectation that these services will result in increased performance in ELA CAASPP scores over the course of the next three years with an overarching district goal of all students being literate by 3rd grade. | $800,000.00       | Yes          |

<td>The Sanger Unified LI, EL, FY students have lower rates on the College and Career indicator percentage prepared: All - 57.5%, EL 15.4%, SED - 56.2%, and Foster 23.1%; Chronic Absenteeism: All - 12.3%, EL 16.9%, SED - 15.6%, and Foster 20.1% and graduation rates; All - 96.3%, EL 94.4%, SED - 96.4%, and Foster N/A. To meet this need, the Sanger Unified College and Career and Career Technology Education programs enhance student engagement and college and career readiness as demonstrated by a high level of CTE course completion, dual enrollment college course completion, high school graduation rates, access to industry partners through internships, and enrollment in post-secondary advanced training programs. The CTE VROP courses and teachers enable students to enroll in high quality CTE Pathways that provide workforce connections as well as connection to the local community colleges. Ninety-five percent of students that complete a CTE capstone course graduate and seventy four percent enroll in a post-secondary program. Elementary and Middle school College and Career engagement and support will be enhanced by the CTE Curriculum Support Providers, the Sanger Pledge, Robotics, and AVID programs. Additional funding provides support for LI, EL, FY to take the College Board Advanced Placement exams for a reduced fee. This action provides the students access to a rigorous course sequence and the opportunity to receive college credit. This action is designed to meet the unique needs of Low Income, English Learners, and Foster Youth, however, because all students will benefit this action is being provided on an LEA-wide basis. The above data would indicate continuing and expanding these opportunities would have a positive impact on the CCI, attendance and graduation rates of the LI, EL, FY student populations.</td>

| 1.8      | Additional Site Allocation | **School Site Allocation ($3,150,000)**  
Sanger Unified LI, EL, FY students perform at a lower proficiency rates on the state dashboard on the 2021-22 CAASPP for English Language Arts when comparing the average distance from standard:  
All: -14.8; EL: -56.2; LI: -26.3; FY -69 and Math All: -59.1; EL: -88.7; LI -71.2; and FY -88.  
In addition, Sanger Unified LI, EL, FY students perform at a lower proficiency rates on the K-8 local indicator on iReady for English Language Arts All: 45%, EL: 21%, LI: 39% and iReady Math All: 35%; EL: 17%; LI: 32% show improvement is needed. Therefore, to meet this need, school sites will be allocated funding based on the number of LI, EL, FY to provide support identified by the stakeholders of the site. All site expenditures allocated must be budgeted and included on the SPSA. The school site council/leadership teams approve the federal funds for SPSA and informed on the LCAP funding.  
District Administration monitors the appropriate expenditure of these funds. Site expenditures are required to focus on low-income pupils, English Learners, and Foster Youth to close achievement gaps. Expenditures focus on supplementary... | $3,150,000.00 | Yes          |
### Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

**A description of any substantive differences in planned actions and actual implementation of these actions.**

As a result of the return to traditional school setting after the recent pandemic limitations, the implementation of the planned actions returned to high levels. Professional development was in full implementation. Additional support was needed for the increased opportunities for College and Career courses for students as Sanger High School increased course access and Sanger West High School increased courses due to the VROP Career Technology courses and student engagement occurred at high levels during the past year and was limited only due to the slightly higher level of student absences. Technology and the 1:1 Ipad devices continued to play a strong role in the access and opportunities for student learning post pandemic. As in the past 9 years, all Transitional Kindergarten through 12th grade students had access to an iPad.

**An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.**

All of the actions in Goal 1 demonstrated no material difference between the budgeted expenditure and the estimated actual expenditure.
The progress of the academic achievement of students has continued to be a strong focus during the 2022-23 school year. Students in preschool continued to show progress on the DRDP with a growth of 49% from 89% demonstrating appropriate proficiency on the Language and Literacy domains. Students demonstrated a growth in ELA proficiency on iReady from 23% - 46%, English Learners had a growth of 5% to 23%, Low Income students had a growth of 21% to 40% and Students with Disabilities demonstrated an increase of 3% to 12%. Students demonstrated a growth in Math proficiency on iReady from 13% to 39%, English Learners had a growth of 1% to 18%, Low Income students had a growth of 16% to 40% and Students with Disabilities demonstrated an increase of 1% to 11%.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

An increase in the actions for College and Career and Professional Learning will occur as a result of the educational partner input.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
Goals and Actions

Goal

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>2</td>
<td>The district will provide a high quality educational system for all students focusing on high academic rigor with a Multi-Tiered System with a focus on narrowing the achievement gap for all Student Groups.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

This goal was developed because student achievement data shows that Sanger Unified needs to increase the academic achievement of all students, including Low Income, English Learners, Foster Youth and student groups with a performance gap. The actions and metrics associated with this goal were chosen specifically to target and improve academic performance of all students while closing the achievement gaps. The metrics will illustrate the year to year growth of both students and students groups with performance gaps.

<td>2.1</td>
<td>Academic Intervention and Support</td>
<td>Parent/Student Advocates ($500,000) Sanger Unified students identified as Low Income (LI), English Learner (EL), or Foster Youth (FY) perform at a lower proficiency rates on the state dashboard on the 2021-22 CAASPP for English Language Arts when comparing the average distance from standard: All: -14.8; EL: -56.2; LI: -26.3; FY -69 and Math All: -59.1; EL: -88.7; LI -71.2; and FY -88. In addition, Sanger Unified LI, EL, FY students perform at a lower proficiency rates on the K-8 local indicator on iReady for English Language Arts All: 45%, EL: 21%, LI: 39% and iReady Math All: 35%; EL: 17%; LI: 32%. A high number of middle school and high school students are at risk of not meeting graduation requirements and/or are struggling socially and behaviorally. In addition, the LI, EL, FY student groups have shown a persistent learning gap on state and local assessment. As a result of this need, additional supportive interventions through the use of Parent/Student advocates, and site level Teachers on Special Assignment are essential. According to our Hanover LCAP Survey, actions that emerged in the top 3 recommendations for 2 out of the 3 years includes intervention for struggling students. SUSD will continue to provide Parent/Student Advocates to support LI, EL, FY. Additional Teacher on Special Assignment (TOSA) at the K-6 elementary schools and Intervention Teachers at the middle and high schools will be funded through the additional 15% Concentration funds. This action is designed to meet the unique needs of Low Income, English</td>

<td>measures taken in our schools. It is anticipated that this action will support positive CAASPP growth from the established baseline. Funding principally directed to a Community Liaison whose goal is to provide on-site support to foster youth and homeless students as well as increase identification and tracking of incoming students. The Liaison will also coordinate and collaborate with care providers, social workers, service providers, and school-based service providers to ensure that foster and homeless youth receive the full benefit of their education. This support, encouraging positive school experience, has shown to have a positive impact on academic growth. It is anticipated that this action will support positive CAASPP growth from the established baseline. The district is adding 2 Restorative Justice (RJ) personnel to support the middle school and high school system as it implements RJ programming focused on mediation, relationship-reparation, and alternatives to a punitive punishment response. These positions are principally directed to those same at-risk, Tier 2 students who require specific support for unique needs. This support, encouraging positive school experience, has been shown to have a positive impact on academic growth. It is anticipated that this action will support positive CAASPP growth from the established baseline. The district is enhancing a Center for Behavioral Evaluation; a short-term intensive intervention program for students with significant social, emotional, and behavioral needs primarily those students who are Low Income, English Learners, and Foster Youth. To enhance the socio-emotional support at the elementary schools, additional counselors will be added to each elementary school. The additional Pupil Services staff such as psychologists and counselors will be provided by the additional Concentration grant funds. This will require the addition of a teacher and three para-educators. This action is designed to meet the unique needs of Low Income, English Learners, and Foster Youth, however, because all students will benefit this action is being provided on an LEA-wide basis. It is our expectation that these services will result in increased performance in ELA and Math CAASPP, iReady ELA and Math, Chronic Absenteeism, and Graduation rates over the course of the next three years.</td>

| 2.3      | Multilingual Learner Support         | Multilingual PD and additional support ($50,000)  
Multilingual Assessment ($30,000)  
Multilingual Program Specialist ($160,000)  
Dual Language Immersion Site Support ($360,000)  
English learners in SUSD continue to show slower growth than English Only students on CAASPP and local assessments for ELA and Math. Sanger Unified students identified as English Learner (EL) perform at a lower proficiency rates on the state dashboard on the 2022-23 CAASPP for English Language Arts when comparing the average distance from standard: All: -14.8; EL and Math All: -59.1; EL.  
In addition, Sanger Unified English Learner students perform at a lower proficiency rates on the K-8 local indicator on iReady for English Language Arts All: 45%, EL: 21% and iReady Math All: 35%; EL: 17%. To meet this need and ensure our English Language Learners are meeting grade level standards, SUSD will continue to support schools by providing multi-tiered systems of support services that are designed to meet the unique needs of English Learners including Migrant students. To enhance supports for English Learners. SUSD will provide a Multilingual Program Specialist and Multilingual Professional Development. The Multilingual Program Specialist will provide professional development, guidance, and resources related to Multilingual programs and services across the district. Personalized site training, resources, and support will be customized based on the California EL Roadmap self-reflection rubric scores and site needs.  
ELD professional development will include embedded ELD strategies that help students access and make meaning of grade level content and remove instructional barriers across all grade levels. We will use EL Site Contact and other district surveys, site feedback, and other available data to select and prioritize training topics and ELD resources. ELD professional development topics and screencasts will include Designated ELD for TK-2, 3-6, 7-12, Integrated ELD training for various grades and content areas, supporting Multilingual Learners with IEPs, VAPA-infused ELD lessons and resources, and STEM and ELD integration. Multilingual Professional Development has shown increased understanding of standards as a result of teacher survey's and lesson development. The Dual Language Programs will support | $600,000.00 | Yes          |
literacy skills and language acquisition for EL students. Dual Language Programs at Centerville and Del Rey will continue to offer Dual Language Instruction. The district will continue to add at least three (3) new Dual Language classrooms each school year to support our growing program. Centerville Elementary has also been approved to grow into a K-8 dual language magnet. The continued success and growing interest in Dual Language Programs support the need to continue services. This action has been effective at increasing teacher capacity to support English Learners achievement. It is our expectation that these services will result in increased performance in ELA and Math CAASPP, iReady ELA and Math, for EL students.

Goal Analysis [2022-23]
An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

The planned actions of the Academic Interventions, Social-Emotional and Behavioral Support and English Language Development support aligned with the implementation of the actions. However, the after school program funding in the Academic Intervention action was supplemented with the Expanded Learning Opportunity Program funding. The parent/student advocates remained as an action that was carried out at the middle and high school levels. The Psychologist Expansion of Services, Homeless/Foster Liaisons, Restorative Practices Personnel, and Center for Behavioral Support actions continued to support the students fragile socio-emotional status following the events of the post pandemic stress.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The budgeted expenditures for Academic Intervention and support was different due to the availability of the Expanded Learning Opportunity Program funding for the after school programs that was previously district funded by the LCAP. The budgeted expenditures for the Social-Emotional support and the English Learner programs continued to equal the estimated actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.

Unduplicated students have continued to be a targeted focus during the 2022-23 school year. Students demonstrated a growth in ELA proficiency on iReady from 23% - 46%, English Learners had a growth of 5% to 23%, Low Income students had a growth of 21% to 40% and
Students with Disabilities demonstrated an increase of 3% to 12%. Students demonstrated a growth in Math proficiency on iReady from 13% to 39%, English Learners had a growth of 1% to 18%, Low Income students had a growth of 16% to 40% and Students with Disabilities demonstrated an increase of 1% to 11%. In terms of socio-emotional data from Panorama, increases have occurred in Student Competency 4th-5th Emotional Regulation: 47%, Growth Mindset: 60%, Self-Efficacy: 52% and Social Awareness: 66%. The older students showed similar increases Student Competency 6th-12th Emotional Regulation: 48%, Growth Mindset: 54%, Self-Efficacy: 48%, and Social Awareness: 58%. In addition, the English Learner reclassification rate increased from 6.0% to 8.7%.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The great increase in socio-emotional development at the elementary level for a counselor at each site will be a significant increase as a result of our educational partner feedback. Additional funding for Multilingual Learners has been added to address the professional development of teachers. ELD professional development topics and screencasts will include Designated ELD for TK-2, 3-6, 7-12, Integrated ELD training for various grades and content areas, supporting English Learners with IEPs, VAPA-infused ELD lessons and resources, and STEM and ELD integration.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
## Goals and Actions

### Goal

<td>The CA Dashboard the Sanger Unified student suspension rates show a Medium and Yellow (4.0%) for All students, Medium and Orange (2.9%) for English Learners, and a Medium and Yellow (4.2%) level for Socioeconomically Disadvantaged students. The Facilities Inspection Tool shows well maintained facilities (98.6%). Based on this assessment SUSD has found that our LI, EL and Foster Youth students need additional support and scaffolds within in the classroom to be successful. The Sanger Unified School District is committed to providing quality education to its students that includes student safety and well maintained up to date facilities. Facilities upgrades included a focus on enhancing technological access, classroom reconfiguration to provide greater student collaboration, and classroom redesign to enhance teacher presentation. It is our expectation that these services to the facilities will result in greater student collaboration and more efficient teacher presentation that will enhance the learning experience of the EL, Li and Foster Youth student population. The enhanced technology will facilitate quicker English acquisition for our English Learners. A well maintained and up to date facilities will have a positive impact on student performance for Low Income, English Learners, and Foster Youth as well as all students. It is our expectation that these services to the facilities will result in a safer, well maintained and up to date facilities and have a positive impact on the academic progress of the Low Income, English Learners, Foster Youth, and suspensions for all students as well as the English Learner and Low Income students. Educational Partners have identified</td>

<td>facilities as a top action over the past 3 years. This action is designed to meet the needs most associated with LI, EL and Foster Youth students. However, because we expect that all students will benefit, this action is provided on an LEA-wide basis. We expect this action to continue to see increased positive outcomes on the climate survey from these students and their parents.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3.2</td>
<td>Additional Transportation</td>
<td>Additional Transportation ($1,250,000) The Sanger Unified School District is committed to providing quality education to its students; and student school attendance is vital to a student's academic success. In addition, the Sanger Unified attendance rate is high (EL - 95.5%, SED 95.2%) and the CA Dashboard for graduation rates remain High for English Learners (95.6%) and High for Socially Disadvantaged students (96.6%). To ensure all our Low Income, English Learners, and Foster Youth are provided equal access and opportunities regardless of their home to school transportation status, Sanger Unified will provide additional transportation services to students. Sanger Unified transportation services covers approximately one hundred eighty square miles and transports over five thousand students daily; District transportation is an integral part of ensuring student access to daily educational services and interventions before and after school. Prior to 18-19 transportation services to and from school are provided as follows: Kindergarten: one (1) mile Grades 1-3: one and one-quarter (1 ¼) miles Grades 4-8: two (2) miles Grades 9-12: two and one-half (2 ½) miles It is the intent of the Sanger Unified to maintain the busing area to the following: Kindergarten: one-half (½) mile Grades 1-3: three-quarter (¾) miles Grades 4-8: one and one-half (1 ½) miles Grades 9-12: two (2) miles</td>

**Goal Analysis [2022-23]**

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The planned actions of Facilities, Transportation and Class Size Maintenance were performed as written in the 2022-23 plan.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The budgeted expenditures and the actual expenditures for the actions of Facilities, Transportation and Class Size Maintenance did not have a material difference.

An explanation of how effective the specific actions were in making progress toward the goal.

The actions played a role at enhancing the student environment, increasing student attendance, and maintaining appropriate class size. Students demonstrated a growth in ELA proficiency on iReady from 23% - 46%, English Learners had a growth of 5% to 23%, Low Income students had a growth of 21% to 40% and Students with Disabilities demonstrated an increase of 3% to 12%. Students demonstrated a growth in Math proficiency on iReady from 13% to 39%, English Learners had a growth of 1% to 18%, Low Income students had a growth of 16% to 40% and Students with Disabilities demonstrated an increase of 1% to 11%.
A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The three actions of Facilities, and Class Size Maintenance will not have significant change, however, with the additional 15% Concentration funds, the district will support the expansion of teachers and classified staff to support the needs of the students. The additional concentration grant funds will be used to increase the number of certificated staff, and classified staff who provide direct services to students on school campuses with greater than 55% unduplicated pupil enrollment. However, the Transportation amount will decrease by the amount due to the increase in funding provided by the California Department of Education for district student transportation.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

**Required Descriptions**

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

The actions listed below are being provided on a “wide” basis to maximize efficiency and effectiveness and streamline implementation so that targeted support can be provided to the specific identified unduplicated group(s) in each action, while allowing other students to also benefit as/if needed. We expect that by providing these actions/services to meet the unique needs of our English learner, foster youth, and/or low-income students, the LEA will achieve the anticipated outcomes targeted to meet each identified student group’s stated need(s).

The required justification for how the district is increasing and improving services for the specified unduplicated student group(s) are contained in the action description in the Goals and Actions section of this plan. In the Goals and Actions section of this plan, each action marked as “wide” contains a detailed explanation of how that action is principally directed toward the English learner, foster youth, and/or low-income student.
population and effective in helping close equity and performance gaps.

Each "wide" action in this plan will meet this requirement by: (1) Identifying it as a contributing action, (2) Clearly articulating how the needs of our foster youth, English learners, and or low-income students were considered first, including how the action considers those needs through its design, content, method, location, or another attribute, and (3) Explaining how the action is effective in meeting the goal and the identified student group(s) needs. This unique approach was taken after consultation and input from our educational partners and other interested partners. Our intention in doing this was to increase transparency for our educational partners so they can better understand the rationale behind each "wide" action. We find this approach to be very transparent and well received by our community.

The contributing “wide” actions in this plan are:

Goal and Action Number List Example:

Goal 1; Action 1: Balanced Literacy-District Pre-School
Goal 1; Action 2: College and Career Readiness-Career Technology Education, Program (VROP) Personnel Support, Advanced Placement Exams
Goal 1; Action 3: Technology-Devices for 1:1 Program, Technology Site Support
Goal 1; Action 4: Professional Learning-District Professional Learning Initiatives, Teacher Development and Retainment
Goal 1; Action 5: Enrichment Opportunities-Summer School Enrichment, Visual and Performing Arts Support, Dual Language Enrichment Support
Goal 1; Action 6: Parent and Family Engagement-Parent and Family Engagement Support, Parent Education Program Specialist
Goal 1; Action 7: Additional Site Allocation- School Site Allocation
Goal 2; Action 1: Academic Intervention and Support-Additional site After School Program Support, Parent/Student Advocates
Goal 2; Action 2: Social-Emotional and Behavioral Support-Psychologist at each site, Homeless/Foster Liaison, Restorative Practices Personnel
Goal 3; Action 1: Facilities, Safe School Environment
Goal 3; Action 2: Additional Transportation
Goal 3; Action 3: Class Size Reduction
A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Sanger Unified has demonstrated it has at met the 25.7% proportionality percentage by providing increased/improved services to our English learner, foster youth, and/or low-income students equivalent to a 25.7% proportionality percentage based on the contributing actions/services in this plan, which expended all supplemental and concentration funds calculated for the LEA as demonstrated in the action tables. We are meeting the minimum proportionality percentage by providing the actions/services principally directed toward the unduplicated student population as summarized in the prompt above and explained and justified in detail in each contributing limited action description within this plan. It is our intent that this approach of justifying how each applicable action is principally directed and effective in the action’s description meets/exceeds requirements for the “principally directed and effective threshold” as well as contributing toward meeting the Minimum Proportionality Percentage (MPP) requirement. These actions/services are most transparently communicated and understood by our educational partners through the approach we use in this plan. Building on the information provided in the prior prompt response above, the limited actions/services below are contributing to increasing or improving services for English learner, foster youth, and/or low-income students by the percentage indicated above as explained in the language of each unique actions. We are using the increased funding to increase and improve services as described for our LEA-wide and school wide services in prompt one and as described below for each of the student groups on a limited basis:

Goal 2; Action 3: English Learner Support.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The additional concentration grant add-on funding will be used in Goal 3; Action 3 Class Size Maintenance to increase the number of staff providing direct services to students to maintain class size. Based on a local needs assessment these student groups would benefit significantly from maintaining low class sizes in primary grades in order to increase opportunities for individualized instruction to better meet the individual learning needs of FY, LI, and EL students. To address this need, Sanger Unified is committed to maintaining and enhancing class size reduction in grades K-12. Maximum class size for K-6 is negotiated at 32. Maximum class size for 7-12 is negotiated at 34. The additional concentration grant funds will be used to increase the number of certificated staff, and classified staff who provide direct services to students on school campuses with greater than 55% unduplicated pupil enrollment. We expect that the state and local achievement data in the areas of ELA and Math for foster youth, low-income and English learners will increase as the program is designed to meet the learning needs and experiences most associated with these specific student groups.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
  - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

**Plan Summary**

**Purpose**

2023-24 Local Control and Accountability Plan for Sanger Unified School District
A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

**Requirements and Instructions**

**General Information** – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA’s LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year’s LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.

- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

**Engaging Educational Partners**
Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: [https://www.cde.ca.gov/re/lc/](https://www.cde.ca.gov/re/lc/).

Requirements and Instructions

Below is an excerpt from the 2018–19 Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:
For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
• Inclusion of action(s) as contributing to increased or improved services for unduplicated services
• Determination of effectiveness of the specific actions to achieve the goal
• Determination of material differences in expenditures
• Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
• Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose
Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions
LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

• Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

• Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

• Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.
Focus Goal(s)

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

**Consistently low-performing student group(s) criteria:** An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated
Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.

- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

**Low-performing school(s) criteria:** The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the “All Students” student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

**Measuring and Reporting Results:**
For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.
Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.
- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

<td>Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.</td>
</tr>
</tbody>
</table>

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions**: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. *(Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in California Code of Regulations, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).*

**Actions for English Learners**: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in EC Section 306, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth**: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis**: Enter the LCAP Year.
Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

**Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

**Purpose**

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

**Requirements and Instructions**

*Projected LCFF Supplemental and/or Concentration Grants:* Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.
**Projected Additional LCFF Concentration Grant (15 percent):** Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year:** Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar:** Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

**Total Percentage to Increase or Improve Services for the Coming School Year:** Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

**Required Descriptions:**

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.
Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

*Unduplicated Percentage > 55 percent:* For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

*Unduplicated Percentage < 55 percent:* For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions are the most effective use of the funds to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:
School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40 percent or more enrollment of unduplicated pupils**: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils**: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

**A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.**

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

**A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.**

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:
An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

**Action Tables**

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
Table 2: Contributing Actions Table (for the coming LCAP Year)

Table 3: Annual Update Table (for the current LCAP Year)

Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)

Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.

- **1. Projected LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year**: This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage**: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

- **Total Percentage to Increase or Improve Services for the Coming School Year**: This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —
Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #**: Enter the LCAP Goal number for the action.

- **Action #**: Enter the action’s number as indicated in the LCAP Goal.

- **Action Title**: Provide a title of the action.

- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?**: Type “Yes” if the action is included as contributing to meeting the increased or improved services; OR, type “No” if the action is not included as contributing to meeting the increased or improved services.

- If “Yes” is entered into the Contributing column, then complete the following columns:
  - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  
  - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  
  - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
• **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  o **Note**: For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

• **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

• **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

• **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

• **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

• **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

  o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

  For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

### Contributing Actions Table
As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

**Annual Update Table**
In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

**Contributing Actions Annual Update Table**
In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

**LCFF Carryover Table**
- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).
10. Total Percentage to Increase or Improve Services for the Current School Year: This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables
To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table
- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
  - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table
Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)
7. Total Estimated Actual Expenditures for Contributing Actions
   - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)

Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
   - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)

5. Total Planned Percentage of Improved Services (%)
   - This amount is the total of the Planned Percentage of Improved Services column

8. Total Estimated Actual Percentage of Improved Services (%)
   - This amount is the total of the Estimated Actual Percentage of Improved Services column

Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
   - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table
10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
   - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
   - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
   - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

   The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
13. LCFF Carryover — Percentage (12 divided by 9)

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
